I acknowledge the receipt of your
Your letter of the 9th instant requesting me to state
the cause of Sudbo-asutta Mitter's absence from
the College the last 13 days. and in reply beg to
inform you that he has been suffering from an
attack of Itch for which he procured a certificate
from Comapukhany Chatterjee granting him leave
of absence for a week and sent it to the Lodge
His not being at school after the expiration of the
leave is owing to the death of his brother.

Ans'd Sir,

I have the honour to inform you that I have requested Mr. Chunder Mookerjee a free boy of the 2nd Class both to leave the School Room as he has been very disorderly and impertinent, and to request that you will be pleased to hand his name to the Committee with my earnest solicitation that it be struck off the Rolls. -

In forwarding the enclosed letter from Mr. Twentyman for the consideration of the Committee of Management I beg to recommend that his request may be granted and that Nobin chunder Mookerjea may be dismissed. I have made enquiries into the state of the class to which this boy belongs and find it consists of students three or four years older than their attainments or their position in the School should permit and that many instances

of impertenance and unsubordination
have lately happened amongst them

of the Committee of Management as ex-
pressed in your private communication
to me dated 18th December 1849 I have

regret to state that much of your re-
spondence and deliberations is almost
immediately known and discussed
throughout the College. In this case
I am given to understand the boy and
his guardian have been for some
time about the College talking of
it.

Sir

I beg to forward a letter from
Rec'd 22d Dec'r 39 Girish chunder Dutt to my address dated
the 1st of this month but received by me
on the 7th in which he states that he is
so disgusted with Mr Sutcliffe's con-
duct that he is obliged to leave the
College.- I immediately wrote to him
requesting an explanation but of my
letter he has taken no notice. - He
he never made any complaint while he
in the College and has left it (I am
informed) simply on account of his
failure at the last examination, this
letter is a gratuitous insult and I am
therefore to request the Committee will
record him as dismissed the College

and withholds the usual testimonials
until he has made suitable apology
or proved his accusations.

I am sorry to report that in consequence
of the misconduct of Longueroomer

Extract from the Proceedings of the Council of
Education dated 12th December 1849.

No I Read Letter from the Secretary Hindu College No: 974 dated
Rec'd 15 Dec 1849 3rd December stating that the Managing Committee of the Hindu Coll
107 are unable to furnish any additional information to what is
contained in their Letter No: 729 of 27 November 1849 regard-
ing the Patshala building further than that the conveyances
of the land are in the name of Baboo Prosunno Coomar
Tagore.-

Forwards Extract from the Wills of Jeelanath
Mullick and states that repeated but unsuccessful applications
have been made for the legacy he left to the Hindu College

Ordered; that the whole of the correspondence be submitted
to the Honble Company's attorney for his opinion as to the steps
most advisable to be adopted in the cases referred to.

No II Read Letter from the Under Secretary to the Govern-
ment of Bengal No: 739 dated 4th December stating in reply
to Letter No 1406 dated 27th Ultimo that the Deputy Governor
approves of the Council's appointment of Baboo Bisonath
Sing late of the Normal and Model Schools to the Hindu College
but at the same time with reference to the late addition of a
Teacher to the Establishment of that Institution expresses a
hope that the Council will take an early opportunity of
providing for Bisonath Sing elsewhere and saving his Salary

Ordered; to be communicated to the Hindu College Management
and that Baboo Bisonath Sing be otherwise provided for as
soon as a suitable vacancy occurs.

Read Letter from Capt.n D. Richardson Walk.a Dist.t N.o X
requesting information as to whether the Secretary had laid
before the Council a letter in which a complaint was lodged
against Messrs Sutcliffe and Jones of receiving privately
orders on official matters from the Secretary, kept secret
from himself, and whether he is to be honored with a reply
thereto:-

The Secretary reported to the Council that, a letter
said as Capt.n Richardson referred had been (probably
under a misapprehension) addressed to him but which referring
to matters connected with the Hindu College was submitted to the
management by Babu Rajcomoy Dutt and disposed of by
that body - who did not deem it necessary to refer the matter
to the Council of Education:-

Ordered, that the letter now received from Capt.n Richardson
be also referred to the Hindu College Management for report as
to what had become of the former Communication:-

Sir

As required by the 31st
paragraph of the proceedings of your
Rec'd 10 Jany 1850 Committee on 9th Nov & 14th Dec 1849, I
do hereby have the honor to forward a routine
of the Studies of each class in the three
Departments of the Hindu College from
which may be ascertained the time
each officer is engaged in lecturing
or teaching. I beg leave to protest
against this being taken as a fair
criterion of the labor imposed upon
the teachers in the College Departments
with for instance the Scholarship Examinations
are entirely viva voce, it is necessa-
ry to be continually exercising the
Students in written Examinations
and the time occupied in correcting

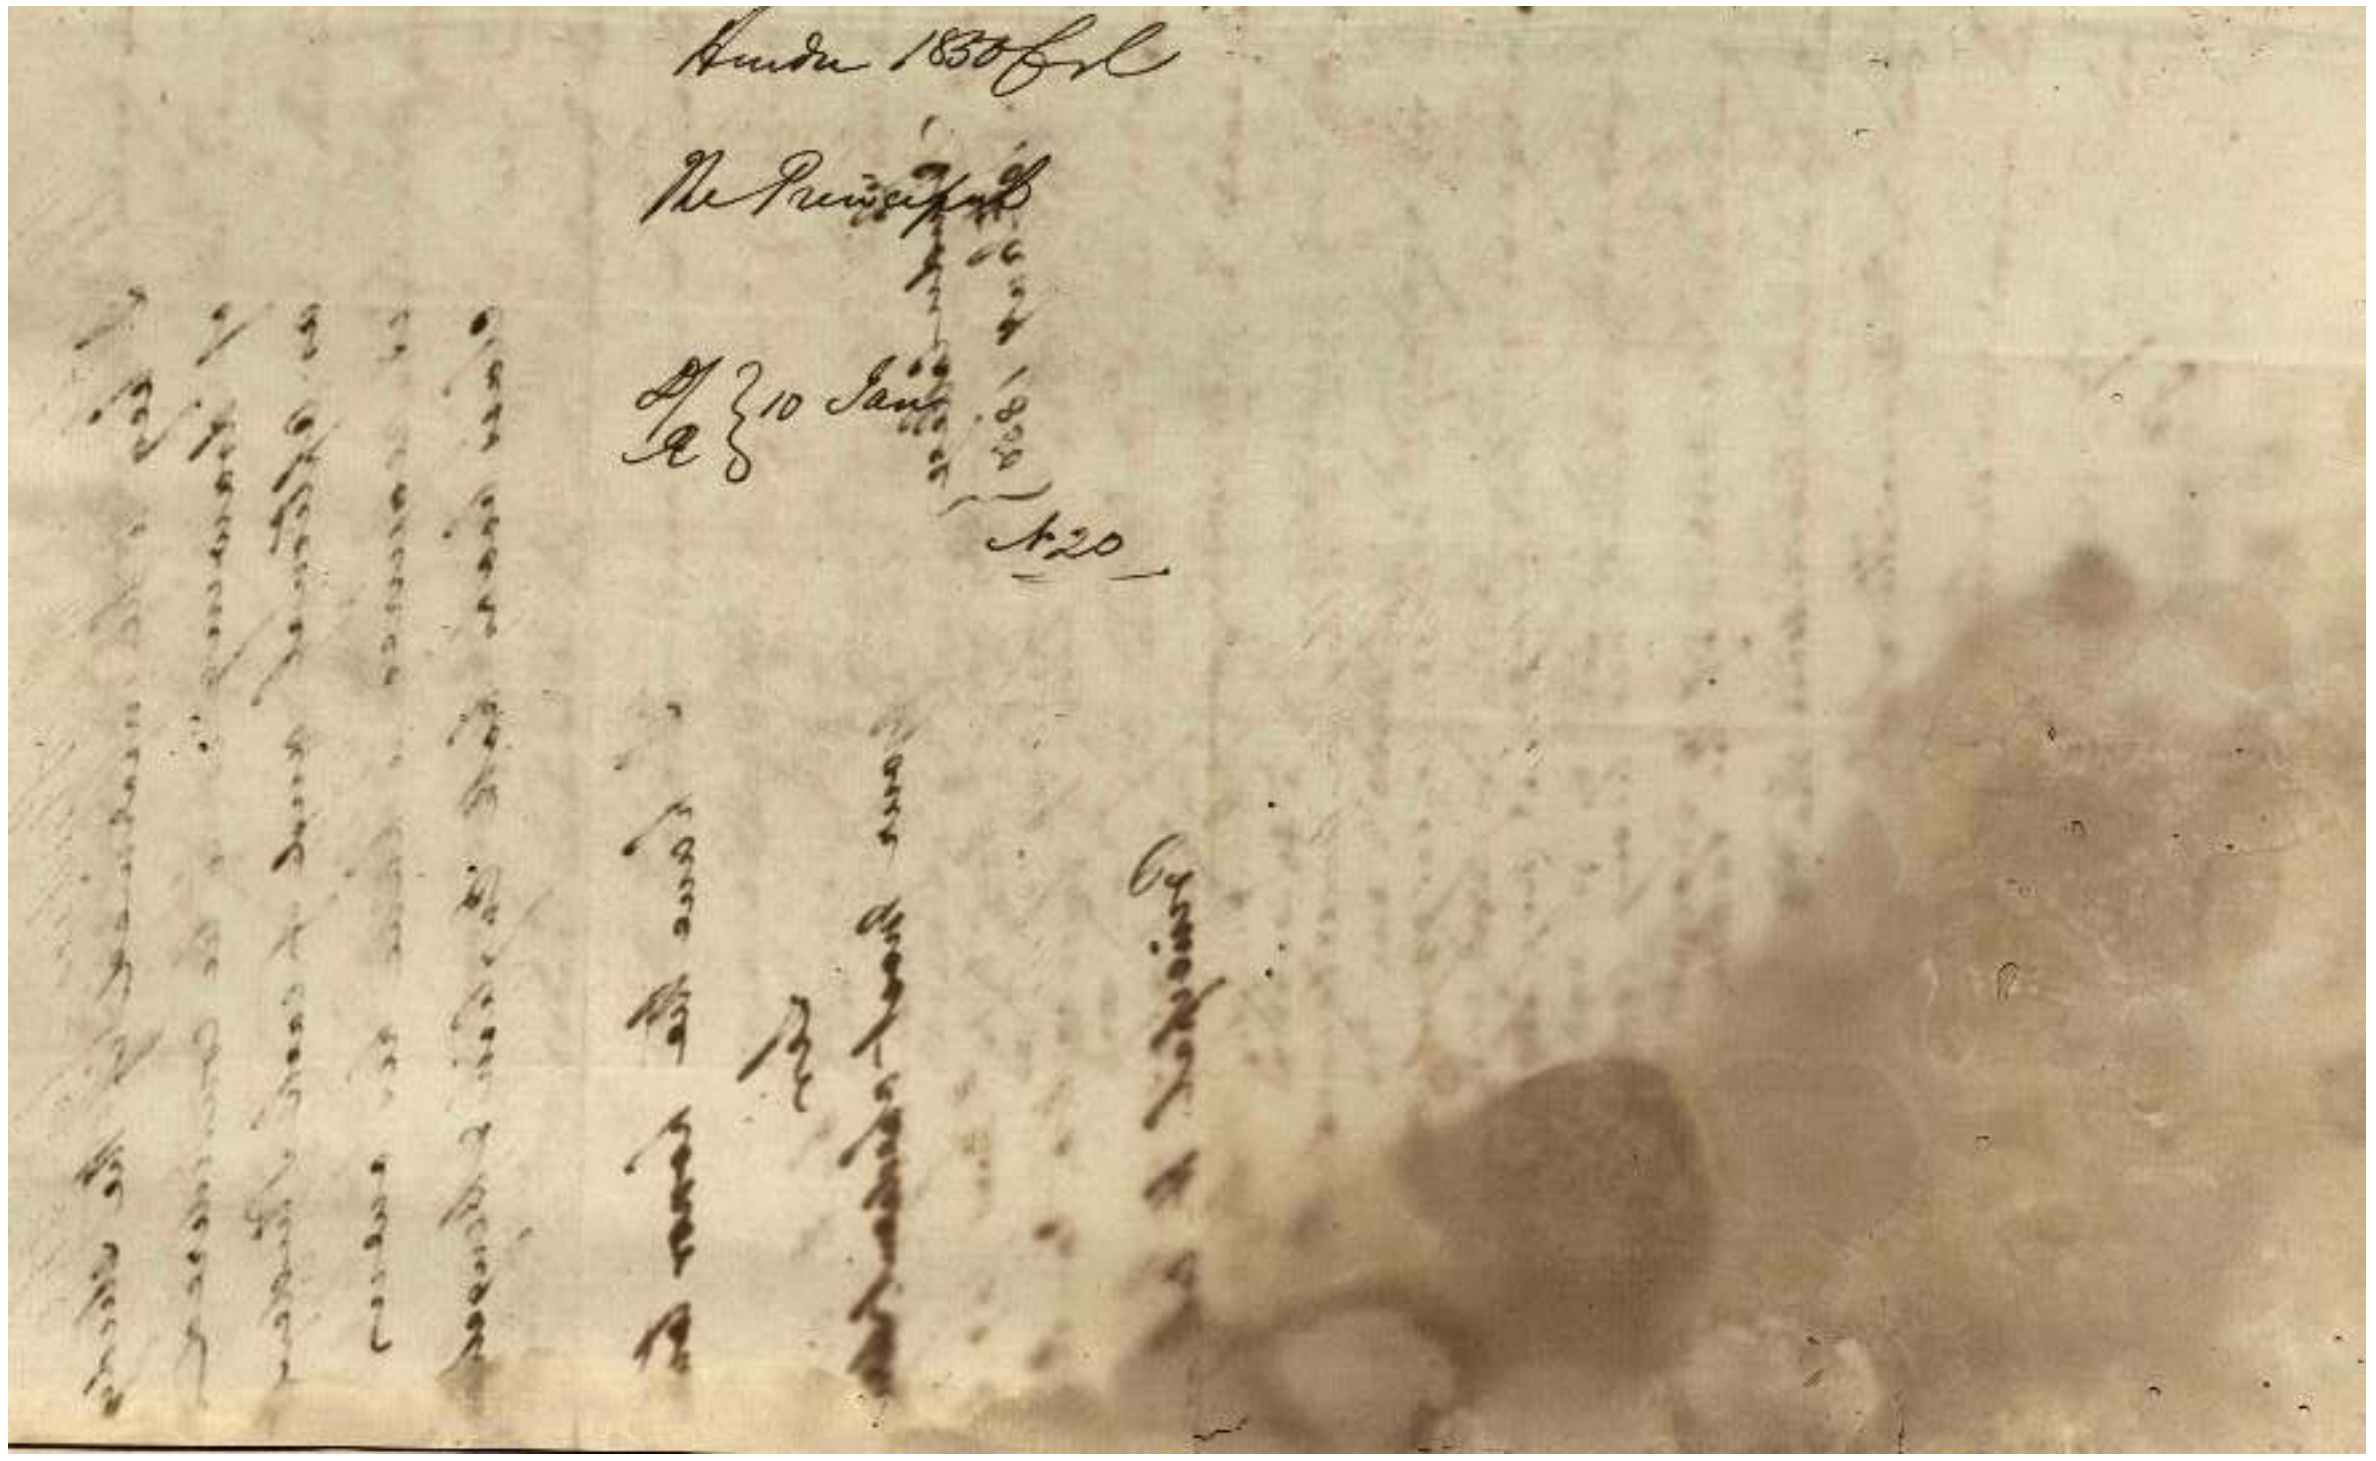

the replies of classes containing 30
or 35 pupils is far greater than the
time occupied in writing them.
I correct three essays about of the first
Class given me six hours a week
extra labor & the other subjects teach
with the other teachers and myself
give additional labor in like propor-
tion. I say nothing of the time
required to prepare the lectures or to
set the questions. I may here men-
tion that the students of the 1st class
call daily are permitted to leave the
College & to have recourse to the library
at one o'clock on Saturdays for the
purpose of writing their essays which
have to be brought on Monday
morning. Any one neglecting
to do so will be deprived of the
privilege and compelled to
write it in the class room. The
same is permitted to the 2nd class
Students on Wednesdays.

