

LETTERS SENT

YEAR 2ND SEPT 1672 TO 6TH MARCH 1674

PRESIDENCY COLLEGE ARCHIVES

L.S. 4/2
1872-79

(one)

Memo N^o 452.

D^y 2nd Sept. 1872

Mamick Chandra
3rd Apr. 1872

Recommended for the Sanction of the Director of Public
Instruction. The Transfer fee of Rs. 40 will be remitted to
The Treasury.

S^y J. Sutcliffe

Principal Presi. College

N^o 453

To The Secretary to the Government of India
Public Works Department

Sir Presidency College The 2nd September 1872.

In reply to your office letter N^o 1048 & G. of 28th August,
I have the honor to state that there only 5 Scholarships
annually available for Licentiates of Engineering, and
that these are given to the men highest in the list of proposed
Candidates. There is no difference in the present professional
qualification of all the proposed Candidates, except that
which is involved in occupying a lower place in the list.
The Scholarship holders have the advantage of being at once
placed in a position to learn their profession practically,
and the officers under whom they have served will probably
be in a position to say who are the fittest to fill vacancies
in the Public Service when they occur. A preference should,
I think, always be shown in selecting men for the
Service to those who are so recommended.

S^y J. Sutcliffe

Principal Presidency College

N^o 454.

To The Executive Engineer Mohamuddee -
Division Cuttack.

Dated 2nd September 1872.

Refers to His N^o 155 Dated 28th August 1872.

Informing that as no reply was received to
this Office Memo N^o 153 of 26th March last, the Examination Papers are
not sent. Further that Mr. Collins can be registered for Examina-
tion in February next on a reply being sent.

S^y J. Sutcliffe

Principal Presidency College

N^o 455

To The Superintendent of Stationery Office
Sir Presidency College the 3rd September 1872
I have the honor to request that you will
be good enough to send for Bearer Babu Khetur
Mookherjee a writer attached to this office a
supply of Stationery as mentioned in the accom-
panying Indent.

S. J. Sutcliffe
Principal Presidency College

N^o 456

To W. S. Atkinson Esq. M. A. Director of Public Instruction
Presidency College the 3rd September 1872

Sir With reference to your office Memo N^o 3030 Dated 13th
August I have the honor to report that the Master there is recommended to
officiate for Extra Master of the Hare school being found in efficient
Balas Tama Churn Mukherjee has been appointed to officiate in the past
from 1st Instant and to request that the arrangement may be confirmed.

S. J. Sutcliffe
Principal Presidency College

N^o 457

To W. S. Atkinson Esq. M. A.
Director of Public Instruction

Sir Presidency College the 3rd September 1872
With reference to the letter from the Accountant
General of Bengal N^o 67 of 20th August forwarded under your
endorsement N^o 3399 of 28th August I have the honor to state
that I was not aware of there being any separate donation
of Rupees 500 in addition to the one for Rupees 2000, such
however being the case I recommend that the interest be
credited under one head in the Accountant General's books
and the annual amount available (Rs. 100) be devoted to pro-
viding one Silver Medal for the Candidate from the Presidency

College at the First Examination in arts who pass the
 best Examination and a gold Medal for the Candidate who
 stands first in the list of passed Candidates from the Presi-
 dency College at the B. A. - Examinations the sum available
 will be sufficient to provide the above Medals. -

To W. S. Atkinson Esq. M. A.
 Director of Public Instruction
 Presidency College the 12th Sept^r 1842
 In my letter N^o 1372 of 17th Nov^r 1840.
 I suggested that Gov^t should authorize the Medical
 Store Dept^t to supply the College with any Chemicals
 that might be required for class instruction on a chargeable
 indent. I told the Medical Store keeper that I had
 applied to Government on the subject and pending the
 receipt of a reply I have been supplied with various
 Chemicals which the Professor required from time to time.
 The Off^r Secretary to the Inspector Gen^l of Hospitals
 now writes & calls upon me to send him a copy of this
 letter in which Government sanction the supply of chemicals.

from Government Stores. as I have never rec^d any reply to
 my letter of Nov^r 1870 I am unable to comply with this
 request. I beg that you will again move Government to
 authorize me to draw supplies of chemicals &c for the
 use of this College Laboratory from the Medical Store Dept^o
 on a chargeable indent payable payable from the Ministry
 of the Model allowance as sanction in your Memo A:3258
 Dated 20th August 1870.

W. J. Atkinson Esq: M. A.

Director of Public Instruction

Sir

Presidency College the 13th September 1872.

I have the honor to forward a petition to His
 Honor the Lieutenant Governor from the Students of the
 Keshnaghar College who joined the 3rd year class of this
 College as free Students after the abolition of the Higher Dept^o
 at the Keshnaghar College.

The Petitioners ask to be allowed to return
 the privilege of free tuition during their 4th year. I think
 the extension of the period of free tuition for another year
 is a greater concession than their case warrants, but on a full

Consideration of all the Circumstances I recommend
that they be allowed to prosecute their Studies for another
year on payment of the same fee - Rupees 5/- a month -
as the transferred students of the Sanskrit College. -

Sir

I have the honor to recommend that leave of
 absence on Medical Certificate for 104 days from 20th Instant
 be granted to Baboo Gurus Chandra Deb - and that Baboo
 Beni Pradhub Dutt M. A. be appointed to officiate for
 him during this period.

S. J. Sutcliffe
 Principal Presidency College

N^o 493.
 To Mr. J. Atkinson Esq. M. A.
 Director of Public Instruction.

Sir Presidency College The 21st September 1842.

I have the honor to forward the Budget Estimate of Receipts and Expenditures of the College and Schools for the year 1843-44.

In the College Budget I have entered the Salary (9000 Rupees) of a 4th Grade Officer with a view to his being appointed a Second Professor of Natural Science. The Lieutenant Governor has already sanctioned this addition to the College Staff and it will be necessary that his appointment should take effect from the opening of next Session. The additional expenditure for this officer and the advance in the pay of graded officers already attached to the College account for the increase (Rupees 13500) in the Budget of the coming year.

I have also separated the Miscellaneous expenditure as far as practicable and placed each item under the Departmental Budget to which it properly belongs.

J. J. Sutcliffe

Principal Presidency College

Report of the Committee appointed to draw
 up lists of books for the libraries of High Schools & Colleges

1 In preparing the accompanying list of
 books for the libraries of High Schools and of Colleges,
 we have been guided by the instructions contained
 in Mr. Edgar's letter No 2767 of 7th August.

2 We have in each case prepared two lists;
 one of necessary books, or works of reference, and one of
 useful or standard works.

3 The first list contains (a) works of reference
 properly so called, namely, dictionaries, Cyclopaedias,
 maps &c; (b) the best books actually in use in the
 University Course (c) such works as have been found
 necessary to illustrate the best books and to provide
 for the efficient teaching of the Subjects set for exam^{ns}.

4 In framing division (b), or best books in use,
 we have often thought it advisable to introduce complete
 sets of an author's works, even though only isolated volumes
 are actually required. Thus a few of the most useful

Traverley novels have been from time to time laid down in the Honor Course; but we have introduced the whole series into the list, on the ground that mutilated sets are undesirable. On the other hand, while Scott's Poetry is used for the first Arts Course, the novels are not; they have therefore been excluded from the necessary list for High Schools. Again in the History Honor Course, Prescott's Philip II is one of the prescribed text-books; but as it contains numerous references to an earlier period, treated in a previous work (the History of Ferdinand and Isabella), the latter work has been added to the list. But the other histories of the same series, viz. the 'Conquest of Mexico' and the 'Conquest of Peru' not being so closely related to the text-books, have been added to the second or useful list. A similar distinction has been made between Milton's Poetry and his Prose works; the latter being placed in the first list for College Libraries, in the second for High Schools.

5. Division (C) of the first list consists mainly of such histories as are needed to illustrate the text-books; Dictionaries of Biography & Antiquity; Histories of the Language and Literature of England; and literary Criticisms (such as Macaulay's, Jeffrey's and Hazlitt's Essays) on the authors used in the Course.

On passing the second of the required lists, we have found more difficulty in giving an adequate interpretation to our instruction. This list of works recommended but not prescribed, was to consist of such standard works on various subjects as might be considered 'most likely to have a beneficial effect on the mind & character of the boys'. As the previous list was not intended to be exhaustive of all the books suited for School Libraries.

Libraries.

not even to indicate the style of books desired in them, it might be thought that the second or supplementary list was designed to fulfil these conditions. But such a task would be practically endless. For example 'Tom Brown's School Days'; 'The Life of George Stephenson'; 'Baker's Victoria Nyanza'; or 'Kinglake's War in the Crimea' may be taken at random as types of works very desirable for a School or College Library, but which have no exclusive claim to preference over a numerous list of others of a similar character. But it fortunately happens that the text-books prescribed by the Calcutta University have been chosen with so much care, and cover so large a field, that they (together with the books necessary to illustrate them) really include examples of nearly all works which a College Library ought to possess. Accordingly the supplementary list for Colleges has been generally confined to those books which at first seemed to be necessary to the efficient teaching of the subjects prescribed in the B.A. & the Honor Course, but which we have afterwards judged to be not absolutely necessary. Similarly, the supplementary list for High Schools, has been generally confined to those books which have been thought necessary or useful for Colleges.

7 It is hoped that the list now forwarded will serve as a guide towards the formation or nucleus of an English library; they pretend to nothing more. The additions to it can only be rightly made from the new books or new editions which from time to time are published in England.

N^o 520

To Mr. J. Atkinson Esq: M. A.
Director of Pub. Instruction
Presidency College The 21st October 1872

I have the honor to forward an application from Baboo Nil money Chuckerberty - 2nd Master of the Hare School - asking for an extension of 3 months to the leave granted him in your N^o 2689 of 25th July which expired on 7th October. The application is accompanied by a Medical Certificate from the Sub-assistant Surgeon of Moughyr, and I recommend that the leave be granted. I recommend also that the arrangements previously sanctioned for carrying on his duties be continued during the extend leave.

S: J. Sutcliffe

N^o 521

To Mr. J. Atkinson Esq: M. A.
Director of Public Instruction

Sir Presidency College The 22nd Oct^r 1872
In reply to your letter N^o 3176 of 17th August enclosing N^o 2767 of 7th Idem from the Government of Bengal I have the honor to submit the following lists of Books.

1. Books of Reference necessary for Libraries of Higher Class English Schools.
2. Standard Books useful, but not absolutely necessary for Libraries of Higher Class English Schools.
3. Books necessary for Libraries of High Schools.
4. Books useful but not absolutely necessary for Libraries of High Schools.
5. Books necessary for Libraries of Colleges.
6. Books useful but not necessary for Libraries of Colleges.

² The Lists 1 and 2 have been prepared by the Head Masters of the Hindoo and Hare Schools in consultation with myself and the entire cost of the Books included in these lists will be about Rs 1700/- an amount which is moderate I think considering the very useful Library which the lists comprise.

The Lists 3, 4, 5, and 6 have been prepared by a Committee of Professors which I appointed for the purpose and their Report, which I enclose, sets forth so fully the Considerations by which they have been guided - that it is unnecessary for me to do more than to express my concurrence in their Views.

S. J. Sutcliffe

Principal Presidency College

Extract from the Office Memo. of the Assistant Accountant General of Bengal Dated 4th October 1872.

"It may be arranged however in Communication with the Land Lord that he should draw his Share of the Water Rate within the 1st Month of the quarter for which it is due, so as to admit of his paying the full Rate to the Insurers in advance and thus securing for himself and the Tenant the abatement of 2 per cent claimable under Section XVI of Act I (B.C.) of 1840. This plan is adopted by the Director of Public Instruction in respect to the premises in which his office is located, and I am to request that it may be adopted by you."

N^o 322.

Forwarded for the information of Baboo Moorally Chunder for self and as Executor of Baboo Bunsudhur Sen deceased with a request that his Bill for $3/4$ Share of the Water Rate paid by the College may be forwarded to this Office in advance within the first Month of the quarter as requested by the Assistant Accountant General. as Government must enforce the abatement of 2 per cent on the Rate allowed by Law.

S. J. Sutcliffe

Principal Presidency College

Presidency College
The 22nd Oct^r 1872

The Commissioner of Police Calcutta
 Sir Presidency College The 22nd October 1842

I have the honor to request that you will be good enough to permit me as last year to put up a Tent on the Maidan near the October Monument for the accommodation of the Civil Engineering Students of this College who are to make a Compass Survey of the Maidan.

S^t J. Sutcliffe

Principal Presidency College
 Mr. Poll Esq^r Executive Engineer
 1st Calcutta Division

Sir Presidency College The 23rd October 1842.

I have the honor to request that, if possible, you will execute the General Repairs of the East wing of the Presidency College (Hindu College) now occupied by the Hindu School between 10th December and 10th January during which the School will be closed. The quadrennial Repairs of the building were due last May, and probably it was an oversight in omitting the building from the list of those for which general Repairs were due during the current year. It will, however, be a very great Convenience if you can manage to execute the General Repairs of the Eastern wing now leaving the Central and Western portions to be repaired in May next, when there will again be a holiday for one month. I make this request because it is not possible to execute the Repairs of the entire building in one month, and if the Institution were closed for a longer period than the authorized holidays it might be urged by Parents and guardians that they had a claim to a remission, or partial remission of fees. As the fees amount to 8 to 9000 Rs a month it is obviously most undesirable to raise any claim of the kind. I understand that the Executive Engineer of the Division in which the Muddrupa is situated has at his disposal Rs 1000/- for Educational building. This sum cannot be wanted by him during the current year and a considerable portion of it might be transferred

15

to your Division. Beyond white washing a few rooms at the
Muddappa and doing one or two other little jobs, there is
no expenditure required on that building during the
current year. Sd/ J. H. Cliffe

 and Law Departments has never been supplied with
 Stationery from the Stationery Office and hence the Stationers
 bills and Printing Paper alluded to which were

used in the General Department have been supplied by
purchase.

Signed/ H. K. L. Principal Ben. H. K. L.
No 554

To Mr. S. Allison Esq. M.A.

Director of Public Instruction

Presidency College the 19th November 1872.

I send Mr. Clarke's letter No 2310 of 2nd October
to Mr. Scott with a request that he would lay down a standard of
Examination as suggested by Mr. Clarke and I have now the honor
to enclose Mr. Scott's reply.

