W. S. Atkinson Esq. M. A.

Director of Public Instruction

Presidency College 24th April 1865

Sir
The transfer of the Civil Engineering Classes
to the Presidency College premises being completed, I have
the honor to submit a report on the entire Establishment
which will be requisite to maintain them on
an efficient footing.

2 The arrangements for the Instructional Staff
proposed in my letter N 27/13 of 10 April are now in operation and
sanctioned by Government in the Junior Secretary's
letter N 27/13 of 10 April. I have no hesitation
in saying that the Staff (aided by Mr. Thompson) is
sufficiently strong to afford full and efficient
theoretical training in Engineering in all its branches.

3 The following statement shows the results
of the amalgamation as regards expenditure in the
Instructional Staff - Contingent, Library, Model, and

Prize allowances and House Rent

	Previous expendi- ture	Present Proposed expenditure	Income	Decrease
Principal Prof. of Engineering	650	-	-	650
Professor of Engineering	-	600	600	-
Asst. Professor - do -	-	350	350	-
Professor of Maths	700	700	-	-
Professor Drawing	350	350	-	-
Prof. Constructive Design	430	-	-	430
Surveying Master	250	-	-	250
Math. Cl. Master	200	-	-	200
House Rent	580	-	-	580
Library allowance	100	100	-	-
Contingent allowance	100	100	-	-
Model - do -	100	100	-	-
Prize - do -	37/8	37/8	-	-

Total Super 3497/8 2337-8 950 2110

4

The above statement shows a monthly saving of Rs 1160 on previous expenditure. The allowance for Contingencies may admit of reduction hereafter but for the present I propose to retain it. No instruction in Natural and experimental Sciences was provided for on the former staff although this branch forms one important part of a course of Civil Engineering. The Clapes will now receive instruction in this subject from Blanford the Professor of Natural Science attached to the General Department.

5

It remains to revise the office establishment and servants and I append a statement of the present and proposed expenditure on this head. The reduction of expenditure (Rs 56 a month) is small in amount because in dispensing with the Head Clerk and the

2

Librarian of the Civil Engineering Department, have proposed some addition to the pay of the corresponding officers in the General Department upon whom their work will fall. The first person on the establishment whose pay I recommend to be increased by 50 Rupees a month is Babu Hanom-chun Chatterjee the Asst Secy. He has been employed in the Department for a period of 30 years during which time he has won the good opinion of every one he has served under. To him now is entrusted the collection of fees aggregating nearly 7000 Rs a month and for the safe custody of which he is responsible. The Disbursements which pass through his hands are much larger. The accts are kept by him and all returns are supervised by him before they are sent out. Indeed the mere mechanical duties which he has to perform are sufficient to warrant the proposed increase to an officer of his standing. He also discharges other duties which are difficult to describe but which are none the less real and of the utmost consequence to the person who may hold the Principalship of this large establishment. Amongst the miscellaneous collections of students under my control it sometimes happens that there are underscrawls of ill-felling towards each other which unless brought to my knowledge and checked might result in serious trouble. In such cases it is of the utmost advantage to the Principal to have near him a person possessing the influence amongst the native Community which Hanom-chun does. The details are so numerous which the Principal of so large a college has to attend to that unless he has under him some Assistant like Hanom-chun who can to a considerable extent relieve him of these - his time would be taken up to an extent which would interfere seriously with the

proper discharge of his Professorial work. I therefore earnestly recommend that Hunson's salary be increased by 50 Rupees out of the savings effected in the office of the Civil Engineering Department -