I beg to be informed if the study
of drawing is to be considered
as optional and if each Student
is required to have his own
class books both English & Bengallee

Sir

I do myself the honor to state for your information that I have been directed to call your attention to the fact, that various spurious items originally emanating from the Calcutta School Book Society, have been reprinted in the Calcutta Bazar and elsewhere in a manner every way discreditable to the parties concerned.

Rec'd Feb 1850

These reprints some of which even on the face of them exhibit an attempt to imitate the imprimatur of the Society are for the most part replete with typographical and grammatical errors that instead of being calculated to advance the interests of Education they must from their nature even be injurious to its progress.

It has been given to understand that many of the books in question are in use in various Government and other Educational Establishments under the Calcutta School Book Society have recently effected a material reduction in the price

of the books, issuing from their press, & trust you will not deem me impertinate in requesting your interference, with a view to adopt such measures as you may consider expedient to check a system which, if allowed to remain undertaken, must from its working prove as mischievous to the people, as it is unjust to the Society which it defrauds.

I have learnt with deep regret
that your Committee have passed a resolution
warning me against allowing any of their
Proceedings to be promulgated without their
Sanction, in reference to a Report made by
Principal that their deliberations and
Resolutions are made known to the Public
as soon as they are passed.-

It is needless for me to mention
the degree of deference with which I
received this order, but as it in some measure
affects my official integrity - no less my
moral character I consider that in justice
to myself I must offer some explanation
while I express to you my
fervent desire to [illegible] the welfare

publecation from me. these facts on the
Contrary were known at the College long
before I was aware of them. -

Under these circumstances, I

that they will be pleased to reconsider
the order in question, or to institute an
enquiry into the matter, and trace these reports
to their real sources, before any unfavour-

The consciousness of rectitude, through an

From E Lodge Esq.
Principal Hindoo College

To Rupsonay Dutt Esq.
Secy to the Managing Comtte.

Sir

I beg to bring to the notice of your Committee that the practice which prevails in the Hindoo College of purchasing monthly supplies of paper ink, pens, pencils &c is a very expensive one and gives trouble to the officers of the College in examining into the correctness of innumerable small bills. Although my signature may be attached to them I have not time to do more than certify as to having seen them. I have therefore to suggest that a year's supply may be purchased at once. By far the greatest portion of the paper should be of an inferior quality as it is not required for records but is used chiefly for exercises which

Sir

I beg most respectfully to address you with the view to solicit the favour of your exerting your powerful influence, as a Director of the Hindoo College towards the cancelment of a fine, to which the unforeseen occurrence of the meeting of your Council for the current month preceding by a day, the payment of the charge for the tuition of my Son Baidarnauth Day College student 3 Middle class 1 first Division has subjected me, — I beg to offer in extenuation that the indisposition of my Son tended to prevent his attendance at the College on the day it fell due and that he soon as he was able to do so, I send him with the tender of his Schooling charge and presented it at the meeting aforesaid &c. & have been neglected to pay.

I beg to say that I have always been hitherto to punctually to pay the 5 th monthly to meal the charge

charge of the College for my Sons Education
& as such I trust humbly, that you will be
Graciously pleased to take my Case into your
Generous & liberall Consideration & cause the boy
to be admitted Without the payment of the
fine

Sir

I beg leave to inform you that my son Gopaul Chunder Goopta has been readmitted in the Hindu College 2nd Class College Department. I stated in my former letter that he has finished his studies required for the 2nd Class since he was withdrawn from the College towards the ends of July 1849 He was then a Junior Scholarship holder of three years standing. I therefore submit my request to the consideration of the Committee of Management for his admission in the 1st Class College Department.

Boy Dear Sir

On arriving at the College this morning I found Bahoo Cossinath Bose's man waiting to commence upon the repairs with a request from him that I would immediately remove the furniture &c — Of course I refused to comply with his request until I had official notice on the subject, and sent him away —

You ask me what arrangements I propose — now I do not the slightest idea what the contract for repairing the buildings may be - if he is going to repair all parts at once or to do first one portion and then another - if he will be three weeks over the job or if it will take three months — should he employ but few hands (which I have some suspicion will be the case) he will do but one wing of the buildings at a time and two can be occupying the other - This arrangement of yours I can see cannot be established with the least and then if you hire a house to accommodate the boys with Office only & your office should be able to [illegible] without leaving the College at all - A house at 150 rupees a month for three months in the North part of the town and one did for the purpose could easily be found -

If you could let me know this morning the resolution of your Committee I would give our Coolly Havildar Instructions for arrangements

Sir,

I beg most respectfully to bring to your notice, that the individual with whom I resided in this city, having removed to Hoogly, I am great inconvenience in prosecuting my studies in the College, by remaining at Calcutta.

I therefore, request you would be kind enough to transfer my Scholarship to the College of Mohammed Mohsin

Extract from a letter from the Secretary to the Government of India in the Financial Department to the address of the Secretary to the Government of Bombay dated 22d February 1845

"Viewing the matter in this light it will be necessary in conformity with Paragraph 2d of the despatch to include in the Return all Uncovenanted Servants European and East Indian as contradistinguished from Natives of India, and as regards the latter to limit the detail to Sudder Ameens, Moonsiffs, Deputy Collectors and other Officers of superior grade omitting entirely mere subordinate ministerial Officers, such as Treasurers Clerks &c. who exercise no control whatever over the Establishments in which they are employed."

Sir

Agreeably to the enclosed extract of Proceedings from the Council of Education I have the honour to request that you will favour me with the usual Government Certificate.

I beg leave to state that I was a Senior Scholarship holder of one year's standing in the Hindu College and that last year through an oversight of the mathematical examiner Mr. Cargill who me laid my papers in Natural Philosophy the total number of marks I received was 133.32 which obliged me to forfeit my Scholarship.

Mr. Cargill has since found my papers and has sent them to the Council with the number of marks 8 1/2 attached to them which added to my present number in the Report entitles me to retain the

to the Sanscrit Department and

Senior Scholarship I held.

I further beg to represent that I left the College on the month of November that is 1/2 ~~month~~ after I paped my Examination in the Townhall and I beg to ~~the~~ whether I may lay a claim to ~~the~~ Scholarship up to that period.

Please to return the enclosure.

Sir

Rec'd 3d May 1830 I regret having to report to your Committee
that in consequence of continued misconduct
of Juggomohun Dutt and Sreenath Dutt I
have been obliged to refuse them admission into
the College premises pending an answer from
your Committee to this my recommendation
that they be dismissed —

Their immediate teacher has made frequent
complaints to Mr. Jones the Headmaster regard-
-ing their riotous behaviour and their being
constantly exciting the other students to disobe-
dience. The little power which the College
authorities do possess for controlling their pu-
pils has been exercised and only laughed at.

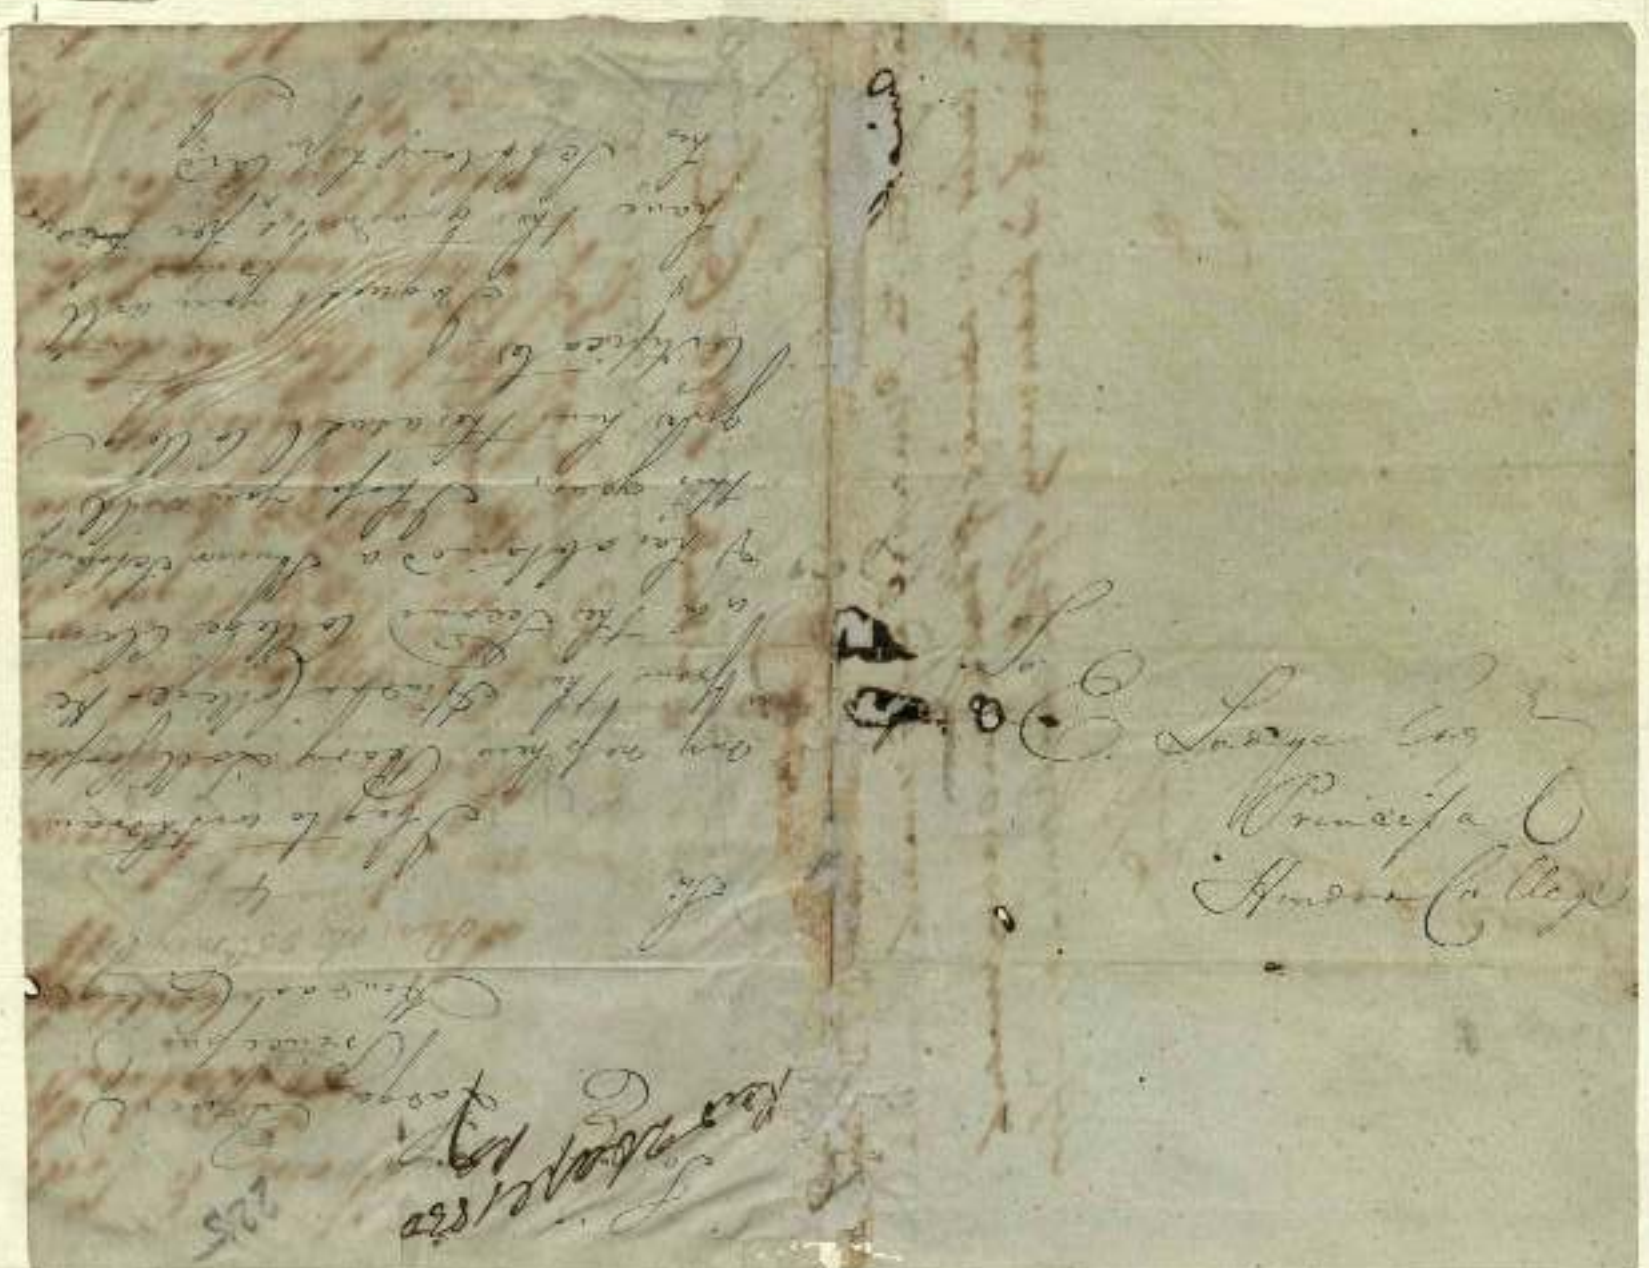

The former of the two above mentioned told
his master who was remonstrating with him
that we could not dismiss him for if we did
he would petition your Committee and he
should be restored — This feeling I am sorry
to state is generally entertained throughout
the College

Rec'd 8 May 1830

With reference to the Proceedings of the Council of Education, dated 30th March last, relative to the transfer of Ramlall Mookerjea a Junior Scholar from the Hindoo to the Hooghly College I have the honor to report that he has presented himself for admission into this College about ten days ago, and was told to join the First Class of the Senior School on the following days on trial, some doubts being entertained as to his qualifications. He has not since made his appearance, and it is supposed that he has returned to the Hindoo College. —

Sir I beg to call the attention of your Committee to my letter to Dr. Hodge

dated by ending the College Servants. The annoyance of which I have complained to you continues - This morning I saw two dirty dressed and apparently intoxicated men on the Library staircase. They could give no account of themselves or state what they wanted - though I ordered them to be put out of the premises. Some time afterwards I found them clothing with three of the Servants in the verandah below and I was obliged to have them put out of the gate myself - Between 12 o'clock & one I was constantly obliged to discontinue lecturing my class from the noise at the entrance - There was a continued dispute between the Servants and the Leaders. I would remove my lecture room to another part of the building was there any other place available and then the Servants would be at liberty to make what noise they liked

I would however remark that even in the Minster College the maintaining of discipline is the most difficult part of the Principals duties simply because he has not sufficient power granted him - a student is ready to his master on the most trifling occasions if you do not furnish me for of you do Scroll Petitions the Committee" and the feeling that his petitions would be attended to and the Principal called upon for a report such an inv

NOTIFICATION.