2. I understand Mr. Clarke to refer to two distinct
classes of men seeking to qualify as Teachers of Surveying viz. trained
youths from Normal school who would require to be examined
in a Vernacular and Teachers of English schools who seek to qualify
for the posts now held by Teachers who have been trained in the
Engineering department of this College and whose Examination would
be conducted in English. Should I be right in the reading of
Mr. Clarke's letter there should be a separate agency for the
examination of each class. Neither Mr. Scott nor Mr.
Dawkins could conduct an examination in a Vernacular
but the two well qualified Teachers of Surveying in College
at Dacca & Patna are quite competent to do so and
with a view to the maintenance of a uniform standard
I would suggest that the examination questions for Normal
school boys in the subjects prescribed by Mr. Scott
be prepared by one of our Professors of Engineering and
afterwards translated into the Vernacular by the Teachers
of Surveying at Patna & Dacca. The answers of the
boys after being examined & valued by these Teachers
might be made over to the Inspector of the Division by
whom a certificate of fitness to teach Surveying might
be awarded to those who came up to the standards laid
down.

3. As regards the Examination of Teachers
in English schools for certificates I think the most satis-
factory plan would be to adopt the standard in
mensuration Drawing & Surveying which are in force

for employment in the department of Public Works in the grade of Sub-Overser & oversers - a lower standard than that for Oversers could hardly be adopted for Teachers of Surveying & Drawing in Higher Class English schools - indeed I think that this standard would be adopted in the case of all who seek to qualify as Teachers in schools where boys are intended to go up to the University Entrance examination. In the case of Anglo Vernacular schools only the standard for the grade of Sub-Overser might be considered as sufficient qualification for a Teacher. The adoption of a lower standard than I have suggested for English Teachers would likely I think to introduce incompetent men into schools. We have examinations in Calcutta and the Mofassils twice a year of Candidates for promotions and employment in the department of Public Works viz on the first Monday in the months of February & August Candidates being required to give month's notice of their intention to appear. Candidates for Drawing & Surveying Certificates might conform to the rules of these examinations and if thought desirable special papers might be set for them by the Professors of Engineering & Drawing who should examine and value the answers.

4 Mr. Clarke suggests that Normal school boys should pay a fee of one Rupee for admission to examination and the Teachers at Dacca & Patna might be allowed to receive the amount of these fees for their trouble in conducting the examinations. For admission to the examination for English Teachers I would charge a fee of 4 four Rupees and divide the amount equally between the professors who conduct the examinations. Successful men might receive a certificate from the College stating that they had passed in Drawing & Surveying the tests prescribed for Overser and Sub-Overser in the Public Works Department.

Encs/2 Sent Mr. Woodrow 400 copies of Rules & Regulations.

N. 562

To W. S. Atkinson Esq. M.A.

Director of Public Instruction

Presidency College the 7th December 1872

I have the honor to forward a letter from Baboo Krishna Chandra Bhattacharya B.A. Professor of Sanskrit of this College in which he desires to resign his appointment from the 8th January with the intimation of joining the Bar. The College is closed for the winter vacation from this date and will reopen on the 8th January. I therefore recommend that the Baboo be allowed to resign his appointment from that date. I have received several applications for the post about to be vacated which I forward for your consideration. Knowing all the applicants I have no hesitation in recommending you to promote Baboo Raj Krishna Banerji the assistant Professor of Sanskrit in this College to the Professorship and to appoint Baboo Nilmoni Mookerjee M.A. now a deputy Inspector of schools to the assistant Professorship in the event of Raj Krishna's promotion. The salary of the Professorship is 300 Rupees & that of the assistant Professorship 200 Rupees a month, and I consider that the satisfactory manner in which Baboo Raj Krishna has discharged his duties for the last 10 years warrants me in recommending him to your favorable consideration. Baboo Nilmoni is one of the most distinguished ex-students

of the Sanskrit College and he was placed in the 1st division
at the B.A. Examination. His conduct with his satisfactory
discharge of his duties as a Deputy Inspector induces me
to recommend that he should be appointed to the Assistant
Professorship.

Sd/- J. Sutcliffe
Principal Presidency College

N^o 563.

To H. S. Atkinson Esq^r M. A.
Director of Public Instruction

Presidency College the 7th December 1872

I have the honor to forward a letter from Mr. Scott
claiming allowance of 4 Rupees per diem whilst in charge of
the students engaged in field work at Barrackpore during this
Session.

The allowance is one that has been granted
in former years when the Professor left Calcutta in order to reside
in Camp during the Survey season and it is because
Mr. Scott's permanent residence is now at Barrackpore in the
immediate vicinity of the Camp that I doubt whether a camping
allowance can be drawn by him. I do not consider the
sessions 1870-71 and 1871-72 to be parallel with the present case
because I understood on both these occasions that Mr. Scott
proceeded to live at Barrackpore expressly in order to take
charge of the camp which was formed at that station in both
years on the 1st November. Mr. Scott has continued to live at
Barrackpore since November 1871 and it is because his
fixed residence is close to the Camp that I doubt whether
this allowance can be drawn.

No. 566

To W. S. Atkinson Esq. M. A.

Director of Public Instruction

Sir

Presidency College the 16th December 1872

With reference to Letter No. 4313 of 2nd Decr from the
offg Secretary to the Government of Bengal forwarded under your
endorsement No. 4611 of 11th idem I have the honor to state that
all the five Graduate scholarships of 1872 are taken up, but that
three of the five belonging to 1871^{then} are now vacant.

2. These three vacant scholarships will not be required
for Graduate till June next and in the meantime the 150 Rs
a month which they are worth might be utilized most effectually
I think by awarding 15 scholarships of 10 Rs each to the 1st, 2nd & 3rd

Engineering Claps - I would give 5 to each clasp to the student not already scholarship holders who may stand highest in an Examination at the beginning of February in all the Subjects of the year including the field work in which they are now engaged. These scholarships might be tenable from 1st January to 31st May when the Engineering Session ends.

3 In the event of the Graduate scholarships not being all taken up after the next examination in June - the savings might be used in the award of scholarship of 10 Rs a month in equal number to the three claps. To the 2nd + 3rd year students these scholarships might be given upon the result of the annual Examination in May whilst those reserved from 1st year students might be awarded to candidates for admission who had passed the First Examination in Arts. In this way the Lieut Governor's object of attracting some of the best under-graduates would I think be effectually carried out. Any plan which is likely to attract candidates to the Engineering Claps after passing the First Examination in Arts. would be promotive of the interests of the Department and the proposal I have made with this view is I think worthy of trial. Should candidates not present themselves for admission who have passed the First Arts examination - the scholarships reserved for the 1st year clasp might be given to those not already scholarship holders who had passed the Entrance examination in the First Division and were desirous of being admitted to the Engineering Claps.

W. S. Atkinson Esq. M. A. Director of Public

Sir

Presidency College the 20th December 1872

In consequence of the appointment of Mr Croft to the
Principalship at Dacca and the departure of Mr Rubie on sick leave
it will be necessary to make arrangements before the opening of the
session for carrying on the duties these Professors have discharged. For
Mr Rubie's work there is no difficulty in providing but for Mr
Croft's duties I did not at first see my way so clearly. Fortunately
Mr McLane Smith has relieved me from all difficulty by offering
to take the Mathematics Philosophy & Logic of the 3rd & 4th year classes
as well as the Haver class in Mathematics. I recommend therefore
that Mr McLane Smith be appointed to the 3rd Grade in place of
Mr Croft. By retaining Mr Lethbridge in the College staff after
return of Mr Tannery I can make satisfactory arrangements
for the other duties of Mr Rubie & Mr Croft. I expect that we
shall have large classes in Chemistry & Physical Science
next session and some assistance for second Professor in this
department will be necessary. Mr Willson is able both to
assist in the Science courses & to take up the Mathematics of
the first year class for which I have to provide. I therefore
recommend that he should be placed on the College staff
permanently either in the 4th Grade in which there is a vacancy
or as off^r in the 3rd Grade for Mr Rubie.

To

W. S. Atkinson Esq. M.A.

Director of Public Instruction

Sir,

Residency Calcutta the 20th January 1873

With reference to the note from Mr. Deyssau forwarded with your endorsement No 112 of the 15th Instant I beg to state that in this College it is the practice to charge the full fee for all students whose names are borne on the Roll. I do not as yet allow candidates who have failed to go up again from the College unless they read at least 6 months in the class. I think every College should charge the full fee for every student on the Roll under all circumstances, and I don't think any other rate need be promulgated on the question raised by Mr. Deyssau. I return Mr. Deyssau's note.

Sir,

Residency Calcutta the 20th January 1873

I beg to return the stationery and letter from Mr. J. H. Blackwood and also forwarded under your

Endorsement No 4678 of 16th December last. The dictionary is a very good one for schools and if the Publisher will arrange copies on Commission sale to the local book sellers and the school Book Society. I have no doubt they will be sold. I cannot however recommend that schools should be ordered to purchase the dictionary.

2 I return the copy sent with the note from Messrs Blackwood and sons.

W. S. Atkinson Esq. M. A. Director Pub. Instruction
 Presidency of Madras the 23 January 1873.

Sir

I have the honor to request that you will be pleased to get the sanction of Government for a special grant of 80 Rupees to the Hindu School to enable me to meet the expenditure for Drawing blocks, &c. consequent upon the establishment of Drawing and Surveying Classes. I require also a similar grant for the Hare School for the same purpose. These amounts may be debited to the actual surplus fees of each institution which are more than sufficient to meet this expenditure.

I have &c.

Principal Pres. College

To

No 654-

W. S. Atkinson Esq. M. A.

Director of Public Instruction

Presidency College 7th Feb'y 1873

Sir

With my letter No 1381 of 9th Decemr 1872
I forwarded for favorable consideration an application
from Mr. Grant - Professor of Drawing attached to
the Civil Engineering Department for an increase to
his pay

2

The grounds on which I then
recommended Mr. Grant's case to His Honor the Lieutenant
Governor were the thoroughly efficient manner in which
Mr. Grant performed his duties and the great increase
of work which had devolved on him since his original
appointment in consequence of an increased number
of students. In forwarding Mr. Grant's present
application, I would again record my sense of the

great value of his services to the College, and of the increasing responsibility of his position. The number of students now receiving instruction from Mr. Grant is 154, and I believe that in June next this number will swell to 200 or 250. True in that case Mr. Grant alone will not be able to teach so large a number, but upon him will devolve the responsibility for their progress, and the assistance I can give him will probably be of a kind which will require his direction in every detail. His Honor the Lieutenant Governor was pleased in May last to grant a special allowance of 50 Rupees for 12 months to Mr. Grant in compensation of the extra labour involved in the preparation and printing of a large number of plates for the Mussul Drawing Classes. I would suggest that in the event of its not being possible to increase Mr. Grant's pay of Rupees 350 by so large a sum as 100 Rupees, which I recommended in December 1870 - the present temporary increase of Rupees 50 of a month should be permanently added to his pay.

3

I enclose Mr. Grant's application in Original.

I have the honor to be
Sir

Your most obedt Servt.

Sir

The Engineering Camp consisting of
 the 2^d and 3rd year Students near Barrackpore was
 for some reason very sickly this year, and when I
 visited the Camp in December, the Students asked
 me to rent a pacha house close by the Tents in
 which those who had suffered most from fever
 and diarrhoea could sleep. I saw the District
 Governor on the subject and asked permission to
 rent the house at 40 Rupees a month. from 15 Decem-
 ber. His Honor readily sanctioned my proposal,
 and I thought the Examiner of Claims would
 pay the amount of the rent from the Annual Con-
 tingent sum allowed for Survey Expenses on my
 assurance that Government had authorized the
 expenditure. He declines however to do so without
 written orders of Government. Will you be good
 enough therefore to obtain the sanction of Govern-
 ment to the payment of Rupees 40 for the season

on account of House Rents, debiting the same to the
annual Survey allowance

sd/ J Sutcliffe

Principal Residency College

From

H. F. Blanford Esq.

Professor of Natural Science Residency College

To

J Sutcliffe Esq. M. A.

Principal Residency College

Sir,

Residency College the 5th March 1873

I have the honor to submit a list of the apparatus and chemicals required for illustrating those chapters of Roscoe's chemistry that treat of the Metalloids. I have not included any of the more expensive and delicate kinds of apparatus such as the Induction coil, Carr's Freezing machine &c which are required to, only incidentally, which require to be carefully kept and skilfully managed and which are specially liable to derangement in unskilled hands. Neither does the list include such articles as are procurable in the local bazaar such as fail, Daskets &c n^o furniture and fittings, such as tables, drawers, and shelves, all of which are necessary for preserving the apparatus and preparing lecture illustration. The cost of the former maybe set down at about 20 Rupees for the Course, the latter at from 150 to 200 Rupees once for all. In all places where chemistry is taught a room should be set apart for keeping the apparatus and preparing the illustrations, contiguous to, but not forming a part of the lecture room. At any place at which gas may be procurable, it should be laid on both to the working and lecture rooms, in such case some alterations in the list of apparatus would be requisite. A Barometer and Thermometer should be supplied in addition to the

apparatus specified in the list. These are better
procured elsewhere than from the chemical apparatus
suppliers.

2 The numbers quoted against each article
of apparatus are those of Messrs Griffin & Sons' Catalogue.

3 It is very difficult to say beforehand
what will be the annual cost of replacing breakages chemicals
&c as this will much depend on the skill of the Teacher. If
he be acquainted with chemical manipulation and make
full use of the apparatus supplied about $\frac{1}{2}$ to $\frac{3}{4}$ of the original
outlay in addition to the annual allowance for fuel &c
will probably suffice to supply deficiencies say a total
of 80 Rupees to 100 Rupees a year. If on one hand he
abstains from making full use of his apparatus, or if
on the other hand he uses it rashly, and unskillfully
it will be in the former case less in the latter probably
more than this estimate. Experience alone can show
what is required.

(Signed) H. C. P. P. P.

No. 693

To

W. S. Atkinson Esq. M.A.

Director of Public Instruction

Sir

Presidency College the 15th March 1873

I have the honor to request that you will be good enough
to move Government to grant me 6 months leave of absence
on urgent private affairs under section 12 Chap. IV of the Civil
Leave Code from 5th May next or such other date as may be convenient
to myself and the College with a week's preparatory leave.

2 I apply for this leave because I have
not visited Europe for 16 years, and I feel that some
relaxation from continuous work is desirable. I apply
for leave under section 12 because I am in doubt whether
the two years leave. I have previously had an Medical
Certificate and which under the rules then in force
reckoned as service will not cease to be counted as
service if I take leave under any other section.