I proposed in the last Budget that the pay of the present College Librarian should be raised from 35 to 50 Rupees a month - on the ground that I could not retain the services of a competent man in such a post on a salary of 35 Rs. I have therefore put him down in the proposed list at 50 Rupees and dispensed with the services of the Librarian attached to the Civil Engineering College. who has been employed only a short time in the College - The Head Clerk of the Civil Engineering College Babu Spalshunder Mitter need not be retained - He has been employed in the office - for one year and previously as Librarian for a period of 4 years - I recommend him for any suitable vacancy that may occur in the office of Public Works - The second Clerk M. Henderson Ruth Shree is retained on a salary of 25 Rupees a month - He is required to take charge of the stores and instruments and to proceed with the Survey party to the Muffashil in the cold weather. His services cannot be dispensed with - I have proposed some small additions to the pay of the Clerks of the General Department which they merit by their good service and which can only be conveniently given on occasions like the present when there is a revision of establishments & consolidation of work - As regards the rest of the Establishment I would merely remark that I have not retained a single individual who will not be usefully employed and if experience should warrant any reductions

hereafter with purpose it -

3

I propose that the revised Scale for Office
Establishment and Servants should come into operation
on 1st May -

Yours truly,
/s/ H. S. S. S.

To Mr. S. Atkinson Esq. M. A.

Director of Public Instruction

Residence College The 26th April 1865

Sir
Until the receipt of the Junior Secretary's
letter forwarded with your endorsement N^o 1739 of the 20th
Instant, was under the impression that Mr. Stegant's
Connection with the College had ceased on 2nd August
last - the date on which the 12 months leave granted
him by Government expired - and Mr. Sawney was
considered as holding Mr. Stegant's place on our Staff.
But Mr. Perrythorn Senior who was appointed to officiate
for Mr. Stegant from 3rd August 1863 has continued to
officiate in the appointment up to this date on ac-
count of Mr. Sawney having been appointed to officiate
for Mr. Croell - from the date on which he joined
the Department. It now appears however that
Mr. Stegant must still be considered as holding
an Assistant Professorship until 2nd August next -
after which date no further extension of leave with
pay can be granted him. Under these circumstances
I would suggest that Mr. Sawney should be appointed
an Extra Assistant Professor on 500 R^s a month
debitable to his plus fees from the date on which he
joined the Department, and that from the same
date he should officiate for Mr. Croell - He would
in that case be entitled to draw 250 R^s per

+ 10 Durby

own appointment and 4000 Rupees from Mr Fowler's Office -
I make this proposal in order that Mr Tawney may not
be subject to any retrenchment for the past or in future
on account of the less than sixteen circumstances connected
with his appointment -

In reply to your Memo. A 1896 Dated 27th
April I have the honor to forward an amended State-
ment of the monthly expenditure to be incurred in the
Civil Engineering Department on account of the same
expenditure being drawn monthly instead of in two
instalments by letters of credit granted by the Accountant
General. I also include in this amended Statement
the sum of Rupees 44 in the Establishment of the Presi-
dency College being the amount of the ^{& Compensation} ~~Pro~~ assistants
Surgeon's salary which is charged to the College - You
will be good enough to attach this Statement to my

Sir

In reply to your Memo No 1928 of the 28th ultimo. I beg to state that the unexpended Balance of the Survey fund is Rupees 437-8-3. The sum of Rupees 2000-0-0 was sanctioned for the expense of the Survey party of the last season - but owing to the decrease in the number of Students - and also on account of several bills having remained in arrears during last season, the entire amount has not been spent. - I have already arranged for the purchase of two tents for Rupees 366/- and it will be necessary to purchase 3004 more as I believe the Ordnance Department will not in future issue tents on the requisition of civil departments.

I have the honor to inform you, that the Annual Examination of the Civil Engineering Dept. has been completed - and that the following Students have shown sufficient merit to warrant their being elected to the Forbes Scholarships for one year from 1st Instant.

1. Duggapaul Rukhit.

2nd year.

2. Chatter Nauth Shoro

1st year.

2

Under the new regulations sanctioned by you. Second year students only are to compete for these Scholarships. I recommend however that on this occasion one First year Student be elected, as he has passed an exceedingly good examination and there is no Second Student in the 2nd class except the two Students who have held the Scholarship last year - who is deserving of a Scholarship.