THE following are the conditions on which out-students will in future be allowed to compete for Senior and Junior Scholarships in the Government Colleges of Bengal:—

1. Each candidate will be required to produce from the Head Master or other competent authority of the school to which he belongs, a certificate in the form annexed.

2. The subjects for the Senior Scholarship examinations of each year are published annually by the Council of Education, and furnished to the proprietors and conductors of private schools.

3. The following is the course of study from which the Junior examination papers will be set:

Literature and Grammar,	Richardson's Selections. Homer's Iliad. Cromble's Etymology and Syntax. Graham's English Composition.
History,	Russell's Modern Europe. Keightley's History of England.
Mathematics and Natural Philosophy,	Peacock's Algebra, (Vol. I.) Playfair's Euclid (Books) VI. and XI. Hind's Plane Trigonometry. Arnott's Elements of Physics. Map Drawing.
Political Economy,	Wayland's.
Vernacular,	(Bengali) Gyananeab and Rammohun Roy's Grammar. (Urdu) Baghobahar and Shenama. (Persian) Tarikhinadiri and Bostan. (Hindu) Marshman's History of India and Pundit Ratnashawar's Journal.

4. Should an out competitor attain the standard required to obtain a Scholarship, he will, in the first instance, be presented with a Free Scholarship, which will entitle him to gratuitous education during that year. At the end of this time he will be allowed to contend for stipendiary Scholarships, on the same terms as other scholarshipholders of his standing, whether senior or junior.

5. The authorities of schools wishing to take advantage of this privilege will communicate the same annually to the Council of Education, and will be held responsible that they send up no pupils who are unable to compete with a fair chance of success.

The privilege of sending up scholars on the terms above mentioned, will be denied to all who do not comply with this regulation, the object of which is to save time and trouble to the examiners.

6. The Scholarships referred to, will be tenable in the Central College of the district in which the school is situated.

7. Certificates should be forwarded to the office of the Council of Education one fortnight before the commencement of the Scholarship examinations of each year.

The humble petition of

Ponghotty in the Burrah pore
Ra

Most respectfully sheweth

That being encouraged by your unlimited kindness towards the poor and more particularly by the greatest interest which your honor takes in the cause of education, your humble petitioner with due deference and utmost submission begs leave to represent his grievances in the confident hope that your honor will kindly afford him relief.

Your honors most petitioner was for some years a student of the Hindu College Branch School wherein he commenced his study. Owing to the poor condition of his parents whose sole means of maintenance is a monthly pension of 20 Rs allowed by Govt to his aged Father your petitioner was obliged to attend the school daily from a distance of 10 miles, and coming he could he was sometimes late — This, coupled with his absences [illegible] his having of late been frequently sick, deprived him [illegible] degraded from the 3d Class Senior Dept to the [illegible] which was highly disspiriting not only to himself but also to his parents who considered the amount expended for his education as almost thrown away. — Seeing moreover that his study with the prospect was not beneficial to him, your petitioner obtained [illegible] entering the Hindu College — on proposal which [illegible] to retain [illegible] reduced condition, but to his utter determination to pursue [illegible] education at any sacrifice. But alas! he has been sadly disappointed as the charge the principal of the College has exacted to his admission on the ground of his degradation in the Normal School. In this perplexity your petitioner looks to nothing but your honors compassion, as the only means of obtaining relief and earnestly hopes, he humbly trusts, he better than correctly and most submissively beg your honor will be gracious

progress he has made rather than to the fact of his having been absent
in the Bauleah school, owing to circumstances over which he had no
control. — If admitted into the College, he will be able to attend it
regularly as through the kindness of a friend, he has engaged to
stay in Calcutta.

In conclusion, your poor petitioner has entertained a
sanguine hope, that your Honor will have the compassion of
granting his humble prayer & thereby rescuing him from the grasp
of perpetual ignorance, to dispute which from Bengal is universally
acknowledged to be one of the greatest objects of your Honors duty in
this country

And your Honors poor petitioner
as in duty bound shall ever pray.

Sir

I have the honor to forward lists of students who have been absent for fourteen and upwards during the last month in accordance with rule 127- I would respectfully request the attention of your Committee to these returns which have been furnished monthly and regarding which no orders have been passed because the attendance at the Hindoo College is not good and the irregularity appears to me to be in consequence of general opinion that parents who pay the schooling fee have attended or not as they like

Dated Fort William the 18th March 1857.

Sir

I am directed by the Council of Education to forward for your information the accompanying Minute by the Honble President of the Council embodying changes in the scheme of Scholarship and Standards of Study in connection with them, which have received the sanction of Government and are to be carried into effect.

Recd 20th March 1857 Rd Dy

The Council will feel obliged by your reporting at your earliest convenience the point to which the proposed changes can be brought into operation at the end of the Current Session viz. in six months from this time.

They also wish to know the exact promotion of every Scholarship Holder and Free Scholar in regard to the Class in which he now is: the time during which he has held a Scholarship; and all other particulars regarding him.

The Council wish for information as to what Free Scholars attached to the Hindu College possess the Standard of Junior Scholarship [illegible]

MINUTE

BY

THE HONORABLE J. E. D. BETHUNE.

The system, which has hitherto prevailed in the Government Colleges, has been arranged so that all the Senior Scholarships are open to competition for all the College students of whatever standing: an inevitable consequence of this plan is that, unless in the case of extraordinary merit, they are always carried off by the oldest students.

Last year, for the first time, a distinction was made in the Mathematical classes, and it was intimated that separate Mathematical papers will be set at the next examination to the first and second classes. It is now proposed to carry this principle further; to subdivide the Mathematical subjects into four classes, and the Literary subjects into two, so minute a subdivision not being deemed necessary in Literature as in Science.

It is the opinion of the Professors of the Hindu and Hooghly Colleges, whom I invited to a conference with me on the changes I wish to introduce, that the students will be found competent to be promoted into the first class of Literature, as soon as they are out of the last class of Science: so that on this supposition the

1st division of Literature will comprise { 1st / 2nd / 3rd } Classes.

2nd division of Literature, ... 4th Class.

According to the scheme hereinafter developed, each student will be allowed regularly to remain two years in each class: if he continues for more than two years in any one class, he will not be allowed to compete for a Scholarship in that or in the next highest class. This restriction is introduced, in order that the competitors in each class may be as nearly as possible of the same standing.

To complete this scheme the Senior Scholarships must be allotted among the several classes, as follows:—

	Hindu.	*Hooghly.*	*Kishnaghur.*	*Dacca.*
To the first class, ...	6	3	3	3
second class, ...	5	3	3	3
third class, ...	5	3	2	2
Senior Scholarships, ...	16	9	8	8

The Junior Scholarships have been hitherto gained by a system of examination exactly the opposite of that followed for the Senior Scholarships. There are three classes in the senior division of the School department: all are examined together; but the examination, instead of being raised to the standard of the oldest pupils, is lowered nearly to the standard of the lowest. The result appears in the great number of those reported to be entitled to Junior Scholarships.

It is proposed that the standard for this examination should be raised, so that those boys only will be qualified to contend for the Junior Scholarships, who are in the first class of the senior division of the School department, and candidates for promotion to the College.

The course of the examinations in the School and College will therefore be as follows:

In the third and second classes of the senior division of the School department no Scholarship can be gained, but merito-

278 B.

B

rious pupils will be rewarded, as now, by prizes of books. After being for a year in the first class, School department, the boys will be examined for promotion to the College. Half the number of marks assigned to the papers will gain a Junior Scholarship, to be held by them for one year in the College. A boy continuing more than one year in the first class of the School will not be competent to contend for a Junior Scholarship, unless in the case of Zillah pupils, hereinafter mentioned.

At the end of one year the junior scholars will be examined in the subjects appointed for the fourth class of the College. Half the number of marks in these subjects will entitle them to hold their Junior Scholarships for another year.

At the end of their second year in the College, they will be again examined in the subjects of the same class; and, if they gain $\frac{3}{4}$ths of the marks of the papers set, will carry up their Junior Scholarships to the third class, to which they are then promoted, to be held there for another year.

At the end of their third year in College they are examined in the third class subjects.

They are not competent now in any case to hold the Junior Scholarships which they brought into the College: these revert to the School department: but they may gain one of the Senior Scholarships allotted to the third College class, in which they now stand, by gaining half the marks of their now subjects of examination.

Similarly, at the end of their fourth year, they may carry these Senior Scholarships into the next class, by gaining $\frac{3}{4}$ths of the marks. Then they must drop them, and contend for one of the Scholarships of the second class; and so finally in the first class.

Although I have spoken of the competition of scholars only, to avoid confusion, yet it must be understood that, at each examination, so many of the whole class as are considered competent by the Principal are competitors for the Scholarships belonging to that class; with this distinction, that those of only

one year's standing in the class require only half the number of marks to gain them, while those of two years' standing in the class, whether scholars or not, require $\frac{2}{3}$rds to carry the Scholarship into the next class.

In order to decide comparative merit between the students of the two years, it will be necessary to compare the standard numbers of each. Whatever be the whole number of marks, $\frac{1}{2}$ in the pupil of one year in the class is deemed to shew as much merit as $\frac{2}{3}$rds in the pupil of two years: or, in other words, 3 marks gained by the former are deemed equivalent to 4 gained by the latter.

The number of marks gained by the two year students must therefore be diminished by $\frac{1}{4}$th, and the numbers may then be compared throughout the class.

It may deserve consideration also whether it is not advisable to fix a proportion of marks, say $\frac{1}{3}$th, necessary to qualify for promotion from one class to another; giving the Professors the power of granting certificates for promotion to those whom they believe competent, who are absent by sickness from the examination.

This scheme meets with the unanimous approval of the gentlemen whom I consulted: but it was suggested that the consequence of raising the standard of examination for the Junior Scholarships would be that the pupils of the Zillah Schools would be unable to gain them; or, gaining them, would be unable to retain them in the College. It is proposed to meet this difficulty, by taking a lower proportion than $\frac{1}{2}$ for the Zillah Schools, and promoting the pupils from those schools, not to the College, but to the first class of the School department, where they should remain for one year, and then pass on regularly to the College, on the same footing as the other pupils of the first class of the Collegiate School.

In connexion with the proposed changes, which I think likely to diffuse a spirit of emulation through the whole Institution,

I propose to introduce a distinction, between those pupils who go through the whole course of study adopted in the Colleges, and those who leave before the final examination.

To the latter I would continue to give a certificate, in the form now used, specifying the number of years they had studied at the College.

To the former I would give a special one, more highly ornamented, with the title of Graduate of the Hindu (or Hooghly, Dacca or Kishnaghur) College.

These graduates should be divided into two classes; those who qualify to be on the Council's list, and those who do not.

I would issue similar certificates to all who have passed the College with credit since Lord Hardinge's Resolution, and make out a further list of honorary graduates, containing the names of such of the old pupils of the Colleges as appear to the Council to deserve this distinction.

I am satisfied that the adoption of this plan will completely cure the evil which was lately brought to my notice in the Hindu College Committee, that students often become careless during the last year of their intended stay, and avoid the *final* examination by leaving the College just before it.

I now proceed to specify the subjects which, in consultation with the gentlemen I have mentioned, I wish to suggest for the Standard of 1849-50.

1st Class.

Literature—	
Prose.....	Bacon's Essays.
	Campbell's Rhetoric, Ist and IInd. Books.
History.....	Elphinstone's India, Vol. I. (except Chap. IV. Book I. and Chap. IV., V. Book II.)
	Arnold's Rome, Vol. I.
Poetry.	Shakespeare's Coriolanus.
Mathematics.	Differential and Integral Calculus.
	Optics (as in Potter.)
	Astronomy (as in Brinkley.)

2ND CLASS.

Literature.... Same as 1st class.

Mathematics. Mechanics, as far as motion in one plane.
Analytical Geometry.
Newton's Principia (as in Goodwyn or Evans.)
Doctrine of Limits, and Elements of Differential Calculus.

3RD CLASS.

Literature.... Same as 1st class.

Mathematics. Conic Sections (as in Goodwyn.)
Theory of Algebraical Equations.
Mechanics (as in Potter or Snowball.)
Elements of Hydrostatics (as much as is in the first six, and ninth Chapter of Webster's, with the Theory of the Barometer.)

4TH CLASS.

Literature—

Prose..... Addison's Essays, to the beginning of the criticisms on Paradise Lost.

History..... Hume's England, from the Battle of Hastings to the accession of Richard II.

Poetry..... Shakespeare's King John.
Johnson's Vanity of Human Wishes.

Mathematics. Euclid, Algebra, Plane Trigonometry.

This scheme of study was settled at the same meeting, assisted by suggestions from the Dacca and Kishnaghur Colleges: the only change which I have since introduced is the substitution of Astronomy, for a more developed course of the Differential and Integral Calculus; which, although I know this to be contrary to the opinion of some of the Professors, appears to me an improvement.

In addition to the reasons which have led to the introduction of Astronomy into an English course of Mathematical study, there is in Bengal a special reason for not neglecting it,

278 D

D

in the fact that this is the part of science on which the indigenous schools most prided themselves, and they would naturally look with contempt on one, professing to have received a Mathematical education, who is wholly ignorant of the subject.

I propose further an alteration in the system of marks allowed for each kind of study. At present, Mathematics are neglected, because of the small number of marks that can be gained, even by the greatest proficiency in them. As we shall have established a regular course by the proposed changes, I think the best arrangement will be to let the whole number of marks be 500, of which

100	should be allotted to Pure Mathematics.
100	..... Mixed Mathematics.
70	..... Literature Proper.
70	..... History.
60	..... Mental and Moral Philosophy and *Political* Economy.
50	..... English Essay.
50	..... Bengali Essay.