3 I would recommend that Mr. Sauney
be appointed to officiate for me and that Babu Beharilal
Bansgi who has just graduated in Mathematical Honors
be employed as an assistant lecturer on Rupees 20 of a month
to take charge of sub. Mathematical work in the 1st year
class as may be necessary on a rearrangement of the duties
of the other Professors consequent on my absence.

4 As I was appointed to the service in
England in 1847. I am entitled, I believe to the benefit
of the increased leave allowance mentioned in section 10
Clause (C) and I beg that it may be made payable at
the Treasury in London

5- I intend returning to my duties between the 15th⁴⁶ and 20th October and under the arrangements I have proposed, I believe the College will be efficiently carried on.

N^o 695-

To W. S. Atkinson Esq. M. A.

Director of Public Instruction

Presidency College the 17th March 1873

I have the honor to return the enclosed anonymous petition which was sent to me under Mr. Secretary Bernard's endorsement N^o 1112 of 11th instant with a request that I would report on it through you.

2 So far as I can understand the petitioners, they ask that credit may be given them for having passed an Examination in certain subjects laid down in the D.P. W. Examination for sub-oversers as the ground of having passed a university Examination sometime ago of which these formed a part, and that they may be allowed to pass an Examination in the remaining subjects at their convenience and be declared entitled to a sub-oversers certificate.

3 It would be rather a dangerous rule to lay down that the standards prescribed for an Examination could be passed piece meal. It happens moreover, that

the marks required for the Mathematics of the Sub-^{overseer's} Examinations are higher than those for the same subjects in the First Examination of the University. I cannot therefore recommend such a plan.

4 We hold public Examinations for B.P. & M. Certificates twice a year, at which all Candidates can present themselves on the payment of a small fee - and the door is already open to the petitioner's if they think themselves qualified to pass the prescribed Tests.

5 As regards the statement that they have ample leisure to pursue Engineering studies, I think they are over-confident. True, the subjects have been narrowed, but only that students may go deeper into those which remain. The present B.A. course is in my opinion quite sufficient to occupy fully a student of average abilities for 2 years after passing the First Examination in Arts.

6 If the petitioners really mean what they say, they will find little difficulty in passing the Engineering Tests for an overseer's Certificate - by studying 12 months in the Engineering Department after they have passed the B.A. Examination.

To

W. L. Atkinson Esq. M. A.

Director of Public Instruction

Presidency College the 26th March 1872

Sir

On the opening of the new Engineering Section in June, I think it highly probable, that a much larger number of Students, than usual will seek admission to the first Year class. Indeed I quite expect that there will be from 100 to 120 new admissions, and that the 2nd Year class will also be larger than in previous years. Under these circumstances Mr Griffiths will require some assistance in Mathematics, and I write beforehand on the subject to solicit the sanction of Government to the expenditure of Rupees 100 a month in providing such assistance as may be deemed necessary after the classes have been actually formed. Should it appear on the opening of the section that the existing staff can carry on the work of the Department no additional expenditure will be incurred, but if as I expect some assistance be indispensable it will be more convenient if my officiating successor is able to avail himself at once of the previous sanction of Government to the expenditure of the sum now proposed.

 Principal Presidency College -

No. 744

To

F. B. Peacock Esq.

Sir

Off^r Collector of 24 Pergunnahs
 Presidency College Dated the 2nd April 1873.

With reference to your letter No. 466
 of 15th Feb^y, I beg to forward applications from three
 young men who have just passed the Civil Service
 examination at Bombay. I would suggest that
 the appointments of 95 Rupees each be filled by
 Rustomji Dutt and
 Adinany Kumar.

The other applicant Banamalli Pramanick might
 be appointed to one of the posts on 80 Rupees a month.
 I have &c.

J. J. Sutcliffe
 Principal Presidency College

No. 745

To

The Director of Public Instruction

Dated 2nd April 1873.

As I am about to proceed to England on leave for
 6 months, I think it desirable to state for the information
 of Government what the practice has hitherto been
 in regard to the admission of outsiders to any of the courses
 of lectures delivered at the Presidency College. It has
 always been the practice of the Presidency College to
 admit outsiders to lectures on special subjects on
 the payment of an annual fee in advance, and this
 practice was observed also in the old Hindu College.
 When the College fee was only 5 Rupees a month
 the annual fee for admission to each course was
 16 Rupees. But when the regular fee was raised to
 12 Rupees a month, the fee for outsiders was raised to

32 Rupees a year. At this amount it now stands.
 Lately very few students have availed themselves of
 this privilege and at the present time there are no outsiders
 attending any of the lectures. In 1871 there were fewer out-
 students. Our present class rooms are not large enough
 to permit of a large influx of students of this kind,
 but when the new building is ready I can see nothing
 to prevent the admission of as many as are ever
 likely to come forward. In the event of the heads
 of missionary colleges wishing to avail themselves
 of our lectures in Chemistry & Natural Science,
 I would suggest that the annual fee payable in
 advance by each student be fixed at 25 Rupees.

I have &c.

Presidency College the 15th April 1873.

Sir As the general repairs of the College building are to be executed during the month of May, it will be necessary to close the College for a few days more than the usual vacation. I have arranged with the Supervisor, under whom the repairs are to be done, that the scaffolding shall be put up during the first week of May and I propose that the general classes shall be dismissed from Saturday the 10th May till Monday the 16th June. The Engineering classes being accommodated in a separate building, it shall not be necessary to close them till Saturday the 17th May. All the classes will reassemble on Monday the 16th June.

Yr J Sutcliffe

Principal Presidency College

No. 769

To

The Executive Engineer

First Calcutta Division.

Dated 18th April 1873.

As the general repairs of the old Hindu College building are to be executed this year. I have proposed to Government, that the Clapes shall be dismissed from 10th May to 15th June & enable you to complete the repairs. This is I understand ample time for the completion of the work. In order however that there may be no delay in setting to work on the 10th May I would suggest that all the scaffolding should be put up at once and also the sand rubbing of the outside walls be done. Materials could also be stored in the compound during the first week of May. So that there may be no cause for delay in the actual repairs. I should be obliged, if you let me know with as little delay as possible whether under the above conditions the repairs can be completed by the 15th June. If not, the repairs had better be postponed till we vacate the building. I would however point out that the building needs repair most urgently & that they should only be postponed under the distinct assurance that

that they cannot be done in the time mentioned.

I may also mention that the justices are now blocking up the drainages of the compound and that some steps should be taken to connect the drains with the road drains.

Yours &c.

Director of Public Instruction

Sir

Presidency College the 21st April 1873

Regarding the completion of the new building
 for the Presidency College it is very desirable that an Extra
 Durwan be appointed at the Hone school to prevent the boys from
 mixing with the workmen when not engaged in their class
 work at present there is no partition of any kind between
 the school compound and the place where the Coolies are
 at work and I have had complaints of the boys being
 troublesome at the dinner hour. I beg therefore to recom-
 mend that an Extra Durwan be appointed temporarily

on 6 Rupees a month payable from the surplus fees.

To

W. S. Atkinson Esq. M.A.

Director of Public Instruction

Presidency College, the 21st April 1873.

Sir

I have the honor to reply to the letter from the Government of Bengal forwarded under your endorsement No. 1504 of the 9th Instant.

2. The authorities of the independent colleges with no doubt state definitely whether they share special facilities &c given hereafter their students to attend particular classes at the Presidency College. I have always understood that such was the desire of some of the Principals when Natural Science became a necessary part of the course for the degree of B.A. The Rev. J. W. Barton late Principal of the Cathedral Mission College gave me to understand a few weeks ago that it was the intention of the authorities of the Missionary Colleges to ask Government to allow their students to attend the lectures in Chemistry and Physics at the Presidency College on the ground that the expenses of these lectures at the Missionary Colleges would be greater than their funds could bear. Under the practice which has always been observed at this College students of any College are admissible to any course of lectures on the payment of an annual fixed fee in advance, but of course I understood Mr. Barton means something more than this. viz that the fee charged would be a moderate one, and that as far as possible the convenience of other colleges would be consulted as regards the hours for lectures. As regards the amount of the fee, it should I think be fixed with reference to the amount we levy from our own students. The annual fee payable by our students is 16 1/4 Rupees and for this amount they are instructed in 5 different branches of study. Supposing each branch to be equally costly this would make a fee of 20 1/4 Rupees a fair one for attending any particular course. In truth the expenditure upon lectures in Science is necessarily greater than upon other branches, and permission to attend the Science course at

62

a fixed fee of 28 Rupees would in itself be a concession to outside students. On the other hand a certain amount of inconvenience and perhaps expense must be caused to students who have to leave their own class rooms to attend ours at particular hours of the day, and this ought to be recognized, I think in fixing the fee. Taking all things into consideration therefore, I think if the fee were fixed at 24 Rupees per annum payable in advance, the Government would confer a valuable privilege on students of independent colleges. It would follow of course that the convenience of outside students should as far as possible be consulted in fixing the hours of lecture.

Examination for Survey Teacherships.

1. An examination of candidates for certificates of qualification for employment as survey teachers will be held at the Presidency College, and at such other stations as the Director of Public Instruction may appoint on the first Mondays in February and August.

2. Candidates desirous of appearing at the examination must give notice to the Principal of the Presidency College of their intention, one month before the date fixed for the examination.

3. Each candidate must forward with his application of a fee of 4 Rupees.

4. A Paper of questions will be given in each of the following Subjects.

(I) Surveying. Including surveying by chain only, by compass and chain, and by the Plane Table.

(II) Mensuration. Of lines, surfaces, and solids.

(III) Drawing. Geometrical construction of figures, scales and plans, elevations and sections of simple Building or Bridges.

Each candidate will also be examined in practical Surveying.

5. Full marks for each of the Papers will be hundred and the practical Surveying 200, and in order to pass, a candidate must receive half marks in each branch.

Sir

With reference to your N^o 1054 dated 16th Inst. I have the honor to intimate that as shown in the forwarding letters the sums remitted to the Treasury from 3rd & 19 April last and also on subsequent dates have already been portioned out under the different headings proposed, but that further distribution under those headings is not possible, especially as some of the headings or classes mentioned do not exist in this Institution. As for instance there is no Riding Class attached to this College nor are there separate classes for Surveying and Drawing. These classes are parts of the Civil Engineering Department and as the schooling fees are collected under one heading viz. "Engineering Department" without any distinction either as to Surveying or drawing or both - they will not admit of detachment or distribution under the separate headings of drawing and surveying. In the two schools also viz. Hindie and Hare schools separate fees are not charged to students who study drawing and surveying along with their general studies. There are also no Law classes in those schools consequently no separate items of fees can be shown under those heads in those schools.

The several headings under which fees are collected and remitted to the Treasury from this Institution are annexed below
Presidency College General Department

Law 5th
Civil Engineering 5th

Hindu school

Mare school

which must all the proposed headings with the exception of those pointed out above. The only further separation that can be made is the fee collected for the special or civil service class which when deposited will be shown accordingly in future remittances to the Treasury. There has not been any deposit however under that head since the 3rd April last and as the Civil Service class will not be reopened till the 1st of June next it cannot be shown till after that date.

Director of Public Instruction

Presidency College the 16th June 1873

Sir With reference to your second official letter of the 3rd instant, in which you request me to explain the purposes for which the indent was made. I have the honor to answer, that hitherto a charge of 4 Rupees monthly used to have been made in the contingent Bill for Ink, but the Accountants General in the Pay Department objected to pay that amount on the ground that the stock of Stationery used in the College should be supplied from the Government Store. and an order was obtained (with office endorsement from Director of Public Instruction No 1410 dated 7th April 1873.) binding upon the Stationery office. considering that the Ink is required to be used daily in the papers containing in all 574 pages, most of which are in the habit of taking copious and elaborate notes of the Lectures, the quantity of Ink indicated for cash hardly be termed excessive. However as the indent is now made for the first time, it is difficult to calculate exactly what quantity of Ink will be required for four months and experience may justify us in making a smaller estimate in future.

2 The Foolscap Paper which has been indicated for use & be purchased in the Bazaar. It is required for the College Test Examinations in the general Dept only which are now coming on and I think I should be allowed to indent for it.

I have &c.

Off^r Principal Presidency College.

N^o 820.

To

H. B. Medlicott Esq^r.

Off^r Superintendent Geological Survey of India.

Presidency College the 17th June 1873.

Sir

I have the honor to acknowledge the receipt of your letter N^o 555 dated 27th ultimo, intimating the intention of the Government of India to train up certain able bodied Native youths as Geologists who will for the present be entertained as apprentices in the Department, and that with a view to their preliminary instructions as such apprentices, it is desirable they should attend the Physical Science and Surveying classes attached to the Presidency College, and requesting that as one student named Ram Singh has already joined the Department, he should be allowed to commence his preliminary studies as soon as possible.

2.

In reply I have the honor to inform you that in this College Students can only be admitted as paying Pupils. These are of two classes. One class consists of those who are called Regular students paying at the rate of 12 Rupees a month, and are allowed to attend all the lectures in the class, and the other are denominated Out Students who pay at the rate of 32 Rupees in advance for each course of lectures they attend, and their attendance is confined to

that course. The Apprentice Ram Sing can be admitted as an out-student, and if he is willing to be so admitted on the terms mentioned, I should be obliged if you would send him over for admission as soon as possible. Mathematics form a part of the general course, and for attending the lectures on this subject an additional fee of Rupees 32 would be necessary. So that for the lectures on Physical Science, Chemistry and Mathematics, the Apprentice Ram Sing will have to pay in all 96 Rupees.

Director of Public Instruction

Presy College the 18th June 1873.

Sir

I have the honor to solicit your orders on the subject of admitting students to the first Engineering College. It was formerly customary to admit any applicant on condition of his paying 60 Rupees in advance. But owing to want of space it has lately become necessary to refuse a great number of applicants, and I have since taking charge of the College been obliged to refuse more than a dozen. If it is thought desirable to admit all applicants, it will become necessary to hire another house for the accommodation of students of the Engineering Dept. Before leaving for England Mr. Sutcliffe advised me to refuse admission as a general rule to this class of students. But as so many have applied I think it necessary to refer the matter to your decision.

To W. S. Atkinson Esq. M.A.
Director of Public Instruction

Sir
Presidency College the 27th June 1873

I have the honor to enclose copy of a letter from Mr.
Medlicott officiating Superintendent of the Geological Survey Depart-
ment of India informing me of the intention of the Government of
India to train up a certain number of able bodied Native youths
as Geologists, who will for the present be entertained as apprentices

in the Geological department and desiring that three apprentices with a view to their preliminary instruction be admitted as sub-students to the class in surveying, Physical Science and Mathematics in this College and I beg to inform you that I have already admitted as an sub-student one such apprentice, Rana Singh to lectures in Physical Science in the General department, and to all the lectures in the Engineering department on an assurance from Mr. Medlicott that all necessary fees will be paid.