Yours most -

Referring to the circular No 44.
issued by Col. Nicolls & forwarded with your endorsement No 2372 of 29th May. I regret that the object of my letter No 29 of 24th April should have been liable to a misapprehension, what I wished to discontinue was the practice of sending for Examination Papers at all times of the year, and in some cases immediately after the regular half yearly examinations. I did not wish to have the times for holding the half yearly examinations changed. - They should still be held on the first Monday in the months of August and February, but the applications of Candidates to appear at the examinations might I suggested be required to be sent in during the months of June, & December only in order to give time to prepare questions for the different grades and send them to such distant stations as Singapore, Rangoon & Sylhet. I should be obliged if you would ask Col. Nicolls to modify his circular so far as may be necessary to bring it in to harmony with the preceding.

I have the honor to acknowledge the receipt of Mr. Dupay's answers to questions in Surveying with your letter N^o $\frac{1468}{89}$ E of 5th June. On referring to the records of the last examination I do not find any mention of the case of Mr. Dupay, and indeed under any circumstances I should hesitate to receive at this date answers to questions issued nearly 12 months ago. I will therefore register Mr. Dupay as a Candidate for the grade of P. A. Overseer at the examination on 7th August and send you the necessary papers.

Yours truly

Sir

Presidency College the 14th July 1885.

With reference to Mr Bayley's letter No 4322.

forwarded with your endorsement No 2917. of 11th July I would suggest that Mr Sawney's appointment as an Extra Assistant Professor, should continue till 2nd August next, the date on which Mr Styan's second extension of leave will expire - From this date (2nd Aug.) I recommend that Mr Sawney should be appointed an Assistant Professor, vice Mr Styan, and that he should continue to officiate for Mr Cowell, drawing $\frac{1}{4}$ of the salary attached to his substantive appointment and $\frac{3}{4}$ of the salary attached to Mr Cowell's office. The period of Mr Cowell's original leave (15 months) expired on 11th instant and for the extended leave of 6 months, which he has now obtained Mr Cowell can only draw $\frac{1}{4}$ of his salary viz 175 Rs. a month. There will remain therefore Rs 525 of salary and 100 Rs of house allowances available for the offg Professor from the allowances attached to Mr Cowell's office. To this amount if Rs 125 a month be added from the pay of an Assistant Professorship Mr Sawney's allowances would in the event of the

preceding arrangements being sanctioned amount
to Rs 700 a month from 3^d Proximo. I have
assumed that Mr. Stuant will seek no further
extension of leave, and that he will not resign
his appointment, but whatever course he may
adopt, I would strongly recommend that Mr. Sawney
should be appointed in his place, on the ground
that Mr. Stuant is unfit to hold the office of
an Assistant Professor in this College. It is
unnecessary to state my reasons for coming
to such a conclusion as I think it highly
improbable that Mr. Stuant will retain further
connection with the Education Department
but in the event of his doing so, I am quite
prepared to justify my opinion of him.
Should it be decided however that Mr. Sawney
shall for the present revert to the position
merely of an officer officiating for Mr. Cowell.
I would point out that previous to the 12th July
there would be 450 Rs a month available
consisting of 350 Rs Mr. Cowell's half pay
plus the house allowance of 100 Rs and this
from 12th July there will be Rs 625 a month
available Mr. Cowell's extension of leave for
6 months has not yet appeared in the Gazette
I think, but I learn in a private note from
Linn that it has been granted.

H Woodrow Esq. M. A.

Offr Director of Public Instruction

Presidency College, The 1st August 1883

Sir

I have the honor to acknowledge the receipt of your letter No 2999 dated 14th July, enclosing a Communication from The Government of India and requesting me to report to what extent the rates of fees in the Presidency College may now be raised.