To, Baboo Rajcomoy Dutt

Secretary Hindu College

Sir,

I have to apologize for not answering your letter No 1032 dated 22d March last before this, but it arrived at a time when I was much occupied with the examination of the School Department and for sometime afterwards it escaped my memory.

You request me to give my opinion upon a new Scheme of Scholarship and Standard of Study but as it is stated in the letter from the Secretary to the Council of Education to your address that the Scheme has received the sanction of Government and is to be carried into effect a few remarks may suffice -

1st As to the extent to which the proposed changes can be brought into operation at the end of the Current Session. I have to state that at the Hindu College we shall be prepared to undertake the whole of them.

2d As to what will be the effect on the Zillah Schools if the Standard of the Junior Scholarships be raised I cannot give an opinion with any degree of confidence because I do not perceive in the records that Students from Zillah Schools will be permitted to remain in the College for three years before they will be [illegible] to pass an examination in the Subjects prescribed for the 6th Class the Standard cannot be much raised if a fair progress is expected from them during their three years and therefore I do not think the Zillah Schools will be

be much affected by the proposed changes

3. As to my opinion on the scheme generally I must speak with great diffidence seeing it has met with the unanimous approval of all the gentlemen whom the President of the Council of Education consulted and has received the sanction of the Government but I think it is not a practical one. Upon the mathematical arrangement is not good. It says in speaking of the 3 Classes in the Senior School Department and of the Junior Scholarship examination, that hitherto the Rule has been to lower the standard to the lowest pupil instead of raising it to the highest. I doubt but on enquiry I think it will be found that such is not exactly the case. For this time the students of the 2d and 3d Classes have never included the whole of the Junior Scholarship standard (the first class alone contains the whole) but in them as well as in every other Class of the College there are at the end of the academic year three or four students far in advance of the studies of the Class and of their Class fellows. These are not promoted into the Class above but almost invariably leaps over it into the Class beyond and in many instances they leap over two Classes and hence it is that many from the second and several from the third are quite capable of competing for Junior Scholarships with those in the first. In fact the progress of a Class of 35 or 40 students during the year is not sufficient to give occupation to the best of them who consequently are engaged in private reading. I should not therefore like to see the standard raised because a student in the third class occasionally beats one in the first and thereby it should not be raised for this

Reason

that few attain Junior Scholarships before they are
fifteen years of age and it is not probable that
after that they will follow out an eight years
course (even if they had the ability which the majority
will not have) to obtain the graduate Certificate they
will drop off annually at different stages just
before the examinations as they do at present.

The course of study after a student enters
the College Department extends over too long a
period and embraces too much mathematics -
It will not be to a students interest to remain
one year only in a Class or to make rapid progress
The Scholarships allotted to the first Class (of
are more than I think there will ever be Scholars
to fill them.

The arrangement of the mathematical
course is in my opinion very objectionable and is
very different to the plan pursued at Cambridge
The final examination ought to embrace the
whole range of subjects from Arithmetic upwards
when a knowledge of principles will have a better
Chance against memorizing instead of including not
two or three subjects A student does not thoroughly
understand a mathematical subject by going
over it so carefully once or twice through the book
but it is when a year or two afterwards he takes
to review it and after he has read higher subjects
that he clearly perceives the train of reasoning and
that a permanent impression is made in his mind
By this arrangement a student will pass an
examination in the Calculus of Poles and Astronomy
Whilst at Mechanics, Hydrostatics Conic Sections
Newton Trigonometry &c he remembers nothing
but a few of the formulæ - at the last examin-
nation of School masters &c of the Junior Scholar-
ships holders now in the 4th Class of the Normal Sch

the lower situations in the Branch School when the
day of examination arrived he came to me and asked
if I intended to examine him in low subjects. I
said yes certainly in arithmatic and such Branches
as you would have to teach in case you got the
situation, then sir I must withdraw because it
is so long since I read the Junior subjects that
I must have six months for preparation. How a
system of Education which would send out into
the world a first Class student who at the
time of his leaving the College had forgotten
so much of what he had learned there cannot
be a sound one: what permanent impression
can have been made on his mind, and what
amount of knowledge will he retain through
life? For further observations on this point I
would refer your Committee to the second part of
Whewell's remarks on Cambridge studies and on
the Changes that have taken place there during
the last few years.

Mr. Fogo has observed to me that there
should be a problem paper in Literature as well
as in mathematics and I am of the same
opinion.

I quite agree with the Principal of the Normal College that Branch Schools
the teachers of Students should be required to show that he has not

Sir,

Being informed that the Librarianship of the Hindu College is at present vacant I beg respectfully to offer myself a Candidate for the situation.—

With regard to my qualifications I beg to state that I am an ex-student of the Hindu College and that I have been successful in obtaining the first place of the 2nd. Grade in the Councils List forwarded to Government for the year 1847/48.—

A reference to the records of the College will also enable you to ascertain my claims.—

Trusting you will be good enough to excuse me for intruding on your valuable time.—

Sir,

I beg with due respect to bring to your notice that I served in the Hindoo College Branch School, for a period of more than 6 years, in the capacity of an Assistant Teacher, and discharged my duties with every possible satisfaction to my Superiors. I regret to say I was called on to pass an examination before the Board of Examiners for employment for Teacherships, but from the circumstance of my having failed to attain the Grade required, my services were dispensed with. I am at present without any employment.

I am given to understand that the Teachership of the Hindoo College become vacant by the resignation of the late incumbent. I beg humbly to offer myself a Candidate for the same.

Sir,

Being given to understand that the situation of a Librarian to the Hindu College Library is vacant, I beg to apply for it, and hope to succeed through your kind patronage. — I have been serving as an English Teacher in the Hindu college Branch School for more or less than 13 years, during which time I have conscientiously discharged my duties to the satisfaction of my Employers. This is the only recommendation which entitles me to your kind consideration in increasing my salary as I have a numerous family to support. But as the fund of the School does not allow the Committee to do it, I have availed of this opportunity to apply for the vacancy and ardently hope that will be graciously pleased to take my case into your kind consideration. —

As to my character and qualification

I beg to refer you to Messrs Twentyman of the

I beg to forward for transmission to the Managing Committee a list of Philosophical Instruments which would make an useful addition to the present stock -

I should have much pleasure in complying with the expectations of the Board. But as I did not already possess a Thermometer which - when compared - fulfilled what I now propose will be quite as Efficient as one purchased at a cost of 120 Rs -

The Thermometers & Barometers I would place in the Library and confine the use of the 1st Class as daily Registers. It would be necessary that the Instruments & Furniture should be complete & should be sent home. I will undertake to arrange this part of the business of the

Sir,

Allow me to state that from my youth I have devoted the greatest portion of my time to promote the interest of almost all the Institutions established here for the benefit and amelioration of my Countrymen; but being now grown old and unable to attend at the Meetings or to take an active part in the business there, I am obliged to dissolve my connection with those Institutions. It is therefore, with no inconsiderable regret, that I am now constrained to tender my resignation of the Managership of the Hindu College. Wishing from my inmost heart success to it and bidding adieu to my worthy Colleagues, I conclude,

Sir,

Dear Sir

I have recommended the youth who comes with your note - Nyles Chandler Shaw - and perhaps he may be able to proceed with the students of the first class of the Junior School Sept:- were he not so old. I should place him in the class below - I fancy he will not be willing to be placed so low down in the School and I have not the slightest objection to place him in any class the Council may order

Yours faithfully

Rec'd 12 Jan 1850

We the undersigned Pundits belonging to the Hindu College beg hereby most humbly and respectfully to bring to your notice,— That after studying regularly for a long period in the Sanscrit College &c, and obtaining Certificates of qualification and character, we entered service as Pundits Hindu College, on the receipt of very low and scanty pittances.— That the character of the Institution where we were employed, the most respectable and eminent of all the Colleges in India, led us at that time to entertain the most flattering & certain hopes of a speedy promotion.— That we have the mortification to find that we were deluded.— That many, many years have elapsed since we joined our appointments, without our expectations being in the least fulfilled.— That could any person form an idea of the toil and trouble which we undergo, we are persuaded, he would be of opinion that they deserve better remuneration.— That each of us, Sir, (this are say in the fulness of sorrow) has charge of 2/3 classes and that obliged as we are in consequence to be at our for the whole day, in order to teach and to task in order 100/120 pupils, our fatigue is great & borders on the intolerable.— That to crown all, the sum which we receive as the reward of all our aforesaid toil and trouble, are scarcely sufficient to provide ourselves and families with the bare necessaries of life — a circumstance which does what it cannot fail to do, keep us ever in busy anxiety and solicitude.— That it is a subject of great regret & mortification to us, that whereas in all other Government Colleges & Schools, the Honble

the Krishennuggur, the Dacca, the Calcutta Mad
rissa, the Ramcanjeela &c &c), the Pundit-
are very handsome-
ly paid, being on the receipt of 40/60 Rupees, as
Pundits in the most eminent Institution under
the Control of the Council of Education, should be
the unhappy victims of neglect & indifference,
as though Rank were intended to requite the more
serious disadvantage of scantiness of pay.—
What, to be short & direct, it is our humble pray-
er that the case which we have laid before
You may be taken up into your Kind consider-
ation, and that we may hereafter be ena-
bled to live more comfortably, & work more cheer-

To, The Honble L. H. D. Bethune

Honble Sir,

Permit me to place most respectfully before you a few remarks in a private form on the present system which obtains in the Hindu College of granting leave to Professors and Masters.

Rule 44 of the College Code gives the Principal authority to grant to any one individual leave of absence for one entire month in the year, on private affairs without deduction of salary, but he is not at liberty to grant leave even for a day in Cases of sickness without subjecting the absentee to loss of half his pay.* In other words, he has the power of converting a favour to a necessity, for less urgent in a general view, than that to which it is denied.

Assuming the general

---

* "To grant in conformity with the rules [and the special reference to the table of the instructions] leave to the circumstances leave of absence on private affairs without deduction of salary, for any periods not greater in the aggregate than one Month in the year to any individual."

† "To grant in conformity with the rules" [Clause 4. "The rules for ascertaining the Officers which shall entitle them to half pay"] "leave of absence on sick certificate to Members Students and Servants of the institution on salaries not greater than one month in the year."

~~extraordinary~~ proposition that leave of
absence on any pretence to any employee is an
indulgence granted in consideration of the various
casualties to which human life is subject it may be
inferred that the greater the need the stronger the
ground for that indulgence. Accordingly as
prostration of the body by sickness is furthest from
human Control the need of indulgence is greater in
such cases than in any other that could be cited
But the aboveate rules of the Heads in College can
scarcely be said to recognize the above principle
As a proof, a teacher may obtain a day's leave
with his full allowance to remove his things
into new lodgings ~~in~~ which he may have engag
but if on the same day his absence be caused by
a prostrating attack of fever he suffers the addi
tional misfortune of losing half his pay. This
made to feel that the penalty of absence from duty
is directly proportioned to the pardonable nature
of its cause.

It is also worthy of remark that
while the evidence of a Medical officer as to the
absolute inability to perform his duties is not
sufficient to ~~entitle~~ him from deduction of pay
his own ~~sole~~ test as to the urgency of his private
affairs is taken for that purpose. But this
~~satisfies~~ a consideration to evade loss of
allowances by applying for leave on private
affairs ~~when~~ in case of illness. How absurd
that may be some who see no moral obje
in such an act yet I believe that the Commit
are

Solely to hold that so long as the rule preserve
a clear distinction between leave on private
affairs & leave on account of illness that distinction
should be fully respected in all applications
for the indulgence.

You will perceive, Hon'ble Sir, that
my remarks are strictly confined to the extent of
leave which the Principal is empowered to
grant us, viz.t one month in the year with
deduction of half pay on Medical certificate
& one month on private affairs without any
deduction at all — As regards longer periods
resting with higher authority I have no complaint
to prefer indeed the absentee rules tacitly upholds
the principle I have touched upon of reckoning
the necessity of leave on private affairs subordinate
to the necessity of it on Medical Certificate for
while six months is the utmost extent to
which the uncovenanted servants of Govt. are
privileged to ask leave on the former account they may
claim a whole year on the latter I respect to application
tion after the third year.

I am &c &c &c

Hon'ble Sir Your most obedient servant

[illegible] extension of the privilege
which the Principal has authority to grant
of three without deduction of allowances but I
merely pray for permission to avail myself of
that privilege either on private affairs or in case
of sickness as circumstances may require. — While
a man [illegible] absent from his post for a limited
and sanctioned period I cannot make any

difference to his duties of his business be employed
in going through a Course of Medical remedies
instead of a Course of private business.

Therefore I humbly and most
respectfully submit that the interests of the
public service in the Hindu College do not
require the continuance of the anomaly
which I have ventured to bring to your notice -

I have &c

My dear Sir Percy

I was at the Strinden up to the 27th ult. inclusive. There must be some mistake in the report: I was unwell and absent with leave from the Principal for some days in the month (how many I cannot exactly say), as I was in another part of the Country at the beginning

of the year when no deduction
was made.

My dear Sir

In this returns I directed the cadets to put down the 15 days opposite to Mr Foggs name in the column "without leave" because I had ceased to attend the College and had received no information on the matter. He was for some days sick & unable to come to the College and for those days I should certainly give him leave of absence without deduction of salary. The last day he was here was the 26th

Sir

I am answer to your letter (No 1104) dated 12th Instant requesting me to give your Committee some further information upon the Attendance of Mr. Foggo than was contained in my "Demi official note of the 8th Instant" I beg to state that the note in question was never written as a Demi official communication, it was sent in reply to a private letter from yourself and expressed my private opinion for your individual information.

Recd 15th July 1830

A reference to the book for the attendance of Professors which is required by your Committee to be kept and laid before them each month will shew that Mr. Foggo was absent 18 days during June and October of these days I Rec'd from private sources he was ill and Mr. Sutcliffe and myself divided his duties between us. About the 26th of the month, after which date he was absent for three more days, he sent me

me a note saying I should not see him
again at the College as he was to
proceed forthwith to Manca.

In the 2nd para: of your
letter, "The Committee observe there
appear to be three erasures in the
account of Mr Foggo's attendance &c
I have no remembrance of three, but
as I distinctly remember two, the
third I suspect must have been m.
after the paper passed from my ha
The first was because the clerk
had put figures in the wrong colum
and the second because he had made
a mistake in counting the numb=
ber of days Mr Foggo was absent.

HARINATH DE TO MANMOHAN GHOSH

A copy of the first edition of Harinath De's famous Lecture Notes (which contain parallel passages in ten different languages, classical and modern) on Palgrave's "Golden Treasury", Bk. IV, presented by the author to his colleague, Manmohan Ghosh. The signed presentation on the title-page, in Harinath De's own handwriting, is followed (appropriately for a presentation from one classical scholar to another) by a Latin quotation from Catullus (on the inner title-page). Found among Manmohan Ghosh's books.