2 In the Engineering department it has hitherto been the practice to admit sub-students to all the lectures in the Engineering department on payment of a fee of 60 Rupees in advance which entitles a student to attend all the lectures. I presume that it will be necessary to buy this fee from Rana Singh.

3 In the General department a fee of Rupees 32/ has hitherto been charged for every course of lectures. But since the admission of Rana Singh I have received your endorsement N^o 2074 dated 6th Instant, conveying the orders of Government limiting the rate of fee to be levied on sub-students admitted to lectures on Physical Science in the General department, to 24 Rupees and if the analogy of this order were applied to the case of Geological apprentices the whole fee to be levied from this student would amount to 84 Rupees, as shown in the margin. But I am uncertain whether Rana Singh's case is one of those contemplated in the orders of the Government of Bengal. I think it desirable however, that the expenses of this class of students should be diminished as much as possible, and accordingly beg that you will authorize me to buy from this student a fee of Rupees 24/ for the lectures he attends in Physical Science and of Rupees 60/ for the instruction he receives in the Engineering department.

* General department lectures on Physical Science - 24
60 Rupees for all lectures - 60

Sd/ Charles H. Sawney
Offs Principal Presidency College

N^o 871

To W. S. Atkinson Esq M. A.
Director of Public Instruction

Sir Presidency College the 7th July 1873

I have the honor to report that of the 5 scholarships set apart for Graduates in Civil Engineering only three have been taken up at the last L. B. E. Examination. There remains therefore a sum of Rupees 100/- to be appropriated to establishing scholarships for the F. A. and Connaught Students attached to the Civil Engineering Department.

2 In accordance with Mr. Junior Secretary Edgar's letter N^o 4679 dated 30th December last Para 3 I beg to recommend that two scholarships of 25 Rupees each, and one of 20 Rupees be established for students who have passed the F. A. Examination.

and Two scholarships of 16 Rupees each for students who have passed the Entrance Examination, both classes of scholarships being held for two years commencing from 1st of July.

3 As the best F. A. and Entrance students now admitted into the Engineering Department are already scholarship holders I beg to suggest that in order to award these scholarships it would be advisable to notify that any students who have passed the F. A. or Entrance Examinations in the first division or high up in the second division and hold no scholarships at present, will on joining the Engineering College be elected to them in order of merit. In case no eligible candidates present themselves, it would perhaps be better to hold an Examination of the First year class in the Engineering Department in September next before the Durga Pooja holidays, and allot these scholarships according to the results without taking into consideration whether the successful candidates have passed the F. A. or Entrance Examination.

14 I have the honor to request that you will obtain the sanction of Government to these recommendations

Edw Charles H. Sawney
Offr Principal Presidency College

To

W. S. Atkinson Esq. M. A.

18902

Director of Public Instruction

Sir

Presidency College the 26th July 1893

I have the honor to forward a copy of a letter No 1119 from the Executive Engineer 2nd Calcutta Division to the officiating Superintending Engineer Presidency Circle dated 26th Instant, also a Memo from Professor Scott on the amount of room required for the Civil Engineering Department in the new College building accompanied by a plan; and a plan of arrangement of the present Engineering College as a Chemical Laboratory and Lecture Room by Mr Pidler.

2

It appears from Mr Roberts's letter that Mr Sutcliffe's original intention was to place the Library upon the ground floor in the West wing of the new Presidency College. But it has been proposed by Mr Blanford and Mr Pidler (in their Memo forwarded to you with my endorsement No 874 dated 9th Instant) to appropriate for the teaching of Physical Science the whole of the ground floor of the new building with the exception of two rooms reserved for the office.

3

This would make it necessary to remove the library to the first floor, which according to Mr Roberts will just bear the weight of the books if certain alterations are made in the book cases.

4

This would certainly ensure the better preservation of the Books, but there are at least three objections to this course. In the first place it would be somewhat inconvenient to make the proposed alterations in the book cases. In the next place though the floor may bear the weight of the present book cases, it will be impossible to make unlimited additions to the Library, as the floor will not permit I suspect of any piling the books in cases higher than the present. But the third and most weighty objection to altering Mr Sutcliffe's scheme in the way proposed by Mr Blanford and Pidler is that in that case there will not be room in the new College Building to carry on the work of construction.

5

It is evident from the enclosed Memo of Professor Scott, that in order to teach Engineering properly it will be necessary to set apart for that department, the whole or the greater part of the second floor. But of Mr Scott and Messrs Blanford and Pidler obtain all the rooms they desire half the middle floor will be all that is left to the General Department of the College, which requires about twelve rooms for its accommodation.

6 Under these circumstances I beg to recommend
that the old Ware school (the present Engineering College) which is too
small to hold the Engineering students be assigned to Mr Pedler as a
Chemical lecture room and Laboratory. He has himself carefully
inspected the building and approves of it. His plan of arrange-
ment is herewith forwarded.

7 It will be noted desirable to have the Chemi-

cal Laboratories detached from the new College. In the present
building the students of the 3^d year and 4th year classes are
subjected to continual annoyance from the fumes of the Laboratory,
and the Professor though apparently less distressed than the students
have not been slow to express their dissatisfaction.

8 Mr Scott proposes to have a separate
office for the Engineering Department but I think that these details
may well be left until the completion of the building.

9 Mr Blanford could then occupy the ground
floor of the East wing as originally proposed, and the west wing
could be appropriated to the Library.

H. S. Atkinson Esq. M. A.
Director of Public Instruction

Sir

Presidency College the 5th August 1873

I have the honor to forward a letter from Mr. Scott Professor of Engineering requesting that some remuneration may be granted to the Examiners for the half-yearly Examination of the Public Works Department held in the Presidency College

2

It is I believe usual in most Examinations to give some remuneration to the Examiners and in the University L. B. E. Examination each of the two Examiners in Engineering receives Rs 400/- The Examiner in Mathematics also receives Rs 400/- and the Examiner in Drawing receives Rs 100/- The amount of the fees paid by the Candidates in the Examination now going on is Rs 180/- and this sum might be largely increased if Candidates now employed in the Public Works Department were Compelled to pay a fee as well as an admission.

3

I would therefore venture to recommend that a sum of Rupees 350/- be sanctioned half yearly as a remuneration for the Examiners of this sum Rs 50/- might be paid to the Examiner in Drawing who sets one Paper. Rupees 100/- to the Examiner in Mathematics who sets four Papers and Rupees 200/- to the Examiner in Civil Engineering and Surveying who has to set seven Papers.

W. S. Atkinson Esq. M.A.
Director of Public Instruction

Sir

Presidency College the 25th August 1873

I have the honor to inform you that the civil
Engineering department of this College is already so full
that if we are to receive any more applicants, it will
be necessary in order to carry on the work to make use of the
large Hall in the Presidency College, and this will necessitate
the entertainment of another Teacher. I feel however
bound to state that there are certain objections to this course

(1) Professor Scott does not know where
another native teacher could be procured.

(2) It is exceedingly difficult for the Professors
properly to supervise the work of the students when they
are scattered about in separate rooms.

(3) The admission of students when the system
is so far advanced has a tendency to interfere with the
work of the class and it is almost impossible to bring
them up to the required standard.

2 The two latter objections seem to me
of less importance, as the whole present arrangements
of the Engineering department must be considered temporary
until we can get better accommodation and satisfactory work
could be done.

3 I find that during the last four years
the 23rd August is the last date at which any student
has been admitted to the Engineering department. I therefore
beg to suggest that no more applicants be received after
the 1st of September.

4 Should this not seem desirable I beg
to recommend the appointment of a native teacher on

Rupies 125/- a month, if a competent man could be procured and if not that the Public Works Department be requested to furnish a Teacher to take up the duties.

No 970
To W. S. Atkinson Esq. M.A.
Director of Public Instruction
Presidency College the 27th August 1873

Sir
With reference to your Memo No 2760
dated 8th Instant I have the honor to enclose three Lists of
Books suitable for Prizes drawn up by Babu Bhola Nath Pal
Grist Chunder Deb, and Messrs Blanford & Pether.

2

I should be inclined to be commended myself

all the editions of English classics and treatises in English Philology of the Claudius Rep Series and the publications of the Globe & Bayard and Golden Treasury Series - some of which I believe are expensive.

3

Anthologies like Hulse's Shorter English Poems are specially useful - But many good school editions of English classics are now being issued and therefore no list should be held to be final

4

I believe that Medals will be more valued than Books.

J. Charles H. Tauxey
Off. Principal Pres. Collg

To

^{No 971}
R. A. Fink Esq.

Asst. Accountant Genl Bengal

Presidency College 28th August 1873

Refers to His Memo dated 25th August 73 advising to sanction of Rs 3/2 from Contingent Bill for June.

I have the honor to intimate that the Rs 3/2 on account of 26 Paper Inkstands sanctioned from the Contingent Bill for June last were incurred before the sanction of Government was obtained to indent for stores upon the Stationary office such order having been received at the latter end of July last & did not come into effect till the 1st of this month.

Further states that the Paper Inkstands of the description used by the students in class rooms are not those ordinarily in use in Public offices and the Stationary office is probably not in a position to supply them unless previously advised and sanctioned.

J. Charles H. Tauxey

H. Andrews Esq

Sir

Secretary School Book Society
Presidency College the 29th August 1873

With reference to your No 5268 dated Instant I have the honor to inform you that I consider that I should not be justified in ordering a Prismatic Compap which is valued at 85 Rupees merely on account of the silver ring on the Seal when the same Instrument can be obtained for 52 Rs with a Card board Seal, and would be equally useful for the purpose of instruction.

2

I also wish to state that the 4 Inch one is more costly than I require considering that the 3 Inch and 3 1/2 Inch ones will answer our purpose just as well.

3

I accordingly beg to return the two Compapies valued at Rs 85 and Rs 90 respectively and to request that you will replace them by others of 3 or 3 1/2 Inches of the value of 55 Rupees each or thereabouts. The Bill which accompanied the Instruments is herewith returned.

N^o 975
 J. H. Jell Corp. C. E.

Executive Engineer, 1st Calcutta Division
 Presidency College the 29th August 1873

I have the honor to acknowledge the receipt of a copy of a letter from the Superintending Engineer Presidency Circle N^o 4000 dated 25th Instant forwarded with your endorsement N^o 2852 dated 26th Idem intimating that it is very undesirable to connect the drains of the Engineering College with the Municipal System of Drainage until the completion of the new Presidency College, as one system of drainage and water supply should be made applicable to both buildings and requesting you to obtain my concurrence in the postponement of the work.

2 In reply I have the honor to state that there are now 200 students in the building and that the urinal has become a nuisance since the compound drains have been disconnected with the Municipal drains. If you should decide not to make any arrangements for draining the building, I must request that you will have the urinal altered or removed, or closed in such a way as to render it impossible for students to visit it. They submit that this work is one which admits of no delay.

3 In conclusion I must observe that I cannot admit the validity of the argument that one system of drainage and water supply should be made applicable to the new Presidency College and the old Hore school in the present Engineering College as the water pipes have already been laid on in the latter Building, but I am perfectly willing to leave the decision of the whole question in Professional hands.

To

Sir

No 984
The Secretary to the Government of Bengal
Presidency College the 3^d September 1873 P. M. Sept

I have the honor to acknowledge receipt of your letter No 3890 dated 26th July last and to forward the accompanying nominal list of students passed out of the Civil Engineering Dept. of the Presidency College from the 1869 to 1873

2

This list I beg to add diffus from the Return forwarded with my letter No 860 dated 1st July last. In that Return the number stated was 99 where as it should have been 97. The mistake arose from Edward Brauer and G. A. Landmeiers and Geo. Tew assistant Engineer having been erroneously included among passed students of the Engineering Department and the name of Balu Swarna Nath Sult who passed as a student of the Engineering Department having been entirely omitted from the account

Edw. Charles H. Savory
Off. Principal Presidency College

To

No 985
W. S. Atkinson Esq. M.A.
Director of Public Instruction

Presidency College the 2^d September 1873

In connection with the question of Prize Books referred to in your Memo No 2760 of 8th ultimo. I have the honor to address you on a subject which has for some time fixed itself on my attention: the smallness as it seems to me of the fund allowed for supplying Prizes to the Hindu and A. N. Home schools.

2

The sum allowed at present is Rs 84/- In the Hindu school this is distributed in the following way

97

The 1st, 2nd and 3rd classes receive no Prizes at all
 The 2nd and 3rd classes receive certificates of Proficiency to which little
 or no value is attached. The two sections of 4th 5th and 6th classes receive
 3 Prizes each and 3 Prizes are allotted to the 7th 8th and 9th classes
 respectively. It is obvious that these Prizes are of very little value.

Very much the same method is followed in the
 Hare school. The Head Master informs me that the allowance
 is distributed as follows.

4 th Class Sec. A	Rs 12
" " B	" 12
5 th " " A	" 9
" " " B	" 9
" " " C	" 9
6 th " " A	" 6
" " " B	" 6
" " " C	" 6
7 th " " A	" 3
" " " B	" 3
8 th " " "	" 3
9 th " " "	" 2
<u>Total Rs 84</u>	

4 It appears to me that in the present system of distribu-
 tion if the Prizes are to be nicely bound in durable leather and
 stamped as suggested in Mr. Secretary Cotton's letter No 2210 of
 23rd June last. It will be necessary at least to double the fund allow-
 ed for providing them. I know from bitter experience that all the
 cheaper styles of binding rapidly deteriorate in an Indian
 climate and so far from thinking that my estimate is
 above the mark I consider that it will be at the same time
 necessary to diminish the number of recipients of Prizes in each
 class.

5 This would necessitate an allowance of Rs 168.
 But it will be observed that at present no Prizes are given to the
 2nd and 3rd classes in the Hindu & Hare schools. In order to provide
 rewards for these classes I have the honor to propose that
 the Prize allowance for both these schools be raised to Rs 200
 of which will not I think appear extravagant of the
 yearly surplus fees of these institutions be taken into
 consideration.

of Chubb H. Perry

26

No 986
W. S. Atkinson Esq. M. A.
Director of Public Instruction

Sir

Presidency College the 14th September 1873

I have the honor to request that you will sanction the hiring of the house at Barrackpore outside the cantonments which was hired last year for the use of the surveying classes of the Civil Engineering Department.

