 from the Atty^y Secy expressing his deep
 regret at his being warned against
 allowing any of the Committee's Proceedings
 to be promulgated without Authority,

 to maintain secrecy when ^{the} resolutions

 are various. - He further states that
 the three points viz: the results

of the Scholarship Examination, the

I may as well mention here
that I have been informed
in conversation by Mr. Lodge
the Principal of the Hindoo
College that he usually receives
his first intelligence of the
orders of our Committee through
the boys of his class. That
the first intimation he received
of the recent distribution of
purses at the Town Hall was
from the coolies coming to
the College to take away the
benches, and that up to
the date of our convocation
he had received
no printed copy of
the Annual Report.
Mr. Lodge made no
complaint on the
subject, but mentioned
the circumstances in
reply to my queries.

Esq. J. G.
Principal Wardens

W^m

Sir

I am directed by the Committee
of the Wardens to express their dis-
approval of the tone of your letter
to us of the 26th Sept last - Your comments
upon the remarks contained in the
Precedents minute, especially those
in which you ~~expressed~~ ^{spoke} ~~your~~ ^{to your} ~~belief~~
of the opinion which ~~being~~ ^{entertain}
your disposition to perform the
duties of your office, appears to the
Committee highly disrespectful
- I am directed to warn you to be
more guarded in your future commu-
cations

W^m

2 The Committee are at a loss
to discover how you could fail to
understand that the fourth master,
when the question was made, whether
or not his place should be supplied,
was Mr. Jagg; and that the appropriate

of the time supposed to exist in the
College is taken from the account,
of which I annex a copy, furnished by
yourself, and therefore supposed to
be accurate, while Mr Foggo was
still on its establishment. The

~~The Committee~~
Committee however, conceding that
these points were really not understood
by you, and also that you really felt
doubtful whether or not you were
called upon "to draw out a new
course reading in mathematics history
&c" have directed me to inform
you that this is not their wish: but
that you should furnish them with
such a scheme of appropriation of time
to the different subjects of study, included
in the present course, as you after
communication with Professor Sutcliffe

are inclined to recommend, assuming
 that the College contains four mathe-
 matic Clases and either two or three
 literary Clases, as you think best,
 and on the supposition, ^{that} ~~these~~ ^{those} Masters
 (including yourself) teach the whole
 of the English Studies in literature
 and mathematics

3 You will ~~be glad~~ also to
 state your opinion which mathematical
 Clases should have the same literary
 subjects assigned to them; the
 object of the Committee being, in
 conformity to the declared intentions
 of the Council of Education, that the
 students in future should be Clased,
 when the new system is in full
 operation, by the length of time during
 which they have belonged to the Colleges,
 according to the plan adopted in the
 Colleges of the English Universities

Yours &c