After giving the subject my best consideration, I cannot but conclude that any enhancement of the present fee in the General Department would result in a decrease in the income of the College. The monthly fee is now 10 Rs with an entrance fee of 10 Rs, and the cost to a Mofussil guardian of educating his son at the Presidency College amounts (as a minimum) to 25 Rs a month during the first two years of his career, and during the following years, it amounts to 30 Rs a month. The willingness of persons to incur so large an expenditure (when compared with the cost a few years ago) on the education of their sons shows how highly the advantages of an English Education are appreciated; but it is quite a mistake to suppose that they are generally men of such means as to make it a matter of indifference, whether they are called upon to pay 2 or 3 Rs a month more. In a great many cases, students are maintained at this College only by some act of self-denial on the part of their parents, and it happens session after session, that students from the Mofussil are obliged to go back again after a few months residence in Calcutta from inability to meet the expenses of living in lodging after paying the College fees. The same remarks are applicable to the guardians of students drawn from Calcutta and its suburbs, with few exceptions they are men belonging to the

middle classes of the Community, and I believe that raising the fee above 10 Rs would be felt very sensibly by many of them and in some cases would lead to the necessary withdrawal of their sons from the rolls. As an instance of the injurious effect of laying too high a fee, I would cite the case of the Hindu School. In 1889 the fee of that School was raised from 5 to 7 Rs a month. Boys gradually were withdrawn from the rolls, and after the experiment had been in force for upwards of a year, it was found that the income of the School was less by Rs 300 a month than under the old rate the former rate was again established. but although the School rallied to some extent, it has never recovered its former position, and in my opinion it never will do. I certainly think that raising the fee of this College above 10 Rs at the present time would be attended by the same result. I do not mean to say that the present rate of fees is to be regarded as permanent - on the contrary some years hence, it will be possible to raise the rate, but other Institutions in Calcutta for the Education of natives must first raise their fees more nearly on a level with ours. The present fee in non-government Colleges, which are intended for natives, varies from 2 to 3 Rs a month, and before any enhancement of our fees takes place, I would strongly advise that the authorities in charge of these Institutions be prevailed upon to increase their fees to 5 or 6 Rs a month. I hope, therefore, that you will recommend to Government that the fee of 10 Rs in the General Department be retained for the present, any increase being under existing circumstances, likely to disorganise the College, and to check the progress of Education, besides being attended by a decrease in the income.

3 The case of the Law Department is different, & this branch of the College can be made self supporting. There are at present

47 ——— 3rd year Students in Law

83 ——— 2nd Do ——— Do ——— "

78 ——— 1st Do ——— Do ——— "

Total 208

They pay a uniform fee of 5 Rs a month, and the income is in round numbers 1000 Rs against an expenditure of Rs 1400 for the two Professors. I would suggest that 3rd year Law students should pay a fee of 10 Rs a month, leaving the rate for 1st & 2nd year students as it now stands. This increase might come in to operation at once, and it would render the Law Department self supporting next Session - even allowing for a decrease in the number of Entrances which I anticipate next Session, will be the case.

4 As regards the Civil Engineering Dept. I would deprecate any disturbance of existing arrangements for the present - The fee has been increased this Session from 3 & 4 Rs to a uniform fee of 5 Rs and at that figure I would recommend that it should remain for a year or two.

I have the honor &c

owing to the abolition of all distinctions between

House Rent & salary in the Classification Scheme

Mr Sandel has become a loser by 25/Rupia

a month since the 1st July last, when Mr Prapal

took leave of absence in February last, his duties

were divided between Mr Blanford, Mr Sanders

and Mr Sandel - Mr Prapal drawing half

salary 300 Rupees. Mr Blanford 200 Rs Mr Sanders 100 Rs
and Mr Sandel 100 Rs a month. But as by the
Classification scheme Mr Gropel is entitled to Rs 375
a month, and out of the remaining half Mr Blanford
draws 200 Rs and Mr Sanders 100 Rs, there remain
only 75 Rs a month for Mr Sandel - Under these
circumstances they to recommend that Mr Sandel
may be appointed an Assistant Lecturer on a
salary of 125 Rs a month chargeable to surplus
fees from 1 July last, and that the 75 Rs a month
available from Mr Gropel's salary be saved to
Government. This arrangement will give an in-
crease of 25 Rs a month to Mr Sandel's salary
which I think he has fully earned by the satisfactory
manner in which he has performed his duties

Sir

I have the honor to submit the report called for by your Endorsements N 3573 of 9th Sep 65.