2 It was deemed necessary to hire it last December because the students suffered much from Fever and Diarrhoea. It is possible that the present season may be more healthy but taking into consideration the fact that the 2nd and 3rd year classes are larger than they were last year Professor Scott thinks it most desirable to have the house for their use.

3 I beg therefore to propose that the house be hired from 1st November 73 to 31st January 1874 and that the rent (Rs 40 per mensem) be made debitable to the survey allowance.

Edw. Charles H. Survey
Offt. Municipal Commr. of Calcutta

H. J. S. Cotton Esq.

Sir

Offt. Junior Secretary to the Government of Bengal
Presidency College the 5th September 1873

I have the honor to return the proof list of publications forwarded with your letter No 29 dated 27th August with the entries which relate to the Presidency College corrected.

2 I feel bound however to state that the only publications actually subscribed for at present by the College are

Journal of Asiatic Society	12	per annum
Proceedings	5	5
Journal of Agricultural Society	6	5
Anna Prakasana	2-10	5
Moskuzin Magazine	8	5

3 It is true that with the exception of Nature and the Theological Review all the publications mentioned in the proof list were regularly subscribed for out of the Library allowance until the receipt of Mr. Secretary Edgards Circular No 29 dated 10th September 1872 when Mr. Sutcliffe thought it necessary to discontinue all the European publications retaining only the above mentioned ^{Indian} publications which did not seem to him to require any special sanction.

4

At the same time in his letter No 525 dated 26th October 1872 he applied for permission to subscribe

100

to all the publications mentioned in the proof list herewith
returned, but his application has not been sanctioned as yet

To the Executive Engineer, Peninsular Division

Military Works

Presidency Calcutta the 19th September 1873

Sir

With reference to your letter No. 1149 dated

15 Instant I have the honor to propose that a party of 4 students be sent to survey the Bazar at Peninsular. I believe that Ten Rupees a month to each student and the Railway fare would be a sufficient remuneration for this surveying party.

2

Mr Scott the Senior Professor of Engineering in communication with whom I make this proposal informs me that he is going to survey the two Karaikudi Bazar in this way.

103

3 It would be necessary for Mr Scott to go up to
Singapore to see the work going and I presume his expenses
would be paid - The free students would not do the work very much
quicker than a single Sargor.

4 I cannot undertake to send one man properly
qualified on a less salary than Rupees (100) one hundred per
month.

Residency follow the 20 Sept 73
Sir With reference to letter N1336 R from Mr
Secretary Malacca dated 7 September 1871, and forwarded
with your Endorsement N3239 dated 21 Sept 1871, I have
the honor to remind you that the period up to which His
Honour the Lieutenant Governor was pleased to permit
Mr Grant the Professor of Drawing in the Civil Engineering
Department to continue in the Service, will expire on the
30 September 1873

2 With respect to Mr Grant's intellectual
qualifications and physical efficiency, may I refer you
to Mr Intcliffe's letter N1668 dated 18 August 1871.

3 I have every reason to believe that Mr Grant
is now as competent as then to perform his duties and
should be very difficult to replace him.

4

I therefore venture to request that you will obtain the sanction of the Government of India to his being continued in the Service for a further period of 5 years.

To The Principal Thomson College
Roorkee

Sir
Presidency College the 12th October 1873
With reference to your Memo: No. 119 Dated
25th September 1873 I have the honor to inform you that I have
referred to my letter No. 979 in which I stated clearly that one
copy of the Roorkee Professional Papers is subscribed for
by us for the Presidency College Library.

2. I was led to believe from Memo: 92 from the
Curator of your Bank Dept. Dated 23rd August 1873 that
Mr. Sutcliffe subscribed in his private capacity. The words
of this Memo: are "Requests the favour of being informed
whether he wishes to subscribe for Professional Papers vol II 2^d
Series in his official capacity in addition to his private copy".
Now that you have informed me in your Memo: of the
25th September 1873 that Mr. Sutcliffe is a regular subscriber
in his official capacity saying nothing about his private
copy, I conclude that there was some mistake in your
Curator's letter and I have the honor to return duplicate

copies of Nos 8 & 9 which are not required by us. 106

3. The Bill for Rupees 13/2 has been already paid by a Treasury Draft forwarded with my Memo. No 995 Dated 13th September 1873 and was returned by you to this office duly receipted.

4. I should be much obliged if you would explain more fully the meaning of the Bill No 22 for Rupees 15/4 for vol II P.P. 2 Series in advance as it appears from that we have already paid for nine numbers.

5. I am sorry that any misunderstanding should have arisen, but it appears from the paper in your curative letter which I have extracted above. Of course one copy will still be subscribed by the Principal of the College in his official capacity.

W. S. Atkinson Esq. M. A. Director Public Instruction

Sir

Residency College the 7th November 1873

It was the intention of His Honor the Lieutenant Governor, I believe, that Mr. Grant's increase of pay (100 Rupees a month) should take effect from 1st March inasmuch as in the Education Budget Resolution dated 24th March 1873, the insertion of 1200 Rupees in the Budget was authorized in Pass. The Accountant General, however, does not feel justified in paying a note for the increased salary from 1st March without the orders of Government. I therefore beg that you will be pleased to move the Government to pass the necessary order. The sanction of Government to the increase of Mr. Grant's pay was conveyed to this office in letter N/329 dated 31st July, from the Secretary of State, which was forwarded under your endorsement N/3630 of 21 October.

J. S. Sutcliffe

Principal Presidency College

N^o 1050W. S. Atkinson Esq^r M. A. Director Pub. Instrⁿ

Sir

Presidency College the 10th November 1873

With reference to letter N^o 3406 of 18th September from the Government of Bengal forwarded under your endorsement N^o 3598 of 20 Oct^r sanctioning the expenditure of Rs 1000 in the formation of a Gymnasium on the premises of the new Presidency College on condition that it is in common use by the boys of the Hindu and Mussul Schools and the Students of the College. I beg to point out some of the difficulties of carrying out such an arrangement and to suggest another plan whereby the wishes of

Government will be more effectually promoted without entailing a greater expenditure of money. There are in the three Institutions to which gymnastic apparatus is the common term boys and it would be necessary to erect duplicate or even triplicate sets of apparatus in order to afford all an opportunity of joining in the exercises. The cost of the apparatus put up at the Madrasah was Rs 620/- and I think that a triplicate set of apparatus of that kind could not be erected for less than 1800 Rupees. Again the play ground of the Hindu School is not connected with the new College Compound and the boys if allowed to go over to the Gymnasium at the recreation hour would probably not all come back again for their afternoon work. There is also another difficulty which I see no way of overcoming. The boys of the Hindu School pay a fee of 5 Rs a month and they consequently consider themselves a peg higher in the social scale than the boys of the new school who only pay 4 Rs a month. and any union of the two schools in gymnastic exercises would I fear be attended by never ending quarrels. The Head Masters are strongly of opinion that it would be better to set up for each school separate apparatus and as the surplus fees are more than sufficient to cover the cost they that may be authorized to spend for each school Rs 650 from these funds in the erection of suitable apparatus. As regards a teacher of gymnastics the surplus fees of the schools will be sufficient to pay a salary of 40 Rupees a month and this might be divided equally between them. The new College premises will probably not be ready before April but will arrange for the erection of gymnastic apparatus of the very best kind before the building is completed and I hope that it will not be necessary to use the entire amount (1000 Rs) now sanctioned by Government.

I have &c.

Signed H. H. Cliffe Principal

1051

B. S. Atkinson Esq. M. A. Director Pub. Instructions
Sir

Residency Allahabad 11 Nov 1873

I have the honor to submit for approval and sanction a request for out of office in connection with

the new Presidency College Building

112

2 The best site for these will, I think, be along the Western boundary wall marked on the Block Plan which accompanies this letter. In this position they will cut off the view of the unsightly tiled huts on the other side of the wall.

3 My proposal is that 180 ft. in length of this ground should be occupied by 60 ft. of sheds at each end of a Central building 60 ft. long and 20 ft. wide. The shed at the South end would be occupied as stables, and that at the North end by the Conveyances of the Professors. The ground floor of the Central building should contain 5 houses for servants each with a frontage of 8 ft., and the remaining 20 ft. should be formed into a tiffin shed for students like that at the Hare School. Over the Central portion occupied by servants' houses and the students' tiffin room, a single upper room 60 ft. long should be created in which the Tools and Instruments of the Engineering Department may be placed after the Survey season is over. The room would also contain stores of every description belonging to the College.

4 There should only be one common gate of admission to the Hare School and the College, and a Durwan's house should be placed near it.

5 I have confined this requisition to the lowest scale of accommodation it is desirable to provide, and the cost will not, I think, be very great. The Government has acted so liberally in providing a really good building for the College that I should be ashamed to ask for a larger expenditure on out-offices than I consider indispensable.

6 In order to obviate any reference to me as to the purchase of a further block of land for the accommodation of the out-offices. I desire to state that I do not consider it necessary to make any further acquisition of land.

I have the

B.S. Akhinsingh M.A.

D.P.S.

Presidency College the 18th Nov^r 1893.

In returning the papers enclosed with your Memo A^o 3835.
of 11th Nov^r. I beg to submit the following remarks.

In the morning of the 23rd Oct^r. I found Mr. Mullet one of the
Law Professors waiting after his lecture to report to me
the grossly insulting behaviour towards him of one Soresh
Chunder Dutta of the 1st Year Readership class. During the
Course of the lecture he had just given Conduct more unbecom-
ing I never before heard of on the part of a student
and Mr. Mullet informed me that what had taken place
in the class on that morning was merely the culmination
of a series of insults of a less outrageous character
which he had received from time to time from this same
student. I do not forward you any details of Mr. Mullet's
Complaint because I think it unnecessary. I went down
to the office at once & struck off the name of the offender from
the College rolls for misconduct. I learnt in the course of the
morning that Soresh Chunder Dutta had requested
Mr. Dawng the officiating Principal to allow to
withdraw his name from the rolls of the Readership class
on the 13th Oct^r. But as from some unexplained reason I found
that he had been in attendance on the lectures on the 22nd as
well as the 23rd Oct^r. I wrote to ^{inform} him that I had struck
off his name from our rolls for misconduct. I can only
conclude that Soresh Chunder attended the class on the
22nd & 23rd Oct^r. for deliberate purpose of insulting Mr. Mullet.
There was no notice in the Register of Soresh Chunder having
withdrawn from the College when the case came before me.

As an appeal has now been made to you
on the subject I beg to suggest that you should officially
inform the appellant that his expulsion from the college is
approved.

Yours

My dear Babu.

The Lieut. Govt. is desirous of taking up
another small strip of land immediately West of the
present boundary wall of the New Presidency College.
This land will extend as far as the Eastern boundary
of the Tank and will run North to the Southern boundary
of Babu Sateonoy's garden. The whole area is a little
over a bigha and chiefly belongs to you. I believe.
The Govt. has some ^{area} occupied land between Halliday & Colclough
Streets and perhaps we could come to some arrange-
ment for making an exchange with you. Will you
be kind enough to let me know whether you have any
objection to negotiate for an exchange of the land we
now want for a portion of that now owned by Govt.

Yours Truly

Babu

Rendney file Nov 29/73

My dear Mr Abbott

In reply to your note of the 28th Nov. There are 64 Students on the rolls of the 3rd year Class and of these 44 are taking up Natural Science.

Our students do not take up Science in the 1st year of the Coll. Course but in the 2nd year, one year being ample to enable them to go through the Chemistry prescribed for the First Arts Examination. On the rolls of our 2nd year Class there are 147 Students of whom 39 have failed at former examinations. Of the remaining 108 - 49 have taken up Chemistry.

The 1st year Class contains 75 Students and I expect that from 50 to 60 of these will elect to take Chemistry at the opening of the new Session in January when they enter upon their 2nd year.

Yours Very truly

Sir

Presidency College the 15th Decr 1873.

I have the honor to submit the report called for in your Endorsement No 4074 of 27th November on letter No 4116 of 18th idem from the Government of Bengal by your address.

2. It should be borne in mind when considering this report that the College officers are daily engaged in work which requires no colloquial knowledge of a vernacular. I venture however to state that if placed in a position which required a colloquial knowledge of the vernacular they would in most cases soon acquire as complete a knowledge of the languages as their duties might render necessary.

I have &c.

J. J. L. Sutcliffe

Principal Presidency College

Reports.

Mr. Sutcliffe Has the ordinary colloquial knowledge of Hindoostani which European officers generally have whose daily business is transacted in English.

Mr. Lawry Has passed the prescribed standard in Hindustani at Fort William College and has a fair colloquial knowledge of that language. Is an excellent Sanscrit scholar and can read and understand ordinary flap books in Bengali, but has no colloquial knowledge of Bengali.

Mr. Blomford Has passed the prescribed standard in Bengali at Fort William College but has no colloquial knowledge of that language. Has however the ordinary colloquial knowledge of Hindustani which

which his duties require.

Mr. Beebe

Has passed the prescribed Standard in Bengali at Fort William College and has a colloquial knowledge sufficient to carry on a conversation with people who speak that vernacular. Has an ordinary knowledge of colloquial Hindustani.

Mr. Leitch

Has passed the prescribed Examination at Fort William College in Bengali, and had when residing at Kishinagar in 1870 a knowledge of colloquial Bengali sufficient to enable him to examine the large Missionary School at that Station and afterwards to address the Masters and boys in that vernacular. Has not kept up this knowledge of Bengali, but has devoted his leisure hours to the study of Indian History & Literature. Has an ordinary knowledge of colloquial Hindustani.

Dr. Robson

Has passed the High Proficiency Standard in Bengali at Fort William College and speaks and writes that vernacular with complete facility. Can carry on any discussion in Bengali with people who speak only that language. Is ready also to pass the High Proficiency Standard in Sanskrit.

Mr. Willson

Has passed the prescribed Standard at Fort William College in Bengali, and has a moderate colloquial knowledge of that vernacular as well as Hindustani.

Mr. Griffith

Has passed the prescribed Standard in Hindustani at Fort William College and has a slight colloquial knowledge of that vernacular. Is preparing to pass the College Standard in Bengali and intends afterwards to acquire a thorough colloquial knowledge of that vernacular.

Mr. Leath

Has passed the prescribed Standard in Hindustani at Fort William College and possesses a fair colloquial knowledge of that vernacular.

Mr. Downing

Has passed the prescribed Standard in Hindustani at Fort William College and

and has an ordinary colloquial knowledge
of that vernacular.

Mr. Pedlar

Has only joined the department lately from
England

J. Sutcliffe.

To

W Smith Esq^r

Superintending Engineer
Calcutta circle

Sir

Presidency College the 15th Decr 1873.