Dated Fort William 17th August 1837

Sir

I have the honor by direction of the Council of Education to forward a Petition for Report by the Management of the Hindu College the accompanying petition of certain Inhabitants of Salgoria in Zilla 24 Pergunnahs praying that the Council will be pleased for the reasons stated to modify an Order of boys coming from the Village where there are no Government Schools, the rules of the Hindu College for the admission of Candidates to that Institution

To

The Members of the Council of Education

The Humble Petition of Radhanath Chowdry and others the Inhabitants of Calcutta in the Zillah Burasat

Most respectfully Sheweth -

That it is a well known fact that since the establishment of the Hindoo College in Calcutta all Classes of Hindoo youths have been admitted to pursue their course of English Education and have continued to receive the benefits of such tuition - But certain new rules respecting the age of admission which seem to your Petitioners detrimental to the public good especially the Resolution providing that the Boys from the age of 5 to 16 be admissible with proper qualifications as will appear by reference to the Resolutions hereto annexed. The Precedent youths in Calcutta may be capable of undergoing the necessary tests but many lads living in the Suburbs will be found incapable of passing the ordeal and your Petitioners beg to submit the following remarks on this subject to your consideration.

1st Young boys cannot possibly live by themselves without their parents being with them and you will easily perceive what difficulty inconvenience and trouble the parents would experience in order to remove this obstacle they were to come to reside in the Capital leaving their friends, relatives and home -

2d That your Petitioners well known

known what additional expenses they will have to incur should they adopt such an arrangement, for it requires little experience to enable any one to estimate the difference of the cost of living in a village and that of residing in a City like Calcutta where every article of consumption is extravagantly dear.

3. That your Petitioners though respectable Hindoos and extremely desirous that their Children should acquire a Knowledge of the language of their Rulers are not possessed of means adequate to the scale of living in Calcutta. Yet they cannot do so, and yet otherwise cannot send their Children to the Hindu College while the present rules are enforced, unless means of qualifying them in the Villages are not supplied.

4. That your Petitioners deplore the non-existence of any English Seminaries or preparatory Schools to enable the Lads to pass through the examination prescribed in the resolution in question, and be admitted into the Hindu College so are there in the Village of your Petitioners any Natives professing sufficient knowledge of English to make them competent to afford proper instruction in that language.

5. That the want of sufficient means may debilitate your Petitioners to call for the aid of persons sufficiently skilled in the English language to prepare the youths for admission into the College.

Your Petitioners therefore humbly beseech very earnestly that your Council will be pleased so to modify the present resolutions as to enable the Children in the Villages of your Petitioners as well as the youths of other Villages similarly circumstanced to receive their benefits of College education on their obtaining a small number of marks than those fixed for the boys of the Government Schools in the Mofussil. This difference in favor of the Village boys, your Petitioners beg leave to observe is in principle

principles not without precedent in as much as the age of puberty is limited in Calcutta to 16 and in this country to 18 years.

That in conclusion your Petitioners hope to be excused for intruding on your valuable time and patience, but they trust that your Board will perceive the importance of the object they have in view and appreciate the feelings which have dictated this appeal. And your Petitioners humbly [illegible] this appeal. And your Petitioners humbly liberality and through the medium of your Honorable Body, grant this prayer of the native Inhabitants of the Village above referred to

Your Petitioners as in duty bound shall ever pray.

History.—Hume's England, from the battle of Hastings to the accession of Richard II.
Poetry.—Shakespeare's King John.
Johnson's Vanity of Human Wishes.

Mathematics.

Euclid, Algebra, Plane Trigonometry.

IV. The senior and junior scholarship answers will be examined by the gentlemen who set the questions.

The Arabic scholarship answers will be examined by the principal of the Calcutta Madrissa.

All reports of the results of the examinations are to be furnished before the end of the long vacation.

The examination in the Town Hall will be superintended by the Council of Education. The Secretary to the Council will daily give out the questions, and collect the answers, assisted by the other Member of the Council of Education on duty.

V. The following "rules for the examination of candidates for insertion in the list directed to be annually furnished to Government, by the notification of the Governor General, dated 10th October, 1844," are republished for general information:—

1. No one shall be allowed to become a candidate for insertion in the annual returns, who is less than 18 or more than 23 years of age and who is not at the time a student either of a Government College or of a private Institution recognized by the Council of Education. All competitors must likewise produce satisfactory proofs of good moral character.

2. Every candidate, whether he belong to a Government College or a private Institution, shall be required to undergo the usual annual examination for senior English scholarships,

a Latin being substituted for a Vernacular essay, at the option of each candidate.

3. There shall be two classes of merit: the first shall comprehend all who are in last year of a senior scholarship, or who, though not actually in the last year, would be so, if there had been a vacant scholarship at the time when they first became eligible for one; or have been engaged for ten years in the study of English at a private Institution, and who obtain at least three-fourths of the number of marks allowed in each subject. The second class shall include all other candidates, who obtain at least half of the number of marks allowed for complete answers in each subject contained in the senior English scholarship standard.

4. The place of each successful competitor in his class shall be determined by the relative merit of his examination.

5. Every candidate for insertion in the Council's list shall pay a registration fee of Co.'s Rs. 5, prior to being allowed to compete at the examination.

6. A student who shall fail to prove himself qualified for insertion in the Council's list, shall not be permitted to present himself for examination more than three times, pre-paying on each occasion the usual registration fee.

7. A candidate whose name shall once have appeared in the return, shall not be allowed to compete again with a view to obtain a higher class.

8. All candidates, whether from Government or private Institutions, must distinctly understand, that insertion in the returns will by no means be a sure passport to employment, since the preference must depend upon other qualifications, as well as upon literary and scientific acquirements and good moral conduct.

9. The following is the system of examination adopted, and the standard of the senior English scholarships referred to in rule 2.

Sets of questions in the various branches of study will be prepared under the directions of the Council of Education, who will likewise fix, within a reasonable time beforehand, the days on which the examinations shall be held.

The students shall be assembled in a room without books, papers, or references of any kind. They shall not be allowed to communicate with each other during the examination, and

410 C

C

on that account shall be placed at a proper distance from each other.

They will be required to answer the questions and to write the Essays without any assistance whatever, and to ensure this, one of the Members of the Council of Education will remain in the room and superintend the whole examination.

Any attempt at, or practice of, unfair means, shall subject the offender to exclusion from the examination, as well as from the returns of the Council, and will be deemed to render him ineligible for Government employment.

The Council of Education will fix an uniform standard of value for each question according to its importance; a perfectly correct and complete answer will obtain the full number of marks attached to the question, an imperfect answer will obtain a part only of the full number, in proportion to its approximation to correctness and completeness. At least 50 per cent. of the aggregate number of marks attached to an entire set of examination questions, will be necessary to entitle a student to a senior scholarship.

The following are the qualifications for the senior English scholarship:

English Essay. The candidate must compose a fair English Essay.

History. He must know the leading facts of Universal History, with special reference to the History of Greece, Rome, India, England, and Modern Europe. The course of History which will form the subject of each annual examination, will be made known by the Council of Education, at least a year before the examination takes place.

General Literature. He must be able to explain passages of prose and verse, selected from standard authors. Hereafter the works from which the passages will be selected for the ensuing year, will be fixed by the Council of Education, at least one year before each annual scholarship examination.

Mathematics. He must have a knowledge of Algebra as treated of in Peacock's work on the subject, and in the chapter on Chances in Wood's Algebra. Of Euclid he must know the first four books, the fifth definition of the 5th book, the 6th book, and 21 propositions of the 11th

book: Plane and Spherical Trigonometry, (Hind's, Snowball's or Woodhouse's) and Conic Sections.

He must have a knowledge of Astronomy, Mechanics, Hydrostatics, Pneumatics and Optics, as treated of in the works noted in margin, sufficient to enable him to comprehend Herschell's Introductory Discourse on the Study of Natural Philosophy, and Mrs. Somerville's Connection of the Physical Sciences. He must also be acquainted with Mathematical and Physical Geography, as treated of in the publications of the Society for the Diffusion of Useful Knowledge.

Natural Philosophy.

Brinkley's Astronomy, or the Astronomy in the Natural Philosophy of the S. D. U. K., Whewell's Mechanics, Webster's Hydrostatics and Pneumatics and Phelp's Optics, with Pneumatics of the S. D. U. K.

Vernacular Essay. He must write a fair Essay in the Vernacular language.

VI. The scholarship questions, with the most distinguished answers in English Literature, History, and the best Essays, will be published for general information and distribution, as soon as practicable after the receipt of the reports.

Very distinguished answers from out-candidates will also be published.

With a view to facilitate the classification and examination of answers in each subject, all candidates are directed to write their answers on one side of the paper only, and to answer no more than one question on any piece of paper.

Performances not executed in conformity with the above rule will not be examined.

(By order of the Hon'ble the President and Council of Education,)

Sir.

I beg you will do me the favour to submit this my application to the Committee of Management of the Hindoo College that in the event of an arrangement being made whereby the College to carry on the duties of the Foggo by a division of them among the Professors and Masters, they will do me the kindness to take into consideration my claims to the increase of Salary.

Rec'd 25th July 1850

My services in the Education Department extending over a period of 20 years as I believe, well known to the Committee, and it will therefore be superfluous for me to mention them at present. But what I would most respectfully beg of you to represent is that the Salary which I am now allowed is not proportionate to the length of time during which I have been engaged in their service and to the comfortable satisfaction I have afforded to my Superiors as the Annual Reports of the Institution will amply testify; and as promotion is not frequently [illegible] it is possible for them to put me to [illegible] I venture to trespass upon them in case such [illegible] that they may not overlook [illegible]

Sec. to the Committee of management

Hindu College

Sir

I beg most respectfully to bring
to your notice that Bysoonauth, the Sub Shirkar
of the N.C. Branch School, having assigned over
to me his salary for January last, in liquidation
of a debt contracted by him on a former occasion
ran away with the pay of certain masters of the
said Branch School. This occurrence took place
on the very day of the payment of our salaries
and consequently his salary for January
was not paid to me. I am given to understand
that Mr Twenty man the Head Master of
N.C. School, has been covered by the Committee
to make good the loss thus sustained by the
masters. I beg therefore to submit that
the payment of his salary to me - which
was stopped in consideration of the
College having suffered on his account,
be ordered. This favour will confer a
great obligation

Sir,

Some matter of litigation having put me to an absolute necessity of procuring an authenticated copy of all the particulars connected with one Mohes Chunder Mitter, a student of the Hindu College, whose date of admission therein together with age, caste, name of the guardian &c. I have come to learn from the Register of Admission from Jan. 1845 to [illegible]. I beg to request you will have the goodness to take the urgency of the case into a favourable consideration & furnish me with the much needed information of the said boy's application & other things as in the form subjoined.

Sir

The 8th Paragraph of the communication accompanying your letter (No 1080) dated 12th September 1850 as follows.

Rec^d 14th Sept 1850

"Ordered that the Principal be requested in communication with the Professors to furnish the details of a Scheme of Study based on that proposed by the Honorable President, and embodied in the enclosed Copy of a Minute by him, with such alterations as they would recommend to be substituted for that now in use"

I beg to state that I have conducted the Institution according to the Rules and that we are at a loss to make out what it is you Committee require. If we are to draw out a new course of reading in Mathematics, Literature, History &c on the one

be occupied with the classes during College hours. The Examinations of Papers should be done by them at home" Does this mean that if a master gives a student a piece of Declamation, Translation, Composition or a question in Mathematics, that he is not to look it over and correct it, before the student is putting out to him the mistakes during College hours? To do this has always been the custom at the Hindu College and at every other place of Instruction and what does more than this may be meant by Examination of Papers? The masters of the Hindu College have not been in the habit of doing.