2 The service of a separate Mathematical Professor or Assistant Professor for the Classes of the Civil Engineering Department are necessary because the course of study pursued differs entirely from that taken up by students of the General Department. The Sessions in the two Departments also commence at periods separated by an interval of 6 months, so that even if the Mathematical course in the two Departments were identical it would not

36

be practicable to amalgamate the classes. Students taking up a higher course reading than that prescribed for Decentate of Civil Engineering, would be taught in the same class with the Honor Students of the Genl. Department. The services of an Assistant Mathematical Master were dispensed with on the amalgamation of the two Colleges but a further reduction of Staff in this Branch of instruction is not present practicable. -

3 In Natural Science instruction is given by Mr Blanford to the Classes in both Departments

4 A Second man to given professional instruction in some of the branches of an Engineer's Education is likewise necessary, whatever designation he may bear. In the Old College Mr Martin Licutt Mills and a Native Assistant Engineer divided the professional instruction between them. And as in the case of the Mathematical Master, the services of the last have been dispensed with. But if a further reduction be made the Staff would assuredly be insufficient to maintain the classes on an efficient footing - and I moreover believe that no single individual could be found who would undertake to give all the instructions needed in the various branches of Engineering -

5 As regards the 9 Chainmen who are retained during the year. I beg to state that they are engaged in pulling Pankhas dividing the time they are not employed in field work, partly in the Civil Engineering Classes and partly in the General Classes. -

Mr Montrose finds his professional engagements likely to interfere with the proper discharge of the duties of the office he has so ably filled for many years, and in tendering his resignation he desires me to say that he feels grateful to His Honor the Lieutenant Governor for indulging him with the power to lecture in part by Deputy by which alone he has been enabled to retain the office so long -

To W. S. Atkinson Esq. M. A.
Director of Public Instruction
Presidency College the 23rd January 66

Sir. It is with much regret that I am under the necessity of submitting for your consideration two serious charges which have been brought against Mr. Galway the Professor of Engineering in Charge of the Classes now engaged in the annual Survey work at Raneeungee.

2 The first Charge is one of gross misconduct which was first brought to my notice in the letter of 26th December from the College writer who accompanied the Classes to Raneeungee. The second Charge is one of neglect of duty and is contained in the letter of 10th January addressed to me by the 3rd year Students when called upon to explain their conduct with reference to the note of 8th January addressed to me by Mr. Galway. I enclose copies of all these letters.

3 Under instructions from you I proceeded to the Camp at Raneeungee on the 15th January to enquire into these Charges and as regards the Charge of gross misconduct the following were the facts which were elicited. On the 23rd Decr three friends of Mr. Galway arrived in Camp and were accommodated in the office tent. During the afternoon of the following day (Sunday) prostitutes from the Town of Raneeungee were publicly brought to the Tents set apart for Mr. Galway and his friends and after a very noisy dinner on the evening of the same day they were again sent for and brought to the Camp. These proceedings took place in the midst of Tents occupied by the Students under Mr. Galway's Charge and in my opinion justify the terms made use of by the Writer. Mohender Nath Ghose in the last para. of his letter of 26th Decr when bringing Mr. Galway's Conduct to my notice.

4 In considering the Charge of neglect of duty I lay your attention to the following statement which embodies the result of my enquiries to the

42

in Calcutta and into Raneeunge. When the classes proceed to Raneeunge for field-work it is usual to assign some definite project for the students to complete, and they are divided into working parties - each consisting of 5 or 6 students. The second year students were divided into three such parties, and I find that during the $2\frac{1}{2}$ months the classes have been at Raneeunge. Mr Gulwey has only been present in the field with two out of the three parties on three or four occasions. With the third party of second year students Mr Gulwey was present more frequently, but that I think was owing to the locality in which they were carrying on their survey, being one through which Mr Gulwey frequently passed when visiting friends. The third year students were divided into two parties, one party containing all the regular students and the other the outcast students. The letter of 10th Jan'y was addressed to me by the regular students forming the first party and their statement as to Mr Gulwey having only been present with them in the field on four occasions has not been disproved. The other working party composed of outcast students was engaged in making a map of the property of the Bengal Coal Company for which they were to be paid, and Mr Gulwey seems to have given this party all the assistance they stood in need of. As regards supervision during the time students were engaged in their surveys in mapping their work it seems to have been merely nominal and the survey work done by the students must in a great measure be looked upon as the product of their own unaided efforts.