I have the honor to inform you that the
land adjoining the present Western boundary of the Presidency
College, which His Honor the Lieutenant Governor wishes
to be taken up belongs to Baboo Hera Lab Seal and
Jainey Shree Bose. In the accompanying Map the
land of the latter Baboo is tinted green, and that of
Baboo Hera Lab Seal brown. Baboo Jainey Shree is
willing to take an equivalent portion of the land in
the same neighbourhood belonging to Government
in exchange for his holding, and would suggest that
this equivalent be taken from the portion marked X in
the Map. He is willing to pay for any slight excess
there may be in a compact block over the area he
has to give in exchange. Baboo Hera Lab Seal holds
all his lands in Trust, I believe, and there might be
some difficulty in acquiring his land except under the
Act. I enclose a letter from him which I have just
received, and you will observe that he states his willing-
ness to accept the same price for the present land as you
paid him on a former occasion for similar ground.
I have &c.

I have received your note enclosing
4 Rupees in Postage Stamps. The Examination will be
held at the Presidency College and Sacca only so far
as I know. You ought to have sent a Money order.

I have &c.

Sd/ J. Sutcliffe

Principal Presidency College

No. 1084

To

W. S. Atkinson Esq. M.A.

Director of Public Instruction

Sir

Presidency College the 16th December 1873

With reference to your letter No. 326 E of

29 October last from the Government of Bengal, forwarded
under your endorsement, No. 3875 of 12th November, I think
that possibly there is some misapprehension on the part of
Government as to the nature of the D. P. W. Examinations
conducted by officers of the Engineering Department.

2. There is not a copy of Mr. Scott's letter on the
subject of these Examinations in the College office, and we
therefore ignorant of the grounds on which payment of the
Examiner was urged, but from Mr. Lawrence's letter No. 922
of 5th August, it would appear that the officiating Principal
was under the impression that the D. P. W. Examinations formed
no part of the ordinary duties of the Engineering Professors,
and that there was, in consequence, a fair claim to some
remuneration for conducting them. On this point there has
been some misunderstanding, which I desire now to
point out, and request that the orders already passed
may be reconsidered.

3. It has always been part of the recognized
duties of the Engineering professors to conduct half yearly
examinations of candidates for employment and promotion

in the Public Works Department; and in the old Engineering College, the Principal was liable to be called upon to supply sets of questions at any time between the half yearly examinations upon an incident by any Executive Engineer. This practice was inconvenient to the College, and attended by no advantages but I am sure as regards D. P. W. officers, and I therefore got sanction to the holding of these examinations only on the First Mondays in February and August. But it should be understood distinctly that the conduct of these examinations has always been considered as forming a part of the duties of the Engineering Staff in addition to their daily duties in the office.

4. The Examination work does not press heavily on the Professors. On the contrary it is very light - as will be seen from the following statement which shows the number of candidates at the half yearly examinations for the last 3 years.

	apt. Engineers	sub. Engineers	sub. Overseers	sub. Overseers	Accts.	Total
6 February 1871	4	"	7	3	23	37
7 August "	4	"	2	3	23	32
5 th February 1872	"	"	1	3	16	20
5 th August "	"	"	4	3	32	39
3 rd February 1873	"	1	3	2	44	50
4 th August "	1	"	1	4	62	68

Total 9 1 18 18 200 246

From the above table it appears that out of 246 Candidates no less than 200 were candidates for the Accountants' grade, and candidates of this class are subject only to an examination in one Arithmetic Paper. For the Examination of candidates for the Professional grades, old Examination Papers are frequently used, so that you will see there is very little labor involved in the conduct of the examinations. The Mathematics Professor has decidedly the greatest portion of the work.

5. A fee of 5 Rupees is levied for admission of outside candidates to the examinations for Accountants, otherwise we should be flooded with incompetent candidates. But no fees are paid by men who are already employed in the Public Works Department. For the professional grades no fee is paid by candidates who are already employed in the Department whilst a fee of 10 Rupees levied from outsiders who are candidates from the grade of Overseer or

or sub-occurs. The number of outside candidates is however very small except for the grade of Accountants. The distinction drawn between the two classes of candidates as regards payment of fees arises from it being considered a part of the duties of the College officers to examine men already employed. I think therefore, that any remuneration for the conduct of the regular half-yearly D. P. M. Examinations is unnecessary, as these examinations stand on quite a different footing from the other Examinations mentioned by the officiating Principal in his letter above mentioned, and I recommend that the order already passed may be reconsidered.

6. As regards the Examination of Teachers for certificates of qualification for teaching Surveying, I think some remuneration may be desirable, but it is impossible to say at present what number of candidates will come forward; and I would suggest that the remuneration to be paid should be settled after the examination has been held. If this be approved I will submit a report after the Examination and propose such remuneration as seems to be fair and reasonable.

I have &c.

N 1096

To

R. A. Fyfe Esq^r

Off^r Accountant General, Bengal

Sir

Presidency College the 2nd Jan'y 1874

With reference to your N 573 of 30th December
 containing a verification of the services of Baboo Sree Kanta Ghosh
 9th Master of the Sans School from 1st January 1848 and stating that
 the services of this Baboo from 1st June 1842 to 31st December 1847
 cannot be verified, as the Pay Bill of the School was lost, during
 this period, audited by the first Pay Master, I have the honor to
 suggest that this unverified period of service may be considered
 to fall under clause (C) of section 16. The Government took over-
 charge of the School from the Native Managers of the old Hindu
 College, and therefore, service rendered before that period ought
 under the above mentioned clause (C) to be considered as service
 qualifying for Pension. I shall be obliged if you will let
 me know whether you agree with me as to the construction.
 I put upon clause (C), in order that I may, if necessary,
 submit the case for the orders of Government

I have

I have the honor to be

Sir

Your most Obedt^t Servant

J. L. Sutcliffe

Principal Presidency College

N^o 1097

To

Mr. J. King Hamilton & Co.

Dear Sirs

I believe the late Mr. McLane Smith had some account with your firm. Will you be so good as to inform me whether there is any property belonging to him yet remaining in your hands.

Yours faithfully

Presidency College the 21st January 1874.

Sir,

With reference to your N^o 3924 of the 17th November last I have the honor to forward the Verification by the Accountant General of the Services of Babu Krenath Ghosh 9th Master of the Hare School

2. The Accountant General it will be observed has only verified the Services of the Babu from January 1848, and it is stated that from the period embracing from 1st June 1842 to 31st December 1847 - the Establishment Bills of the Hare School not having been audited in the late Civil Paymaster's office, this portion of the Services of the Babu cannot be verified. The Hare School was brought under the direct management of Government, through the Managing Committee of the Old Hindu College and the late Council of Education, from the date of the death of Mr. David Hare in 1842, and as the Babu's Service extends even beyond that date, I beg that the period not verified by the Accountant General may be reckoned as Service, and that the good Service Pension to which the Babu is entitled may be recommended to Government for sanction.

The Deputy Commissioner,

Nawgong

Sir,

Presidency College the 26th January 1874.

By request of the Director of Public Instruction, I have the honor to send you a set of questions for the Examination of the 3^d Master of the Nawgong Zillah School. You will be good enough to give out the papers in the order given below, and send me the answers by Parcel Post. The questions should also be returned with the answers. The papers cannot I fear arrive in time for the examination, being held on the date fixed viz: the 2^d February but it should be held as soon after that date as may be practicable.

1st Day 10-1 Mensuration

1¹/₂-1¹/₂ Surveying

2^d Day 10-2 Drawing

There should also be an examination in Practical Surveying on the 3^d day - arrangements for which you will be good enough to make. This surveying should be executed with the chain and compass and should be of an extent to occupy not less than 3 hours - during which time the officer in charge of the examination should be in the ground. After plotting the Surveying in the presence of the same officer the field Book and plan should be despatched to this office.

N^o 1161

W. S. Atkinson Esquire M. A.

Director of Public Instruction

Sir,

Presidency College the 26th January 1874

With reference to your Memo: N^o 164 forwarding copy of letter from the officiating Inspector of Schools in Assam, I beg to say that I will forward question papers to Nawgong by this day's date. It is however to be observed that the papers cannot arrive in time to permit of the examination being held on the date fixed

by

131

lay the Rules. There is moreover no one at Saugang so far as I know who can superintend the practical part of the Examination. The applications received from all quarters for the February examination show that it is again necessary to call the attention of the provincial Educational authorities to the Rule which requires 30 days' notice of intention to appear at the Examination. It is also desirable that they should at the same time be informed that the Examination is confined to teachers.

I have &c.

H. J. Sutcliffe

Principal, Presidency College.

N^o 1162.

To

The Principal Patna College.

Presidency College the 26th January 1874

Sir,

I beg to forward question papers for the Survey Teacher-ship Examination which is to be held under your supervision at Patna on Monday the 2nd February and following days. The papers are to be given out as follows.

2 nd February	10-1- Mensuration
3 rd "	10-1- Surveying
4 th "	10-2- Drawing

2 You will be good enough to arrange for holding the practical Survey Examination on Thursday in strict accordance with the direction contained in clause 14 of the Rules for the Examination. The whole of the answers should be despatched afterwards to me by Parcel Post.

3 There are three candidates to be examined in English and 6 in Hindi. I have been unable to get a translation of the Papers made into Hindi, but as only one paper will be given out daily, there will probably be no difficulty in your getting a translation made daily of each Paper half an hour before the time fixed for opening the examination by some competent person. If any delay should arise in giving out the Paper in consequence of this - you can grant extra time to the Examinees for answering the questions.

The names of the Examinees are subjoined

No 1181

To

W. S. Atkinson Esquire M.A.

Director of Public Instruction

Presidency College the 7th February 1874

Sir,

The Engineering students having returned from the
field to their work in class, I find it necessary to make a slight change
on the teaching staff from the 1st February. Two Babus for assisting in
Engineering subjects and drawing are not now requisite and I propose to
discontinue with the services of Babu Akhoy Krishna Basu and to retain
only Babu Dwarka Nath as an assistant in Engineering subjects
and Drawing. The 2nd & 3rd year classes require nearly the whole of the time
of the Mathematical Professor for the remainder of the session, and it
is also lately necessary to appoint an assistant lecturer in Mathema-
tics to take up those subjects in the three sections of the 1st year class for
teaching which Mr. Griffiths cannot be spared. I therefore propose that
Babu Behary Lal Banerjee be appointed an assistant in the Engineer-
ing Department from 1st February, in place of Babu Akhoy
Krishna Basu and on the same pay papers 125/- a month.

I have &c.

Principal Presidency College

No. 1197.

Sr.

R. A. Fink Esquire

Assistant Accountant General

Presidency College the 16th February 1874

Sir,

On the 7th January last the following Bills were sent for payment by Peon Bally Churn to your office.

1 Bill Junior scholarship for December 1278--

100-- C. E. Graduate scholarship 100--

100-- Mr. Lethbridge's salary 701--

100-- Vernacular scholarship for October 8--

100-- 100-- 100-- for November 7-13--

100-- Junior scholarship C. E. Department for Decr 325-3--

These Bills were paid off at your office by the hand of the above named peon on dates specified below.

7th January 1 check 701--

9-- 100-- Included in a check for

Rupees 1850-3-6 for

other Bills 100--

13-- 100-- 1 check 325-3--

15-- 100-- 1 100-- 1278--

16-- 100-- Cash 8--

so that you will perceive that the Bill for Rupees 7-13-- remains yet to be received. On reference to your office it appears however that the Bill for Rupees 7-13-- was paid at your office with the stipend bill for Rupees 8/- in cash on the 13th January, the latter amount was however received at this office on the 16th inst. Can questioning the peon how the discrepancy arose between the date of payment of the Bill for 8 rupees in your office

and the receipt of the same amount at this office, as well as to the cause of the Bill for Rupees 7/13- not being deposited in this office - he states that he received the 2 rupees on the day that it was deposited in this office viz 16th January, and that he can not remember whether he received payment of the Bill for Rs 7/13 or not. As the transactions of this office with your department are very frequent, and for small amounts, I beg to suggest that in future all payments should be made to me by checks. This will obviate the risk incurred by having to employ Peons on small salaries in the collection of Bills. In the present case the amount Rs 7/13 might have been included in the check for Rs 325/3- which was paid to me on the same date - for the future I shall take care that Bills for small amounts are forwarded with others for larger sums, so that there may be no inconvenience in granting me checks in payment.

2. I beg also to bring to your notice that I am obliged to employ one Peon almost exclusively in collecting Bills from your office on account of the delay which takes place in passing them. I am, Sir,
Yours faithfully,

No. 1199

To W. S. Atkinson Esquire, M. A.
Director of Public Instruction
Presidency College the 16th February 1874

Sir,

With reference to your Memorandum No. 395 of 6th Instant, I beg to report that I have despatched all the chemicals and apparatus in a securely packed box to Mr. Cobb except the Aspirator. As regards the Aspirator Mr. Fidler states that a 9 gallon beer barrel will answer the purpose and ^{there is} very probably this can be got in the station.

I have the honor to be &c.

Principal Presidency college

No 1212

To W. S. Atkinson Esquire M. A.

Director of Public Instruction

Presidency College the 23rd February 1874.

Sir,

I have the honor to return Mr. Scott's letter of 5th August asking that some remuneration may be paid to officers who conduct the examination of D.P.W. candidates.—

2 On this letter I have to remark that the Civil Engineering Department has been expressly established for the purpose of training candidates for the Department of Public Works, and of ascertaining their fitness for admission to the Department by Public Examinations. It has also always been a recognized duty on the part of the College staff to examine men already in the Public Works Department, when they are desirous of promotion. There is therefore no analogy between the D.P.W. examination and the examination mentioned by Mr. Scott. At the examination that has just been held there were 6 candidates for promotion all of whom are

already in the Department of Public Works and it is very rare indeed that any candidates appear at these examinations who are not already employed in the Department, or are students or Ex-students of the college.

3 I am still therefore of opinion that it is not necessary or desirable to pay the Professor for conducting these examinations.

I have the honor &c,

Signed J. Stutchiff
Principal Roorkee College

N^o 1217

To

W. S. Atkinson Esq. M. A.

Director of Public Instruction

Presidency College the 28th February 1874

I have the honor to forward applications from some of the Masters of the Hindu and Mohammedan schools for the appropriation of a portion of the Surplus fees of each school in the payment of gratuities to Masters and Servants according to the Scale which is attached to each letter.

2 These applications are based on the great rise in the price of articles of food which has recently taken place and on this ground I beg that you will recommend them for the favorable orders of Government.