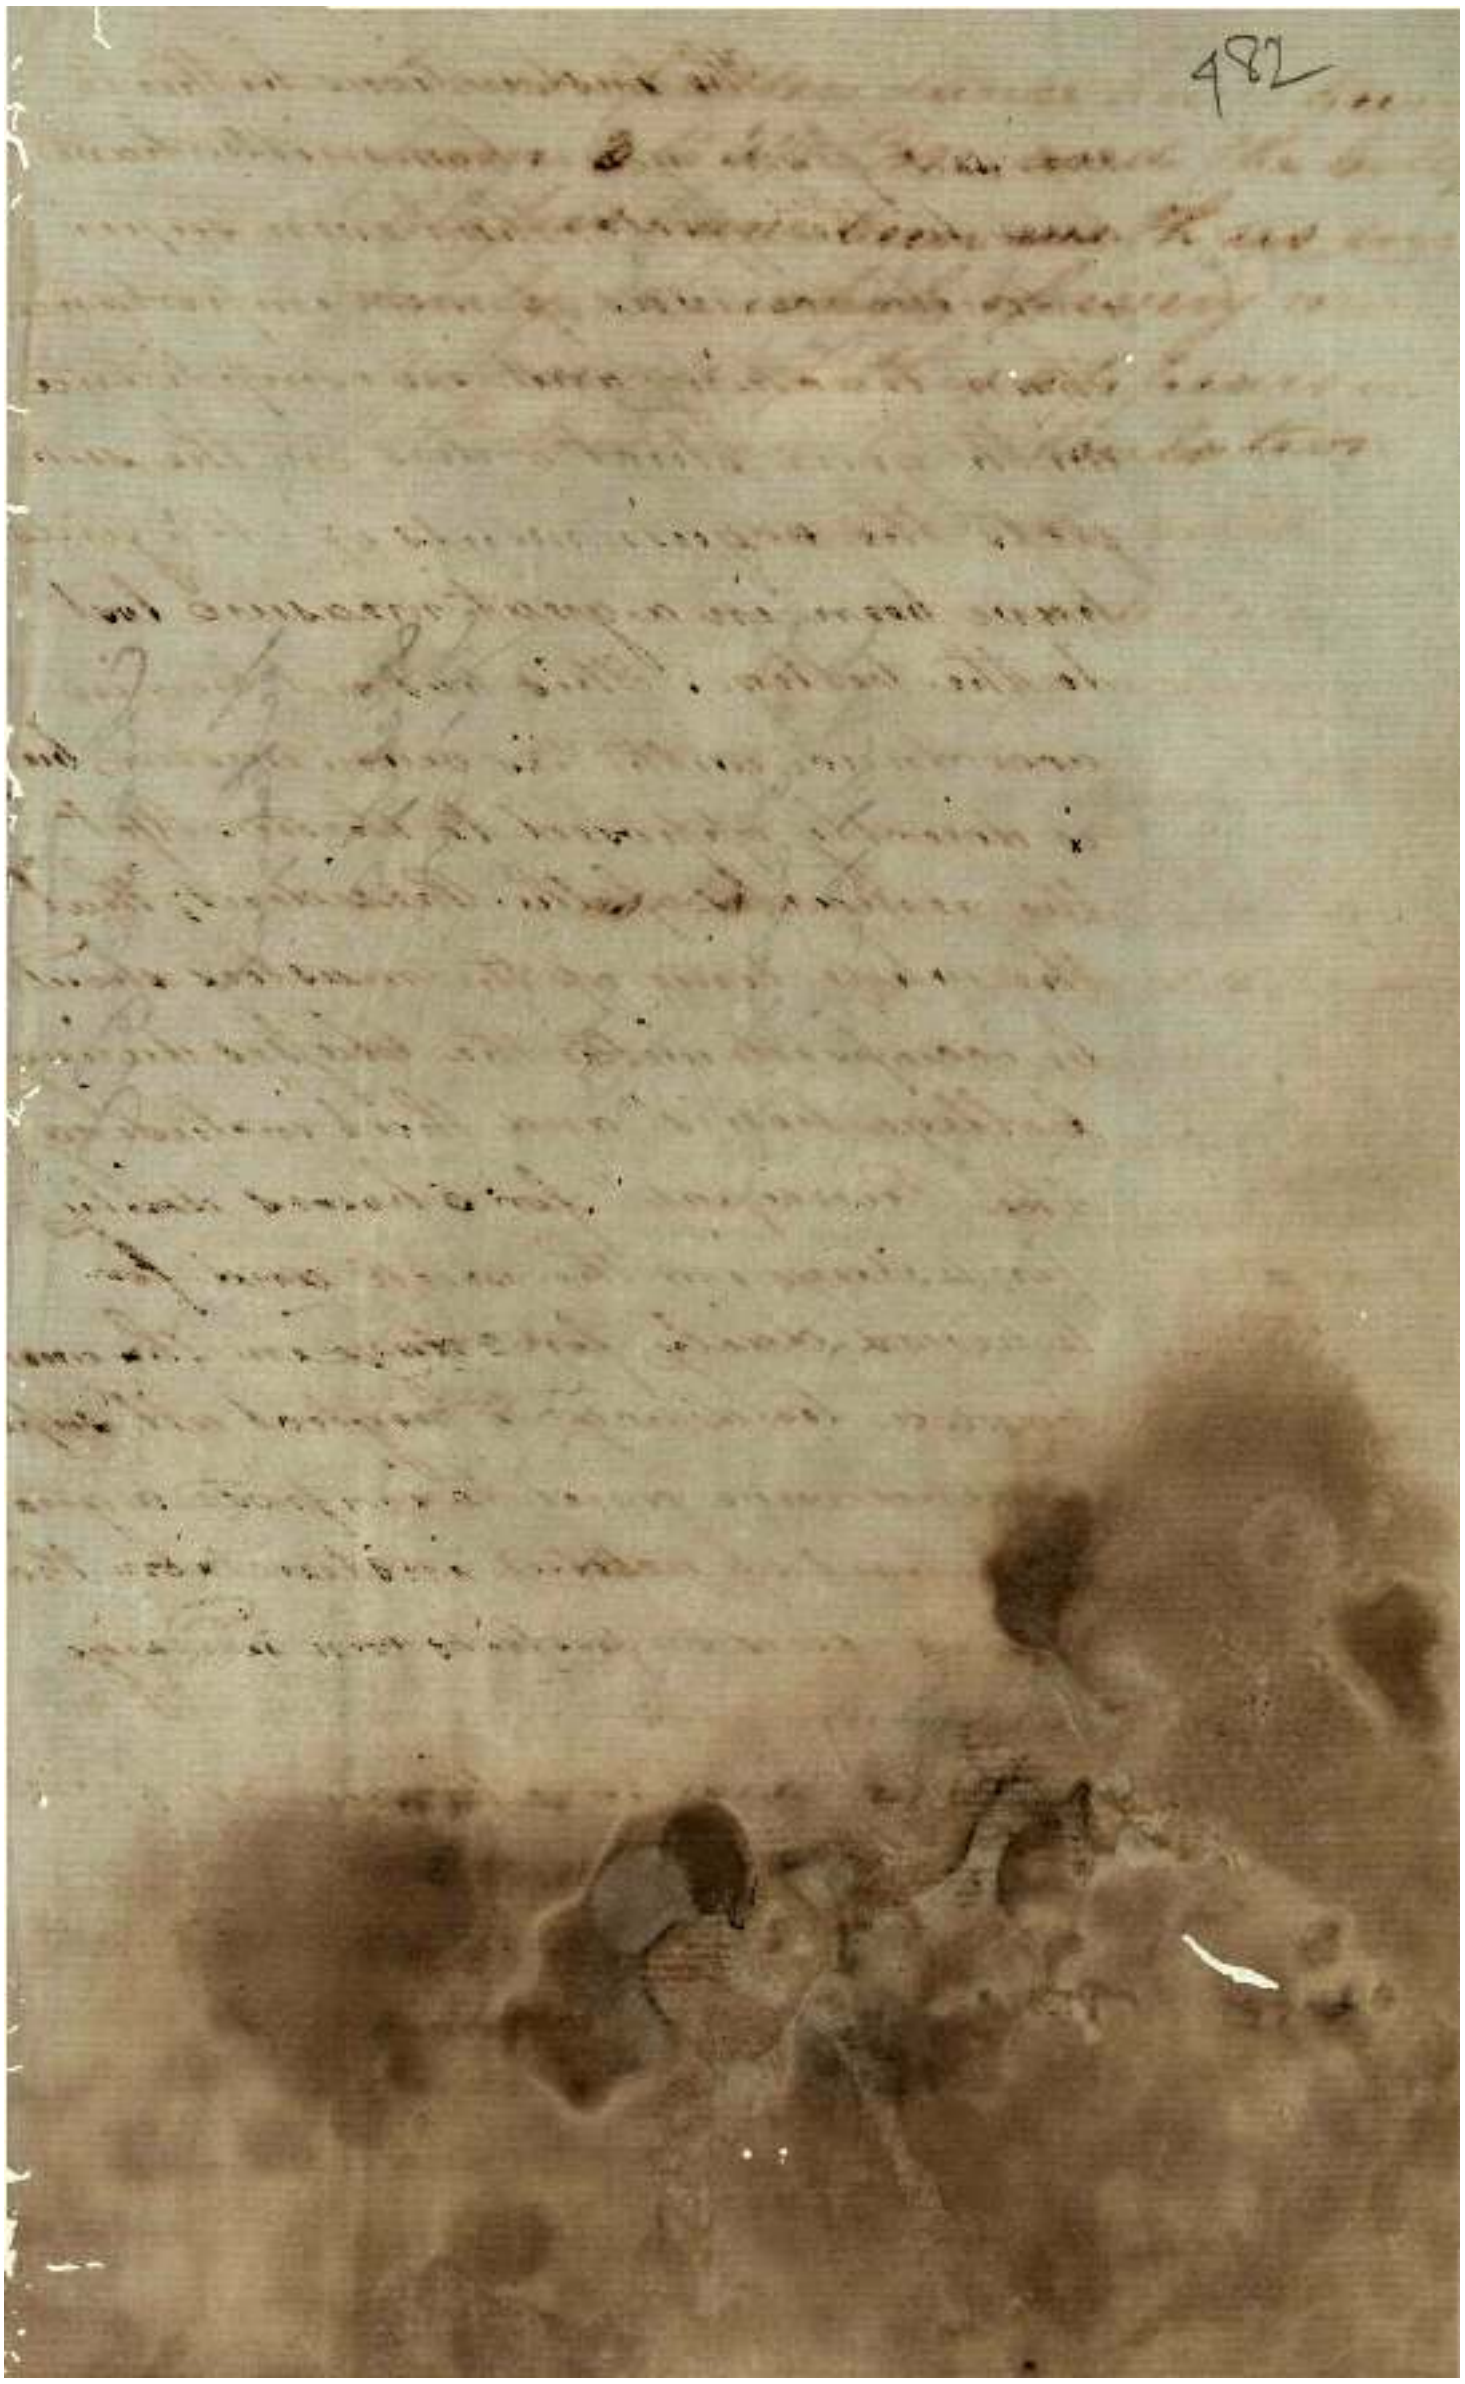

I do not know what Papers have been laid before the President & the Council of Education from which he has calculated the [illegible] given by each of the masters to the classes but I know that sufficient information has been forwarded by myself to your Committee, Independent

hours of attendance have been
from 9 to 4 1/2 P.M. and the Colleg
Classes have been with us en-
tirely the whole of every morning
Your name of this appears in
the President's Calculation.

Whenever Mr Foggo was unwell and sent his remarks to Dacca Mr
Sutcliffe and myself have each given an
hour a day extra for teaching his sub-
jects, returns are represented by the Pre-
sidency as the one giving 2 hours 35 Mi-
nutes and the other 2 hours 15 minutes
daily to their classes.

The tone of the President's
minute conveys the impression that
we have been averse to giving instruc-
tion and that our aim was to do as
little as possible whilst the strictest
enquiry as to the working of the College
for the last year made known that on
every hand we have cheerfully per-
formed extra duties, which would
have otherwise been neglected or the
work must have been done
for the different Classes and Examinations
of your Committee and that Mr
Sutcliffe and myself have instructed
four Classes in Mathematics and
two in Literature in many subjects
excepting Bengali and Persian.

I beg most respectfully to bring to your notice that my name has been unfortunately struck off from the College roll owing to my neglect in paying the usual schooling fees for this month in advance for the following reason—

Having attained the requisite number of marks to be entitled to a Junior Scholarship this year I thought that I would not have to pay my schooling fee for this month and therefore neglected to do the same till I found my name struck off. Finding myself in this predicament I now humbly solicit your kind attention to the subject that would a poor boy be thus removed from the benefit of a Collegiate education for so slight a fault and trust that you will be kind enough to sanction my readmission without the payment of a fine

Babu Annamaya Dutta
Secretary to the Managing
Committee of the Hindu College

Sir,

Herewith I beg to submit to you
copy of a letter which I had occasion
to write to Mr. E. Lodge, Superintendent
of the Patoada, regarding the conduct of
some of the teachers of that institution. I
subsequently proved to him by the testimony
of the parties who had accompanied the boy
to the gate of the school premises, and the
Shodi in whose charge he found the boy, that
he was actually expelled in the way stated in
my letter. But in defiance of all this, Mr.
Lodge has written to me to say that he has
satisfied himself from enquiry that the
boy is not actually expelled from the School
in any way. But the boy himself, the
Shodi, and the parties who accompanied
him to the gate, all declare that he was
actually expelled from the School in the
manner described in my letter. I
attribute Mr. Lodge's conduct in this matter
to his having come to think that the
statement of the boy and the Shodi
could not be relied on, and that the
boy was not actually expelled in the way
described in my letter.

Under these circumstances I feel
myself bound to bring the conduct of
one of the teachers alluded to by me
to your notice, and through you to
the notice of the Committee, that he may
be dealt with as they may think proper.

I have &c.

* This was done with the exception of the
portion underscored which Dr. Duff
in any way knew of the boy's having
been expelled. It was merely the
boy's own statement to me & Shodi

of the institution to expect all who come late,
and that he has often, and even on the morning
of the day when he dictated the last expelled
boys for the same reason I deem it my
duty to bring the subject to the notice of the
Managing Committee and hope they will
take it into their consideration, and for the
welfare of those who are entrusted to their
care adopt measures, which will prevent
the necessity of exposing helpless boys to
such punishment first.

C. Lodge Esqr

Principal & Superintendant of the

Hindu College Patnála

Sir/

It appears that my son Bhawendra

Mittra arrived at the Hindu College Patnala on the

24 instant about half an hour later than the usual

time, and that on his coming to his class he was

in the first place reprimanded by his master

for the delay and then taken over to Kheteramo-

hun Dutta, a writer of the institution who ordered

ed a durdan to expell him out of the school

premises and then was a boy of about six years

turned out into the street and there left to the c-

chance of being run over by a horse, horse or the

like until he could get among his home, which is

this circumstance not done and could not be done

until after half past 4. P.M.