5 I consider the charge of neglect of duty to be fully established against Mr Gulwey. He seems however to consider that this is his duty to do more than he has done. A diary of daily work has been kept as has been customary in former years - but it would not I think be possible by any means to secure an efficient discharge of duty on the part of any Professor who could seriously maintain as Mr Gulwey does that the students have had during this season all the assistance and supervision they need.

6 There is one other matter to which

to which I would allude before concluding this report. In Mr Gulwey's note of 8th January the third year students are represented to have come down to Calcutta contrary to his wishes. I believe the students misunderstood Mr Gulwey's remarks to them on the subject of their leaving Camp, but however that maybe, acting on the terms of Mr Gulwey's note, I have sent back the students to Ranagunge to complete and check their project, and I have requested Mr Gulwey to allow them to return to Calcutta as soon as their work is finished in order that they may take up their course of instruction in Natural Science a branch in which they are somewhat backward.

A copy of this report has been sent to Mr Gulwey at Ranagunge -

Sir Presidency College the 26th Jan'y 1866

During the past year I have
received several applications from Masters of
the Hindu and Colabollah Branch Schools
for some general increase to their pay, on the
ground of the great rise in the price of all articles
of food consumed by them - I have hitherto
refrained from referring their applications to you,
because I considered there was no likelihood
of your recommending a definite permanent
increase of the salaries of these establishments;
and also because on considering the subject
it seemed to me possible to meet the wishes
of the applicants in a way, not only free from
many objections which would apply to a per-
manent increase - but having in itself much
to recommend it by identifying more closely
the interests of the Masters with the well-working
of the Schools, than has hitherto been done
in any Government School.

I The following statement shows

and Contingencies &c. in each School

Total Surplus. 1473 1464

The monthly income of the Hendoo School from fees varies from Rs 1650 to Rs 1750 the average during the year 1865 having been Rupees 1738/- There is therefore in this School an Annual Surplus of fees over expenditure ranging from Rs 2000 to Rs 2400. This surplus has hitherto lapsed to Government at the expiration of the official year. In the Colootollub Branch School the monthly income of fees varies from Rs 1700 to Rs 1800/- the average during the year 1865 having been Rs 1780/- and the Annual Surplus ranges from Rs 2000 to Rupees

2,500 of this Surplus has for some years past been drawn and placed at the credit of a Fund for enlarging or rebuilding the present School house, and this Fund now amounts, I believe to nearly half a Lac of Rupees a sum quite sufficient to carry out any improvements of the present Building to adapt it for the wants of a large School - Further Appropriations of surplus fees for the purpose of a School Building are I think unnecessary.

3 The proposal, which I now submit for your approval and sanction is that the Annual Surplus of fees in each School should be divided ratably amongst all the Masters and Pindils at the expiration of the Official year. Each Master would thus receive a gratuity which under present circumstances would add about 15 percent to his income - The numbers on the Roll shew the high estimation in which these Schools are held by the Community, and the plan for increasing the pay of the Masters, which I now propose would not only tend to maintain them in their present position, but would act as an incentive to increase exertions on the part of the Masters & Pindils.

4 In considering my proposal I would beg you also to bear in mind, that in each School there are about 40 Boys who receive a free education - These Boys are sent by the Inspection of the different Districts after an Examination in accordance with the plan sanctioned by Government for the encouragement of aided & Vernacular Schools. The fees payable by such Boys constitute I think a fair charge on the General Education Fund, and to the same extent should be regarded as a Contribution from

each School to the General Treasury. ⁴⁶ In the free list of each School there is therefore an ample margin for any sudden and unforeseen expenditure which may occur, and I trust that my proposal for a rateable distribution of all the Surplus fees of each year may meet with your favorable consideration.