3 The surplus fees at the credit of the Hindu schools up to this date are Rupees 5000 and this amount will be increased after the fees for much are collected. The Headmaster

and Second Masters have not put down their names as applicants for any gratuity, but they are I think entitled to participate in any benefits arising from the prosperity of their school: and I would recommend that Rupees 250 be given to the head Master, and Rupees 150 to the second. This would make the total grant for gratuities to the Masters and servants of the Hare school amount to Rupees 1985 being less than one third of the surplus for the year.

4 The surplus fees at the credit of the Hindu School amount at this date to Rupees 1319. This will be slightly increased by the collection in much. As the amount now proposed to appropriate in gratuities to the Masters and servants viz 1100 Rupees will absorb nearly the whole of the surplus, I am unable to recommend any grant to the head master and two junior Masters whose names do not appear in the list.

5 I think it is desirable that some general rules should be laid down for the appropriation of the surplus fees of these schools and I submit the following for your consideration.

Whenever the surplus fees in either school fall short of Rupees 3000/- 50 per cent might be available for distribution amongst the establishment and the balance carried to the credit of a fund for building a boarding house for Native students at some future day. Whenever the surplus fees in either school reach Rs. 3000 or more - one third of the amount might be available for distribution to the establishment and the balance carried to the credit of the Boarding House fund.

6 The recognition of some such principles as the above would give masters an interest in the prosperity of their school and it in the course of some years probably enable the Department to provide a building suitable for Boarders without any

aid from Government. Indeed the Government has
143
so liberal in grants for educational buildings at
presidency that any additions to these should only
look for either for the liberality of private individuals
or for the formation of some such fund as I have now
suggested.

I beg the favour of an early reply to this
letter if Government should think my proposals deserving
of consideration.

I have &c.

Director of Public Instruction

Sir

Presidency College the 5th March 1874

The new College Building will be finished I think by the end of this month and during April I hope to be able to transfer all the classes. It is necessary however that some provision should be made for supplying Benches, and also for additional class room furniture for the Engineering Department. I estimate that 36 Benches each measuring 20 feet will be required, and the cost of these will not be less than Rs 1500. I have already spent all that I could save from Contingent expenditure in the purchase of new class room furniture. A further sum is however required and I beg that you will move Government to make a special grant of Rs 2500 for Benches and furniture. I will endeavour to make some saving up on this account, but in order to furnish the class rooms completely it may be necessary to spend the whole.

With reference to your No 709 of 27th ult. I have the honor to state that in the Printed Report of the Council of Education for the year 1842 to 30th April 1843 Para 3. I find the following

Lordship in Council is aware that under the order of 12th 1842 all direct superintendence was confined 1st to the High School and its dependencies; these now are the Patasala and the late Mr Harris school &c.

Again in appendix II of the same Report I find a sum of

Rupers 5,270 was granted in
advance of the entire establishment of the Hone school for that year.
In the Report of the Council of Education for the following year
1843-44 I find at page 25 the name of Sree Nath Ghosh returned
by the Council as on the establishment of the school. The above
facts constitute I think a reply to the reference you now make.

be continued during the extended leave.

Signed J. Hutchings
Principal P. C. College

To
H. S. Atkinson Esq. M. A.
Director of Public Instruction
Presidency College the 6th March 1874

I beg to suggest that the abstract Contingent and Library allowance Bills of the College should be sent direct to the Accountant General instead of being sent to you in duplicate for counter signature. The detailed Bills with Vouchers would of course afterwards be sent to you for counter signature in the usual way, and it would save the labor of making out one copy of the Contingent and Library allowance Bills if the abstract Bills were sent direct the only object of the abstract Bill is to enable me to draw the money necessary to meet the Contingent expenditure that has been incurred, and you would retain the same control as at present if the detailed Bills only with Vouchers were sent to you for counter signature. There is so much office work now that any plan which will diminish it even to a slight extent is worthy of consideration.

To

R. A. Fink Esq

Ap^t. Accountant General Bengal

Dated 20th March 1874

Refus to the Bill for Rs 298/- returned for presentation to the Public Works Department for Payment

The undersigned begs to state that the letter from the officiating Secretary to the Government of Bengal quoted in the Bill no where mentions that the charge should be borne by the Public Works Department. A copy of the letter is herewith enclosed for ready reference. Besides the fees paid in by the candidates are deposited in to the credit of the Accountant General and it is reasonable that any charge incidental to the Examination should be debited to account of fees already credited.

Yours faithfully

My dear Sir

In reply to a note of mine of 21st November
1873 Balu Tainy Chauran Bose wrote to me as follows.

I Sutcliffe Esq.

Sir

I agree to the exchange of land proposed by you
yours truly

Novemb. 21/73

Tainy Chauran Bose

I asked the Balus afterwards to meet me for the purpose
of going over the ground belonging to Govt. we met and the
Balus agreed to take the portion marked X on the black plan
I sent to Mr. Smith with my letter of 15th December. The Balus
again wrote to me on the 30th January on the subject & I
enclose copy of his note. The price of ground marked
X was expressly accepted by the Balus when we went
over the ground together.

yours truly

W. J. Sutcliffe

Presidency College

1st April 1874

My dear Balu

Mr. Verne writes to me that you doubt
wish now to take the price of land we marked off X on the
black plan when we visited the ground in November last.
Is there not some mistake in this. I marked off the land
which we went over together.

Balu Tainy Chauran Bose

To

W. S. Atkinson Esq. M.A.

Director of Public Instruction

Sir

Presidency College the 1st April 1874

I have the honor to submit my report on the Survey Teachership Examination which was held on the 2nd February last.

2 Twenty ten candidates were registered for Examination in Calcutta - ten at Patna, eight at Dacca and one at Mowgong. Of the Calcutta candidates 12 desired to be examined in Bengali the rest in English - Of the Patna candidates 3 were examined in English and 3 in Urdu. At Dacca 5 were examined in English and 2 in Bengali - The Mowgong candidate was examined in English.

3

The result of the Examination is that only the three following candidates pass.

- 1 Uma Prosad So Head Master Belasore school
- 2 Gopal Chunder Shah So Ranchi school
- 3 Gadadhar Garain 4th Master Beerbhoom school

4 The conduct of this Enamuation has given
very considerable trouble, and some plan should be devised
for the Enamuation of the Paps in Urdu at future Enamuations
On this occasion I was obliged to ask Mr. Blockmann to get
translations made of the Fatawa Paps in Urdu, and I am unable
to offer him any thing but thanks for his trouble. I got the questions
translated into Bengali by Baku Mohuncho Nath Bhattacharya
of the Normal school and Lithographed them at the University Press
and the Baku who is acting as an Assistant in the Engineering
Department translated the answers of the Enamuiers.

5 I received the sum of Rs 130 of fee for admission
to the Enamuation, and I propose to divide this between the two
Enamuiers as follows

Mr. Dawning	86-10-8
Mr. Grant	43-5-4
Total Rs.	130 - " "

6 The following form of Certificate for successful
men seems to be a suitable one and I beg that it may be adopted
Surveying Teachership Certificate

Certified that
passed the Survey Teachership Enamuation at the Presidency College
in 187

7 All the Candidates except the three above mentioned
failed in Mensuration and thirty two failed in Drawing
only, 10 Candidates failed to get half marks in Practical
Surveying.

W. S. Atherton Esq. M.A.

Director of Public Instruction

Sir

Presidency College the 11th April 1874

The accompanying Bill for Rs 100/2 on account of charges incurred by me in carrying out the arrangements ordered by you in connection with the formal opening of the new College building, has been returned by the Assistant Accountant General with a request that it may be submitted to Government for sanction. I have explained to the Assistant Accountant Genl that the Lieutenant Governor expressly ordered that formal invitations should be issued to the European and Native Community, and that all other arrangements should be carried out on a scale befitting the occasion. Notwithstanding this explanation, he still refuses to pass the Bill and I have no other alternative but to ask you to submit the bill for the sanction of Government. At the same time I think it would be well to lay down some general instructions for the guidance of the Assistant Accountant General regarding expenditure debitable to the contingent fund. Surely when expenditure is expressly authorized by you on account of contingencies, it is not open to the Accountant General to take exception to the same, nor ought the same of public officers to be occupied in defending and explaining charges of so indispensable a kind.

W. S. Atkinson Esq. M. A. Director of Public Instruction

Residence of Mr. The 20 April 1874

On making up the Account of Receipts and Disbursements of the Law Department for the year which has just ended, I find that whilst the fees realized Rupees 15500- are more than sufficient to meet the expenditure on the Professorial Staff Rupees 14400- they are nevertheless insufficient to cover the entire charge of the Law Department after debiting it with a proportionate amount of the Office and Contingent expenditure &c. - The complete account shews a debit balance of Rupees 1219- against the Department, and I think that it is desirable to take steps at once for establishing an equality between the Receipts and expenditure for the current year. With this end in view I propose that from 1 June next the fee of the 2nd year B.A. Students be raised from 5 Rupees to 10 Rs a month - the latter being the fee charged in the 3rd year Class. Up to this time the fee charged in the 1st and 2nd year Law Classes has been 5 Rupees and in the 3rd year Class 10 Rs a month. This distinction between the fees payable by different years was sanctioned in order that the Law fee might not press unduly on a General Department Student who had to pay 12 Rupees a month during the first two years of his attendance on the Law lectures - That is no longer the case, as none but Graduates are now admissible to the 2nd year Law Class - The increased fee which I now propose will add more ^{than} Rs 200 a month to the income of the Department, and will effect I think an equilibrium between the Receipts and Disbursements.

I have &c

To The Officiating Superintendent Mathematical Instrument Department.

Forward (the following letter addressed by Mr J. M. Scott Senior Professor Civil Engineering Department) to the Officiating Superintendent Mathematical Instrument Department with a request that he will reconsider the decision contained in his letter A/716 of 20 Instant.

Residence of Mr.

The 23 April 1874

(signed) J. H. Clarke Principal Professor

To J. S. Sutcliffe Esq. M. A. Principal Professor

Presidency College the 22nd April 1874

Sir In reply to Memo No 776 dated 20th instant from the
Off^g Superintendent Mathematical Instrument Department, returning
6 Leavels and 1 Theodolite, please the honor to submit the following

As to the Leavels which are out of adjustment, they
have probably been adjusted over and over again in the course of
the Season either by Mr Downing or myself, but from the number
of Students using them, (it being the first time any of them have
had an instrument of the kind in their hands) they are prone to
be out of adjustment again at the end of the Season. I am
strongly of opinion that it is very much to the advantage of
Government, so far as regards the preservation of the instruments
that they should be sent to the Mathematical Instrument Depart-
ment and there thoroughly cleaned and adjusted, and any of
the Screws that are found worn should be replaced.

As to the new wires required for the Theodo-
lite and the suggestion of the Off^g Superintendent, Mathematical
Instrument Department that "they should be put in by the
person using the instrument," he is probably not aware that
the same instrument is used by many different Students in
the course of the Survey Season and that it would be impossible
to take a Theodolite to pieces and show each individual Student
how to put in new wires, without neglecting what is of far
more importance viz. making a good Survey with an instru-
ment already in good order.

The Off^g Superintendent Mathematical Instrument
Department agrees, both in his letter under reply and also in
his No 797 dated 5th April 1873, that the Officers in charge of
these instruments are ignorant of the method of repairing
them. This assumption is incorrect, but these Officers consider
that they have more important duties to perform and that all
the instruments should be sent in each year for inspection.

If I receive an order from yourself or higher autho-
rity that I am to perform this work, I shall of course do so, but
would point out at the same time the "enormous" task with

161

be caused to Government of Sam to do the work of a ^{two} instead
of teaching the Claps - When one man has charge of one instrument
he of course adjusts it and keeps it in repair but I think it would be
far better for Government and this College if every instrument were
returned to shore after the Survey season to be thoroughly overhauled.

Director of Public Instruction

Sir

Presidency College the 8th May 1874

With reference to the copy of letter N/36 of 22nd April from the Assistant Accountant General forwarded under your endorsement, N/2124 of 30 Idem I would suggest that the whole of the

164

Correspondence should be laid before Government for an expression of opinion, whether upon the facts as they appear upon the records of the Educational Department the Government did or did not assume charge of the Hare school from the date of Mr. David Hare's death in 1842. It seems to me that upon the documents already submitted to the Accountant General, there can be but one conclusion, but as these are said to be insufficient to warrant the reckoning of Balu Senath Ghosh's Service from 1842 to 1847, as Service under Government qualifying for Pension, I see no other way of settling the question but by a direct reference to Government. The decision which Government may give will affect one other Master of the Hare school besides Senath Ghosh.

2 On searching the old Educational records I find some additional evidence corroborative of Government having assumed charge of the Hare school from the death of Mr. David Hare.

3 At page CXXXVI of the Printed Report of the General Committee of Public Instruction for 1841 I find a letter No 986 dated 16th December, 1840 - the 37 Para of which runs as follows.

"The Governor General in Council will not disturb the appropriation of the allowance of 50 Rs monthly drawn from Government on account of the school society, when Mr. Hare continues to be connected with the Preparatory school near the Hindu College to the maintenance of which it is principally applied. Mr. Hare will be required by the Committee to make periodical reports on the state and prospects of the Preparatory school, and when his connection with it ceases the disbursement will come more directly under the supervision of the Committee of Public Instruction to whom the apportionment as you suggest, will then be transferred."

4 On the death of Mr. David Hare in June 1842 the Section of the Council of Education for the Hindu College addressed the following letter No 1690 dated 13th June 1842 to the Deputy Secretary to the Government of India in the General Department.

"The Section of the Council of Education for the Hindu College had under its consideration the subject of continuing the school society school at Patalaunga Superintended by the late Mr. David Hare."

2 It appears that the pupils of this school have hitherto been admitted entirely by Mr. Hare, that they have paid nothing for schooling Books or stationery that the discipline was maintained by Mr. Hare.

"personally and that he paid from his own funds any incidental expenses
in excess of the Government allowance of Five hundred Rupees"

3

"The expenses of the school have been the following

"For House rent 53-8-4

"For Teachers (12 in number) 278- " - "

"For Servants 114- " - "

"30 Free scholarships in

"the Hindu College - 160- " - "

"Contingent Charges say 60- " - "

"Total (as Rupees) 565-5-4

4

"There are now in this school 469 Boys divided
into 12 classes, of which the lowest are learning the Primer, and the
upper geometry, History, Poetry, and Algebra. Their ages are from
7 to 16 years."