I can fully appreciate the importance of

discipline in public institutions and would

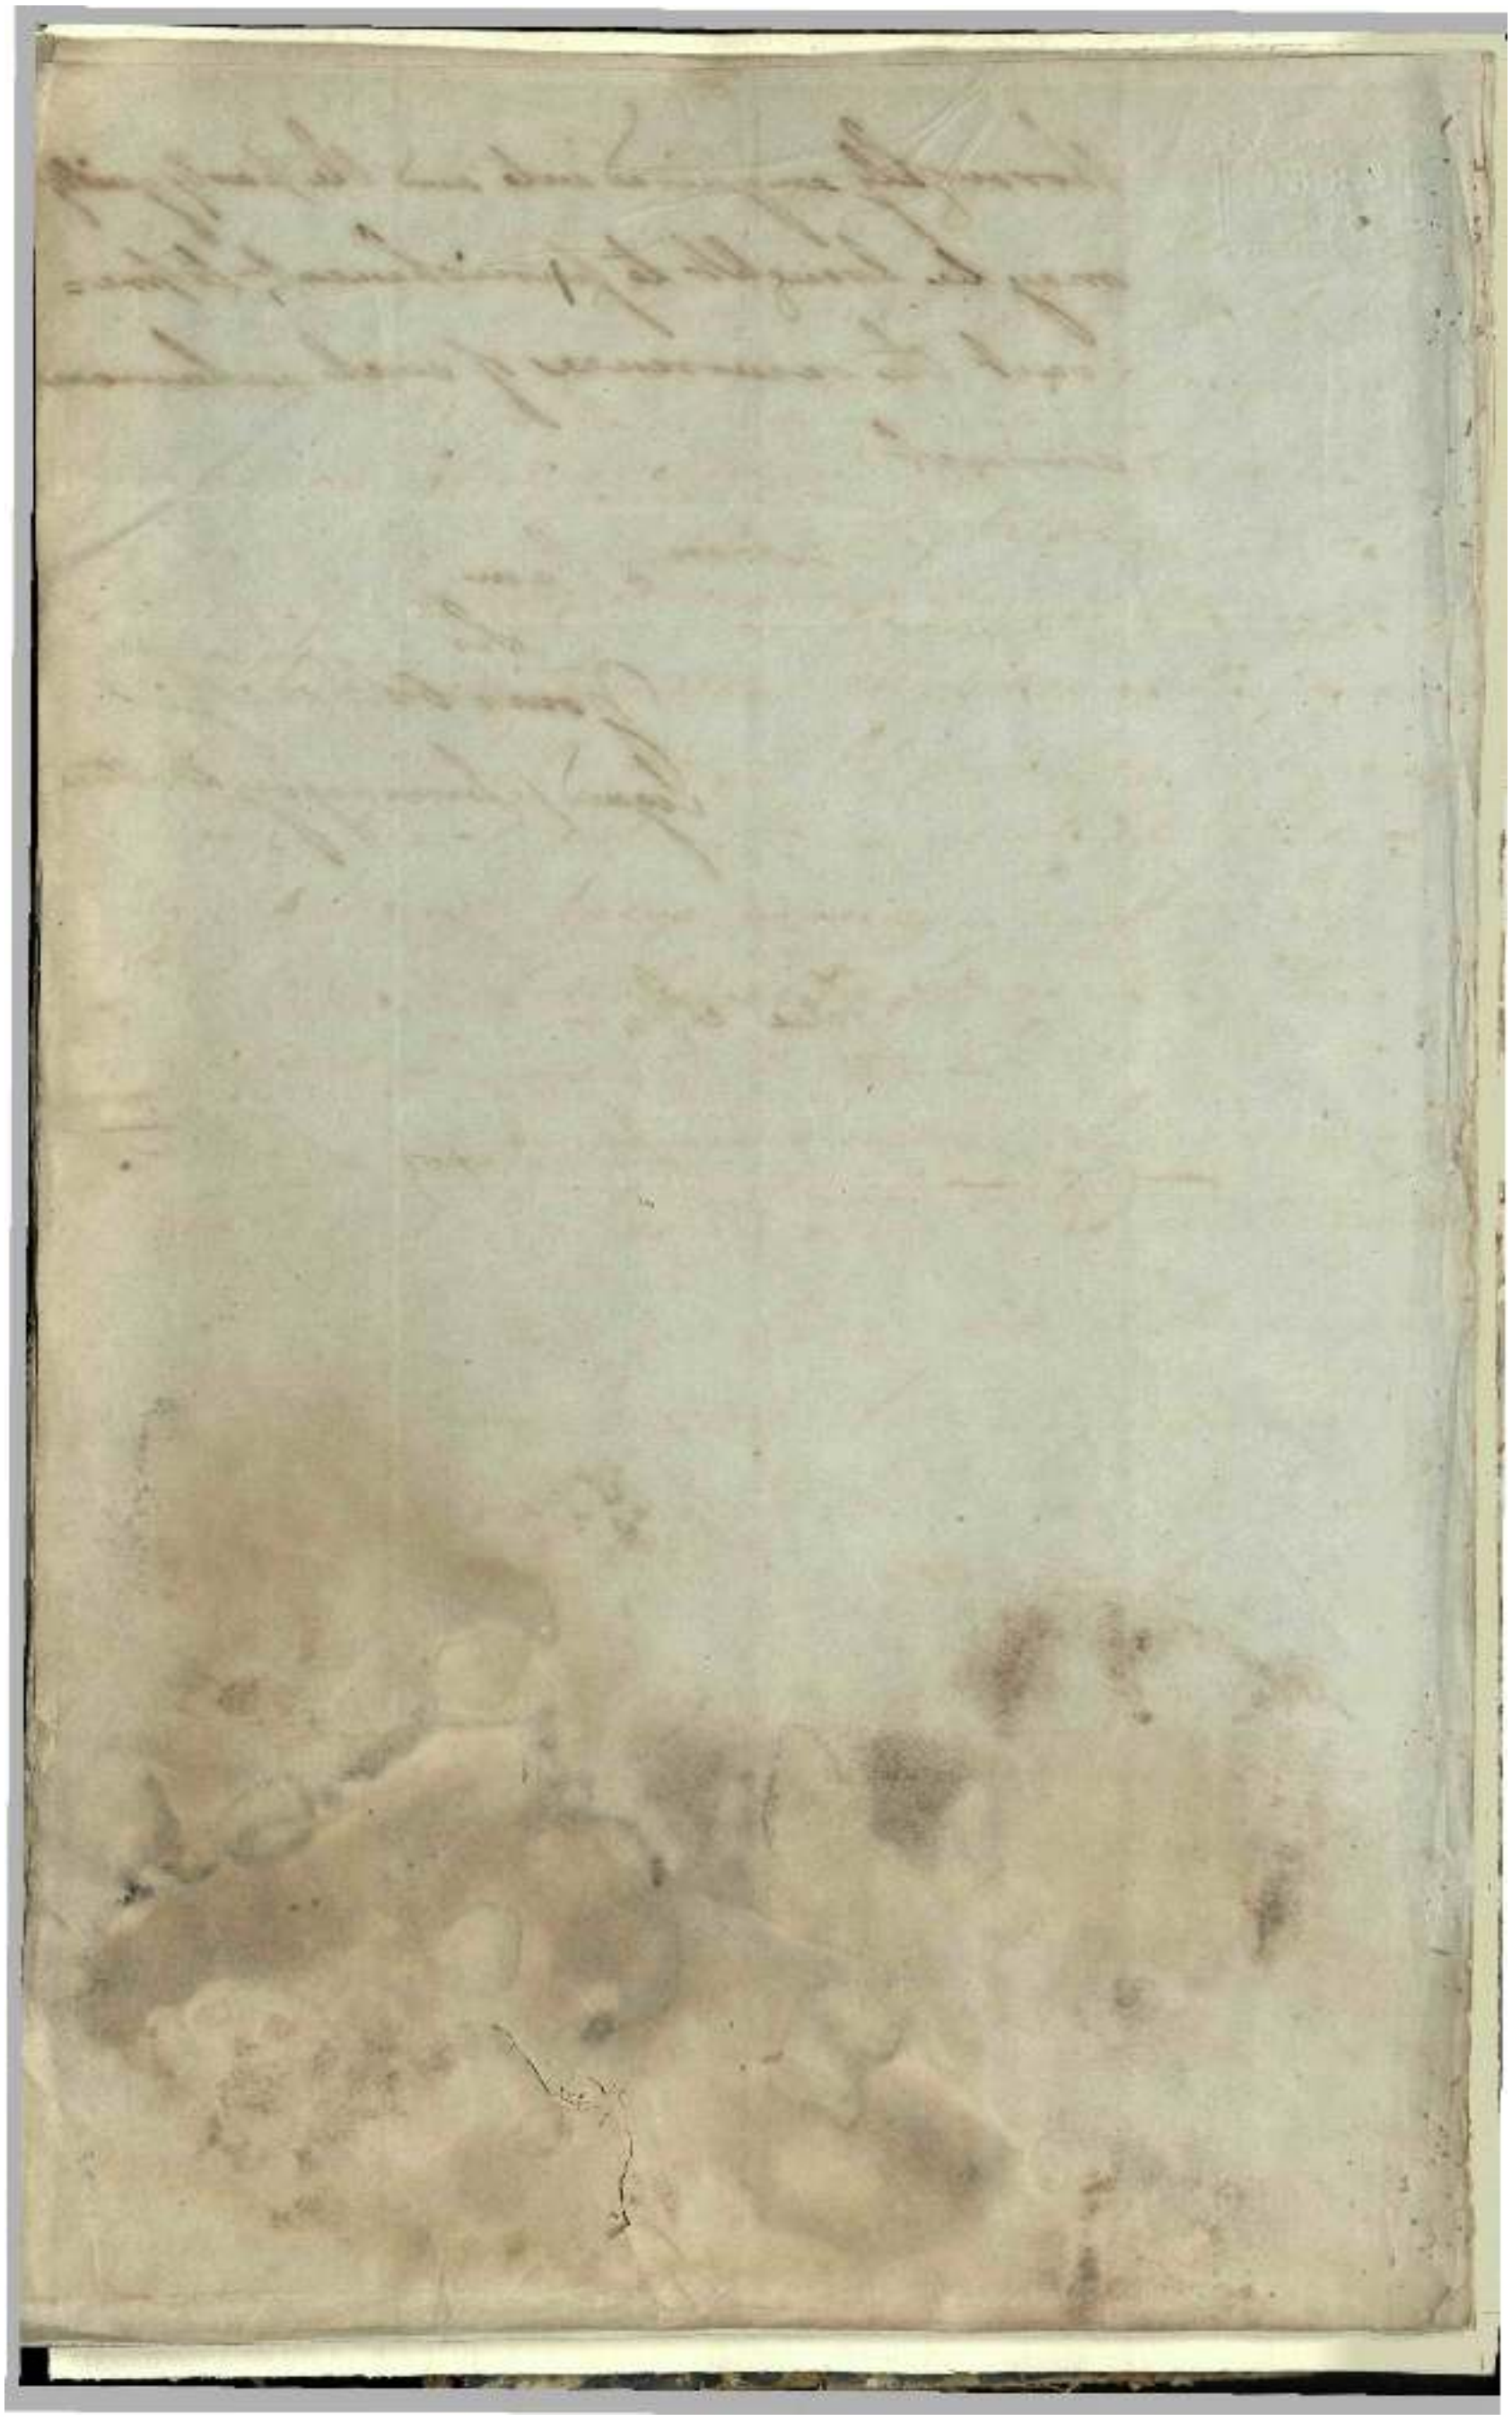

be the last to complain of regularity of attendance

thoroughly enquired into and the party guilty
may be brought to punishment, to pre=
=vent the recurrence of such inhuman
conduct.

I am
Sir
Yours Obediently

When I received the letter of Summary from
letter from Messrs Baboo, the Serjeant of the Master of the class
in which the boy is, and they all three denied that the boy came
to the School at all on the day in question. A person from Baboo
Summaya afterwards came and declared that he took the
boy out of his carriage at the door of the School and the mode
being such for he declared that the boy spent the day in his
shop which he knew nothing else. I think it most likely that the
boy played truant and I do not believe he was turned out of
the School at all. I now come the way as well known that the
first step taken by Baboo Summaya was to send a person
to the Patwaha to abuse the masters & to create a disturbance
afterwards he wrote his letter

Sir,

We, the undersigned native masters of the School Department, Hindoo College, beg most respectfully to represent that we hold our respective appointments from 1838 & 39, during which period we have afforded satisfaction to our superiors by the faithful discharge of our duties.

In March 1841 Sir Edward Ryan, then President of the Council of Education, called on all the native masters in the Hindoo College to undergo an examination in Literature, Science, & Vernacular before the Managing Committee of the Hindoo College and the Committee of Public Instruction, the result of the examination having proved satisfactory to them, we had the honor of being favored with an assurance from the President of the Council of Education that we should not be liable to further examinations in future.

We also beg to bring to your notice that we are the only masters left, who underwent the examination, and that before the appointment of the full complement of Assistant masters in the Hindoo College, we had the charge of the Vernacular classes for several years. Under these circumstances we think it hard to be subjected to the forthcoming examination in Bengallee, and we therefore beg to request the favour of your being so good as to grant us an exemption on the grounds we have set forth.

Sir

On the 3.d of August last a friend of my mine Jas. Alexander Esq.ᵉ Collector of Medinapore, addressed to me a note requesting me to enquire, whether any of the Engineers connected with the Bengal Railways would be disposed to receive a young native of the Medinapore School as a pupil in Civil Engineering. In compliance with this request I had had a Conversation on the Subject with the Superintending Engineer, Mr. Geo Turnbull. He strongly recommended the young man after fully considering his case, to first study practice as an apprentice to some Resident Architect, and said, after that any Engineer would be glad to take him by the hand. On this Mr. Alexander wrote kindly asking me to note down my views on the matter that he might send it to my friend Mr. Alexander. The result was the following letter which I read as generally interesting

as regards the subject of bringing up to
of the Natives youth to the Profession of
Civil Engineering that I have thought it
right with Mr Turnbull's permission to bri
it through you to the notice of the Council
of Education in order that the question
might be fully considered.

The subjoined is a Copy of this letter

5 Russell Street Calcutta
5 October 1850 —

My dear Sir

I have bestowed a good deal
of consideration on the subject of employ
ing native assistants on the Railway
works and the kind of Education they
will have to go through to qualify them
for such Employment. There will of
necessity be two Classes or Kinds one
Clerks at Stations Ticket Clerks Traffic
Clerks Accountants &c for this the ordi
nary graduation in Bengalee with intelli
gent reading and writing will be
enough.

Another Class will be that
Connected with Engineering such as
Overseers of Works Engineers Locomoti
men

and Superintendents, also District Engineers
Capable of making out designs for bridges
of every kind taking Charge of a Division
of Miles of Railway. for this Class a different
Education will be wanted; they must
understand the nature & practical work, such
as Brickwork, Carpentery, Iron work
Mechanics. –

The profession of a Civil
Engineer requires an intimate knowledge
both of the materials to be used, and the
manner of using them; and no kind
of information on these points can be
too minute or too practical, for how
Can any one be a judge of the great
Varieties of work of which he is called
on to make designs and to Carry into
effect, without a workmans knowledge
of the materials and their manipulation?
If ever young person intends becoming
an Civil
Engineer and has always required
a tolerable education must become
first to be apprenticed to some practical
Builder of good character such as Mayo
Burn & Co or Mackintosh & Co or Dean

Iron foundery such as that of Leds & Co.
After being there for some years working
with his own hands setting bricks, at
Carpenters work, or at iron work, he will
have acquired such a stock of knowledge
of an useful Valuable kind, so that
any Engineer will be glad to take him
by the hand and he will have no need to
go about seeking for employment.—

Our best European Engineers
have had more or less some such ini-
tiatory practice; and they all say it
was the best part of their Education.
Mr Telford was a Stone Mason, Rennie
was a Mill Wright, Cabell was, I believe,
apprenticed to a Cabinet Maker, the
Celebrated Robert Stephenson worked
at the factory with the hammer the
file and Chisel.—

I am quite aware of the preju-
dices of Caste pervading Nations to do such
work, as not would be thought demeaning
themselves to Chop iron or set brick, but
that does not alter the facts or the Com-
mon sense of the Case. If they will not
do it, they must Continue as they are
and swell the ranks of what are called
writers.

Writers in Calcutta, but if they aspire to
better situations, prejudices must be broken
through.—

I have much more to say on
this subject but it perhaps may be
out of place to enlarge at present.

I shall therefore conclude by
advising the youngman to go to work
with a hammer and Chisel, under a good
Master & as I did when I was his age
and with ordinary deligence and ordi-
nary understanding and upright con-
duct his success will be almost
Certain.—

Very truly yours

Sir

We beg to acknowledge receipt of your letter of yesterday's date bearing copy of letters from the Engineer in Chief of East India Railway George Turnbull Esq and Dr Chesterbutty on the subject of your receiving a Native youth therein referred to, as an apprentice in Civil Engineering --

In reply permit us to state that for the purpose of attaining a competent knowledge of the Profession of a Civil Engineer there is no other way than that of following out the Course so clearly laid down by Mr Turnbull in his letter and that should the young man referred to, decide on adopting that Course, we are disposed to receive and forward him on

[illegible] to enter as an apprentice on a Railway for which either Course he must be prepared at the beginning of the training and also be possessed of the requisite knowledge

We are afraid however judging
from the Native Character in general, that
he will become thoroughly disgusted with
the rough part of the work at first,
and that very shortly; we would therefore
suggest, that before entering into perma-
nent engagement, he should come on trial
for a few months, when should he have
perseverance and resolution to continue
we would be willing to execute his
Indentures, under the new Apprentice Act
and allow the period he had served on
trial to count as part of his articled
time. In either trade which he might
prefer, while in Calcutta, he would have
opportunity of learning practical draught-
ing along with our Draughtsmen as
he would not object to his studying it
for a few hours daily with them in
our Office -

[illegible] to point any
striking marks on Brahminical Caste &c -
but to make an allowance to the Native
Premium but also he would not only
[illegible] of considerable trouble but would
also be almost utterly useless for [illegible]
purpose

period, we ould expect him to serve, say
the first two years of his Apprenticeship
without pay and afterwards we would
agree to pay him a monthly allowance
for the remainder of his time, rising
yearly in such ratio as is usual
under the Circumstances.—

Any suggestions or alteration
which you may deem desirable we
will be glad to be favr with your attention
& consideration upon.—

Secretary Medical College

Fort William 12th October 1838

Sir,

It having been represented to the Board of Education, that the period at present allotted for the Scholarship Examinations, the termination of the academic Session & the long Vacation, are liable to many objections and inconveniences, I am directed by the Board to request that you will be so good as to ascertain the sentiments of the Professors, and Senior Pupils of the College on the subject.