I have the honor &c &c -

Sir

Director of Public Instruction
 Presidency College the 20th February 1864

In your letters No 2141 of 18th June
 1863 and No 1576 of 30th April 1864 you were pleased
 to sanction the expenditure of 1500 Rs and 1000 Rs
 for the purchase of Chemicals and Apparatus for
 the use of the Classes in Natural Science - These
 amounts being debited to surplus fees Mr.
 Blanford anticipated that these special grants
 aided by the monthly allowance of 25 Rupees
 would be sufficient to place the Laboratory on
 an efficient footing both for the Engineering and
 General students. The introduction of Gas - the
 building of a Furnace - and the considerable
 additions which have been made to the Apparatus
 have however entailed an expenditure far beyond
 what Mr Blanford contemplated - and the bills
 for Chemicals, Apparatus &c are now unpaid,
 amount to Rupees 1671-14-4. It is impossible
 to pay so large a sum from the small monthly
 allowance sanctioned for the Laboratory, and
 I am under the necessity of asking either for a

special grant of the above amount, debiting it
to surplus fees, or that you will authorize me
to debit it to the fund for Models in the
Engineering Department - At the credit of the
Model fund the College holds nearly 2000 Rs
and there will be sufficient fund both
for paying off the liabilities incurred by
Mr Stanford and for the payment of all
the apparatus ordered out from home - for
which this fund is liable - I may add too
that a very large portion of the Rs 1671-14-4
has been spent in getting apparatus and
diagrams adapted for the special use of
the Engineering students.

I have the honor to forward an
application from three 3rd year General Students
of this College, requesting that Free tuition Tickets
may be granted them under the circumstances
set forth in their letter.

2 I Cannot recommend that the case
of the present Applicants should be considered
as a special one - but this I think a question
worthy of due consideration whether as supplementary
to the present Senior Scholarship Scheme there
should not be a limited number of Free
Tickets given to Candidates who pass in the
First Division of the First Arts Examination
and for whom no Scholarships are available.

3 From this College there were 97 Candi-
dates at the late First Examination in Arts &
there were only 3 Circle Scholarships for which
they could compete - Bearing in mind the social
position of the majority of these students I have
no hesitation in recommending you to establish
an equal number of Free Tuition Tickets
extending over 2 years and limited to students

Who are placed in the First Division - I consider that the Concession of this privilege is justifiable on the ground of the excessive Competition that now prevails in the Calcutta Circle for Senior Scholarships, and as a measure likely to benefit the Cause of Education I recommend it to your favorable consideration.

Presidency College The 10th May 1866

I have the honor to report that a First Grade Senior Scholarship of 1866 has become vacant by the death of Paruchunth Mitter a student of this College on the 7th instant. It has not been customary to reconfer Scholarships which become vacant during the Session, but I think that there are good reasons for setting aside this custom in the case of Senior Scholarships. The Competition for these Scholarships is now very keen, and some of the most promising students depend entirely upon the assistance they afford in enabling them to continue their College Career. This particular Scholarship could not moreover be again awarded in the usual course before January 1868. I beg therefore to recommend that Joykiasiam Sen holder of the 1st Circle Scholarship in this College may be promoted to the First Grade Scholarship which has become vacant, and that Opendro hanth Mitter of this College, the next eligible Candidate, may be elected a Circle Scholar from the 8th instant. On referring to the list of the Candidates placed in the Irish Division at the last Examination, I find that Opendro hanth is bracketed with another student, but as in such cases it is usual to award a Scholarship to the one who gains the highest marks in English and in Mathematics. I find that Opendro hanth stands far ahead of the others in these subjects.

To W. S. Atkinson Esq. M. A.