5

"The Section considers it expedient to provide
for the continuance of the school making alterations in the system
gradually and with caution, so as ultimately to incorporate it
with the institutions subordinate to the Hindu College, and beg
to recommend that a Visitor be appointed to supply as far as possible
the place of Mr Hare in maintaining the discipline of the school
The section propose themselves to regulate the admissions and to
impose a rate of one Rupee per month on future pupils reserving
to themselves a discretion to admit free scholars and so regulating
the admissions as to provide that the Free scholars of Mr Hare's
Foundation shall hereafter be reduced to and remain at one
Hundred, the total number of Pupils being Five Hundred. They
contemplate appropriating the additional funds resulting from
the introduction of the new system in providing a salary for the
Visitor and meeting the extra charges of the Institution."

6

"In the hope that the Government will approve
these arrangements I am directed to submit this application
for the present means of supplying a Visitor in replacement
of the invaluable services of Mr Hare, and likewise for the
continuance of the grant from which the school has hitherto
been maintained"

Shance &c.

Calcutta Hindu College
The 12th June 1842

(Sd/-) Russamay Sutt
Secretary section
Council of Education
Hindu College

165

6 The proceeding extracts shew that Government contemplated the assumption of a direct supervision of the Hare school on the death of Mr Hare and that it was called upon by the section of the Council of Education for the Hindu College to assume charge in June 1842

6 In the proceeding of the same section of the Council of Education on record in this office under date the 9th July 1842 I find the following-

Para 31 "Read a letter from H. V. Bayley Esq. Deputy Secretary to the Government of India dated 29th June 1842 informing that with reference to 37 Para of Mr. Secretary Rushby's letter dated 16th December 1840 the Honorable the President has sanctioned the proposed plan (experimentally) of continuing the school Society's school subject to modification at any time by Government; whenever it may appear to be failing in maintaining the efficiency of the Institution, advancing for six months from 1st August 50 Rupees per annum for the remuneration of a Visitor liable to repayment as soon as the schooling payments or other source may admit of adjustment and communicating the report of Messrs Hare to the Council at the top the cause of Education has suffered by the demise of Mr Hare"

I cannot find Mr Deputy Secretary Bayley's letter amongst the records of this office, but the original or a copy will doubtless be found in your office. The above extract shews clearly however - that the Government did assume charge of the school as had been previously promised in Para 37 of Mr Rushby's letter of 16 December 1840 quoted above.

7 The connection of Government with the Hare school thus established in 1842 has never since been severed. It was a connection of precisely the same character as that maintained between the Council of Education and the old Hindu College and Patshala Mastan from both the latter Institutions have been admitted to Pensioners by reckoning services of the same character as that rendered by Krenath Ghosh from 1842 to 1847. They however that you will refer the matter for decision of Government. The Bahu cannot be allowed to continue any longer as a Master in the school as I consider him unfit for further service although he is probably unable to produce a Medical Certificate when I sent up his application.

for a Pension I never for a moment doubted that he
was entitled to receive all his previous services.

Sd/ J. K. Hoff.
Principal Presidency College

N^o 1326

To J. B. Roberts Esq.
Superintendent of Stationery

Sir Presidency College the 27th May 1874

In reply to your N^o 1326 of 22nd Instant

I beg to explain that in the Engineering Department of the College there was a considerable increase in the number of students in the Session 1873-74 the difference in the number on the Rolls in September 1872 and September 1873 being 127. There was also an increase of 26 in the number of out students in this Department in September 1873 over the number at same date of the previous year. There was thus an increase of 152 students and the amount of Paper requisite for Examination purposes was under estimated. For the annual Examination alone of the Engineering Department which has just been held there was a consumption of 11 Reams of Paper and I found it necessary to use the Paper included for in the General and Law Departments. In addition to the consumption for the annual Examination there has been an unexpected consumption of Paper for Weekly Examinations of the Engineering students which I instituted from 1st February last. These examinations have consumed 8 Reams. At the last Examination of the Second and Fourth year students in September and November last 20 Reams of Paper were used, and two Reams have been issued for casual class purposes for the D. F. M. Examinations and for Printing Examination questions. So that out of a total supply of 49 Reams for the two Departments on my Indents of last September, only 8 Reams now remain on hand. As the last

examinations

of the General Department for 1874 will begin in July it is necessary to make provision for a supply of Paper at once. Hence the Present Emergent Indent and shortly I may say that the Explanation of it is that the amount required for the Engineering Department was greatly under estimated in September last and that it has been found necessary to use for the Engineering Department the Paper supplied for the use of the General Department. I may add that the Assistant Secretary of the College tells me that the Indent for the Engineering Department made by the officiating Principal last September was purposely restricted to less than it was expected we should require, because there was no chance for obtaining a large supply.

Yours &c
S. J. Hulchiff
Principal Presby College

N^o 1326

To
H. S. Atkinson Esq. M.A.
Director of Public Instruction
Presby College the 27th May 1874

Sir
In accordance with the requisition from your office dated 20th Instant I beg to enclose a copy of the Programme of class work now in force. This Programme is of course liable to modification either from a change in the staff or from the completion of a subject. I understand this requisition to be made mainly for the purpose of ascertaining the amount of class work discharged by the Professors of the General Department and as Mr. Feller is engaged in lecturing the 2nd and 3rd year classes of the Engineering Department on two days a week I have included this portion of the Engineering programme in the present return. I also enclose a summary showing the number of hours of class work a week each Professor or Assistant Professor takes, distinguishing between ordinary class work and Honorary class work.

2 There are one or two points on which a word of explanation is desirable

(1) Mr. Sawney takes a Latin class twice a week which is chiefly attended by students who desire to become candidates for the Gilchrist scholarship. It is quite optional on Mr. Sawney's part to take this class as I consider that his other work is quite sufficient to occupy him.

(2) The only subjects which are common to the whole of the 3rd and 4th year students are English and Mathematics and except when engaged in these subjects the classes are divided into sections each of which takes up its appointed subject. Thus on Monday from 12-1 the 4th year class is divided into sections one of which takes up Physics and the other Sanskrit and they are united again from 1-2 for Mathematics. This splitting up of a class for separate and distinct work makes it a task of some difficulty to frame a satisfactory Programme and it entails an addition to the class work of the Professor.

(3) The preparation of experiments for the classes in Physics requires a good deal of time and it would be more satisfactory if I could take away the Mathematics of the 1st year class (at any rate in part) from Mr. Willson make a slight addition to his class work in Physics with the 3rd and 4th year students. Babu Peary Charan Sircar is however unable to take 1st year in Mathematics and I cannot therefore carry out this change. This also prevents my giving the Babu his full share of class work.

I have &c.

Yrs. J. Sutcliffe.

With reference to your endorsement N^o 2795 of the 4th Instant forwarding an application from Babu Ananda Chandra Das 2^d Master of the Decca Collegiate School for transfer to the Decca College of his son Sarini Chandra Das a 3^d grade Junior School of last year's election attached to this College,

I

I have the honor to report that there is no objection to the transfer. 170

The original enclosure of your letter is herewith returned.

I have the honor to.

J. S. Sutcliffe.

Principal Presidency College

N. 1334

To L. Hickling Esq.

Presidency College the 10th June 1874.

Dear Sir

Mr. Whitehead told me the other day that in no case could you allow the gas meter to be placed beyond the nearest boundary of the premises to your main as he laid down this as a positive rule from which there could be no departure. I allowed him to put down the college meter near the boundary wall, instead of near our gas meter which is on the other side of the compound. I am told however of several cases in which your rule is not carried out - for instance at Mr. South's Coleridge where the meter is 210 ft from your main. I therefore hope that you will allow a similar indulgence in our case & let the meter be put some distance within the compound.

Yours &c.

J. S. Sutcliffe

Sir

Presidency College the 13th June 1874

With reference to Para 4 of letter N^o 2749 of 2nd August last from the Secretary to the Government of Bengal to your address, I have the honor to report that I have removed the Physical Science Apparatus pertaining to Mr. Willson's Branch of Instruction to the rooms set apart for it in the New building and that Mr. Willson's lectures will be delivered from the 15th June in the new Lecture Room which has been especially fitted up for the teaching of experimental Physics. The old Horse School Building is not yet ready to receive the Chemical apparatus and it will be necessary to continue Mr. Toller's Lectures in the old Laboratory till the new one is finished. The Engineer in charge of the work informs me that I may expect the new Laboratory to be ready about the end of July as however the Lecture Rooms in Physical Science and Chemistry are now separate it became necessary to apply for the appointment of the additional establishment sanctioned in Para 4 of the letter from Government above quoted from the 15th June. I beg therefore that you will be pleased to appoint Baker Parshod Chunder B. A. as assistant in Mr. Willson's ^{Lecture} room on 50 Rupees a month on probation till the end of the session and that you will authorize me to engage an additional furash on 7 Rupees and a Beamer on 6 Rupees in accordance with the order in Para 4 of the letter N^o 2749 of 2nd August. These items have been provided for in the College Budget for 1874-75.

I have &c.

Director of Public Instruction

Sir

Presidency College the 20th June 1874

I have the honor to report that Babu Purna Nath Ghosh 7th Master of the Hare school on 60 Rupees a month wishes to resign his appointment from the 22nd Instant and I recommend that his resignation be accepted

2

In place of Babu Purna Nath I recommend that Babu Tara pado Ghosal M.A. now Extra Master on 50^{rs} a month be appointed 7th Master on Rupees 60^{rs}.

3

In place of Babu Tara pado I recommend that Babu Suddesh Bandyopadhyay B.A. be appointed Extra Master on Rupees 50^{rs} of both appointments dating from 22nd Instant. Babu Suddesh has been employed for 6 years as a Teacher and last held the appointment of Head Master of the Sumbulpur school on Rupees 120^{rs} a month which appointment he has been obliged to resign owing to the unhealthiness of the place

I have &c

Edw J. Hulcliff

Principal Presidency College

To W. S. Atkinson Esquire, M. A.
Director of Public Instruction
Presidency College. The 22^d. June 1874

Sir,

With reference to your memorandum N^o. 2782 of 29th May I have the honor to report that the Bhistee who was employed jointly by the Hindu School and the College may be dispensed with from 30th June.

2 As regards the Bhaees, however, I cannot recommend that any of them should be dismissed either from the schools or College. It is true that these men have not now to bring water from a distance, but the main object of their employment remains as before. They are employed as distributors of water to the numerous Castes found in each Institution. Except in the case of Bramins drinking cups after being used require to be washed before they can again be used by any other Caste, and it is indispensable that these Bhaees should be retained for this purpose as long as Caste is recognized. Two such men are required for the Presidency College, one on the middle floor and one on the ground floor on account of the large number of students in daily attendance. These men will also after College hours be employed in looking after the College compound. In the case of the two schools not only are the Bhaees necessary, as water distributors, but they are also required to look after the youngest boys when they go out of school for necessary purposes. In fact they have not only to distribute water, but to act as general servants under the orders of the Head Master. Caste distinctions are not now scrupulously observed as they used to be, but believing, as I do, that some members of the Hindu Community would feel aggrieved by the discontinuance of the services of these Bhaees I cannot

recommended their dismissal.

I have the honor to be

Sir

Your most obedient servant
J. S. Sutcliffe
Principal, Presidency College.

Director of Public Instruction

Sir

Presidency College the 30th June 1874

Three of the Engineering Graduate Scholarships for 1874-75 not having been taken up I have the honor to recommend that the 150 Rupees a month available for the award of scholarships to deserving students who have entered the Civil Engineering Department may be distributed in the following manner

2

I recommend that scholarships of amounts specified opposite their names be given to the following students who have entered the 1st year class after passing the First Examination in Arts in the 2nd Division

In order of Merit

1	Chander Sekhar Bhattacharya	15 Rupees
2	Behari Lal Rajark	15 Rupees
3	Jogendra Nath Talit	15 "
4	Bamu Charan Sen	15 "
5	W. Bowers	15 "

3

I recommend that scholarships of 10 Rupees a month be given to the following students who have been promoted to the 2nd year class upon the result of their examination at the end of their first year.

1	Kedar Nath Ganguly	15 Rupees
2	Hari Charan Mookerjee	10 "
3	Brundaban Chandra Pal	10 - "
4	Gopal Lal Banerji	10 - "
5	Atul Krishna Mookerjee	10 - "

4

I also recommend that two scholarships of 10 Rupees each be given to the two students who have been promoted to the 3rd year from the 2nd year class after giving the Forbes scholarships upon the result of their Examination. The Forbes scholarships are worth only 10 Rupees a month but they carry the privilege of free tuition which makes them worth 15 Rupees. The addition of 10 Rupees to the small stipend drawn by the two students who have

176

show themselves the most promising out of a large class with I trust
be sanctioned by you Their names are

1 Anwar Chunder Gupta 10 Rupees

2 Haridas Pal 10 "

3- All the above scholarships (except the last two which
should be tenable for one year) should be tenable for 2 years, commencing
from 1st of July on condition of passing a satisfactory Examination at
the end of the term.

Pal has already taken his transfer to the Medical College, his name having
been withdrawn from the Civil Engineering Department from the 22nd.
Since his application is herewith returned. No scholarship stipend
has been drawn for him at this College.

Yr. S. Hutchiffe

Principal Presidency College.

N^o 1370

To

W. S. Atkinson Esquire. M. A.

Director of Public Instructions

Dated 7th July 1874.

There is no objection to Kamalaksha Chatterjee a Third Grade Junior scholar of the present year's election being transferred to the Medical college. He was a student in the General Department where his scholarship stipend was drawn from 12th January to 31st May. He was then transferred to the Engineering Department on the 15th June from which he now seeks transfer to the Medical college.

His application is herewith returned.

Sd/- J. Sutcliffe

Principal, Presidency College.

Residence of Secy July 8/74

My dear Sir

The new Chemistry Class room will be ready for use during the present month and I write to say that I shall vacate your house before the 31st Instant. I have no doubt you will readily find a tenant from 1st August. I hope you will accept this notice, as I have not before been in a position to say when we could vacate the house.

Yours truly

Born Morally & her son

Director of Public Instructions

Dated 8th July 1874

Refers to His N^o 3356 dated 3 July 1874

There is no objection to the transfer of Sitata Kanta Chatterjee a 3rd Grade Junior scholar of the present year's election. His scholarship pay has been drawn at this Institution up to 31st May last, but as the amount of his stipend for May is only

Rs 8-11-3 his name has been struck off the Roll for non payment ¹⁸⁰ of the Balance of Schooling fee for June viz Rs 1-4-9 which amount should be remitted before his transfer is sanctioned.

The application of Satula Kanta is herewith returned