Recd 18th Oct 1838
Rd

Should a general objection be found to exist, the Board would be glad to know whether the closure of the Session at the end of the cold season, with the long vacation, in the hot weather, as in the Medical College would be deemed more suitable - a distribution of ten days being

of the Department under
their charge.

Honored Sir

Rec'd 20 Dec 1830

We beg leave to bring to your Honors notice, that it has been the custom from a long time for the Students of the Branch School to be promoted to the Hindu College free of Charge by the principle of promotion "merit combined with poverty". And that their schooling has been paid from the School Society's Fund.

But the arrangement of the present year has put the above rule out of [illegible] this year those boys who have been entitled to hold Junior scholarship, have been promoted, & not any of those who are near the standard, as was usually the case. This we consider quite against the intention of the Government, since all Scholarship Holders of all the Government schools are generally considered free, and even [illegible] from a private institution is allowed to remain in the College, provided he gets a scholarship.

Under the circumstances if only the Scholarship Holders of our schools are to be promoted, we fear lest the long established privileges of this institution and the boon of its founder the Philanthropic Mr. Duncan Esqr. This school is held in high estimation among the native community only for this respect and this only that a great many boys usually enlist their names. And should this boon be entirely denied to us

I wished to know from you if you were the wife of the
Rev[d] Mr. Hodge who made some enquiries of you
from the Bishop of Chester College. I have since
seen Mr. Bayard & he will give a very good character of
ch 3/9 a cwt. I. the Bay can is often of about equal
quality may be got for 3/6 or 3/4 but I should not like to
depend upon a constant and uninterrupted supply at that rate
and from that quarter - The reply to my enquiries from the
School Book society I enclose. This society to which the Rev.
Mr. Cuthbert belongs does not supply Raglan
I think it might be procured much cheaper by purchasing
at auctions a large quantity at once. I purchased some
here from 8 to 9 pence ⅌ lb —
If you can do this wish it I will make the best terms I can
for obtaining paper but I cannot go about the Bay can
& enquiries & make enquiries

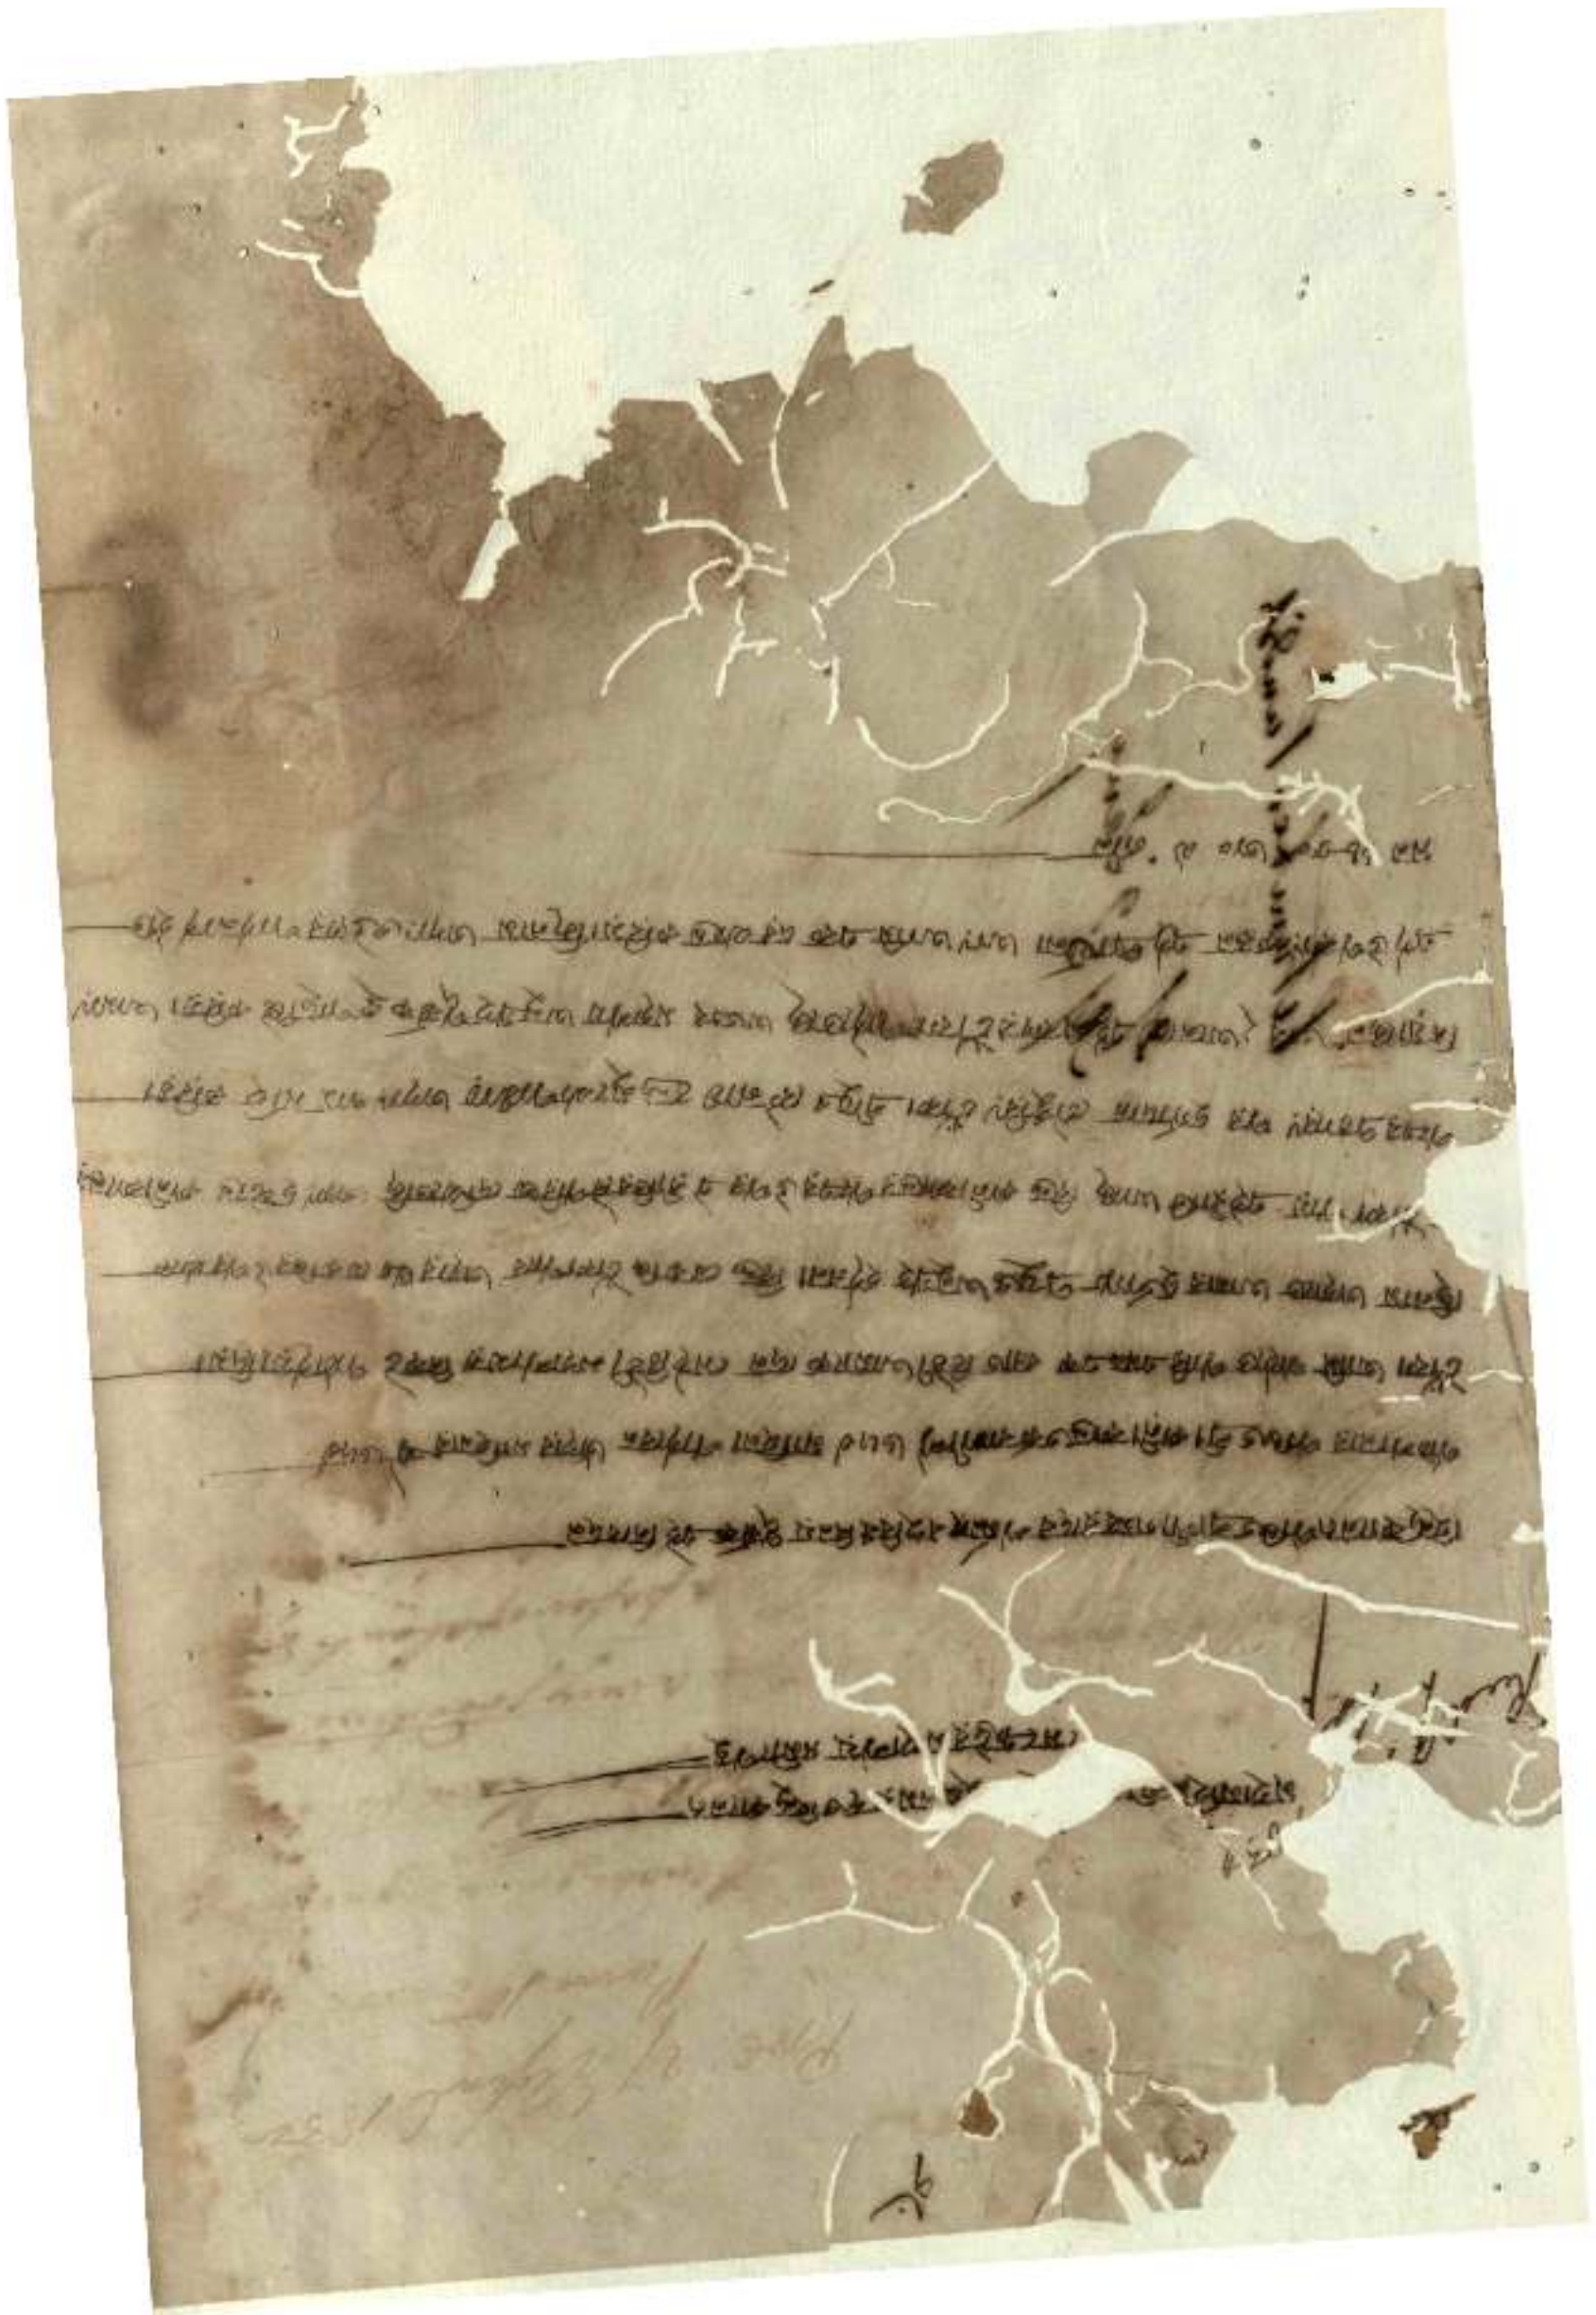

Yours very truly
S. Hodge

Dear Sir,

We have not yet received
supplies of Stationary, and probably shall not
for some time. In the meantime however sup-
plies could be secured from fresh importations
sufficient to meet present requirements. Before
signing the receipt which we could supply the
Com. the College should like to see a Master of the
Paper - as we are use to prevent the possibility of
mistake in any quality. And if you should
be able to do by letting me have a
for her master

I claim [illegible] to this Bounden & Lawson [illegible]
the Sent any claim to subscribe above the Penalty in case the
situation herein recommended