Director of Public Instruction
Presidency College the 6th July 1866

Sir
In reply to your letter No 2092 of
28th May I have the honor to furnish a programme
of Law Lectures extending over two years,
and arranged in such manner as to embrace
all the subjects mentioned in Para 6 of
the Rules to which you refer and also so as
to form an integral part of the course pre-
scribed for the B. L. Examination

2 The Programme is also adapted to
those Universities Colleges where 3 year Law
Class have been formed.

3 I would suggest that a uniform fee
of 10 Rs a month be demanded from all

70

Candidates who enter the Law Department of this College for the purpose of qualifying for admission to the Examination for Pleaders - and also that the Annual Examination of Candidates should be held at the end of February or the beginning of March. I make the latter suggestion in order that students who fail at the University Examination for B. L. or L. L. may have an opportunity of presenting themselves without much loss of time at the Examination which is now to be established.

Sir

In the year 1863 you were pleased to make a special grant of 500 Rupees to Bhoobhally Peary Shrin Sircar, Head Master of the Colabattah Branch School, as a recognition of the efficient manner in which he had conducted his duties. Grants of this kind are necessarily of rare occurrence and on this account they have a value quite irrespective of their money value - I think the services of Bhoobhally Mohan Shrin Sircar Head Master of the Hindu School are deserving of some special recognition, and I beg to recommend that a similar grant of 500 Rs may be made in his favor payable for the surplus fees of the Institution - The Hindu School passed to the

of the Candidates is sent up to the Entrance Examination⁷¹ last year, and the Balance of income over expenditure for the year ending 30 April last was upwards of Rupees 2000/- These results shew a careful and efficient discharge of duty on the part of the Head Master, and I trust that you will feel justified in acceding to my proposal.

Yours faithfully,

To replace some of these missing Instruments, the Instruments mentioned in your Memo under acknowledgment were received into store on an Indent from this Office, but as these did not form an addition to the Stock of Instruments originally issued to this Institution, they were not treated as a fresh supply, and were not noted accordingly in the half yearly Return. If however they are to be treated as a new supply I beg that you will be good enough to note that the two Instruments originally forwarded are taken written off as paid for and adjusted.

from the Teachers of the Hindu and Calcuttullah
Branch Schools, begging that in consequence
of the expensive dearth of all kinds of food
you will be pleased to make some addition
to their salaries.

2 You have it in contemplation. I believe
to revise the salaries of all Teachers in the
Government Schools - but pending the sanction
of Government to any general scheme it would
be a great boon to the Masters of these Schools
if you would allow the surplus fees of the Quarter
ending on 31st Instant to be appropriated in
making some temporary addition to their pay -
The surplus fees of the Hindu School for the
Quarter will afford an increase of 20 percent
on the salaries of the Masters and the surplus
fees of the Calcuttullah Branch School will
afford an increase of 18 percent - Considering
the present exceptional state of things I recom-
mend that the surplus fees of each School

for the Quarter ending 31st Instant be drawn, and ⁷⁵
that a donation of 20 percent on the salary of each
Master for the Quarter be given to the entire establish-

To Mr S Alkinson Esq M A

Director of Public Instruction

Sir

Residency College the 21st August 1866

I have the honor to inform you that Mr Croft will join the Hooghly College tomorrow in accordance with your instructions. Mr Croft will, I trust be again appointed to this College to take charge of the classes in Mental and Moral Philosophy and Logic when you are able to make satisfactory provision for the vacancy at Hooghly. Meanwhile I recommend that Mr Lable should be transferred from the Civil Engineering Department to the General Dept^l and that he should take up the work vacated by Mr Croft - To supply Mr Lable's place, I recommend that a Native Assistant Lecturer on 200 Rs a month be entertained payable from the saving of Mr Lable's salary in the Engineering Department - By a rearrangement of the Routine of the Engineering Classes and the First year General Classes I can make satisfactory provisions for instructing the Classes of both Departments in Mathematics through Mr Rees, and the Asst Lecturer now recommended - For the post of Assistant Lecturer I recommend Baboo Ashutosh Mukherjee B A whom I know to be qualified for the work assigned him. As regards Mr Lable's pay I would point out that three fourths of Mr Gopal's salary or 600 Rs is available in the General Department, and he might be permitted to draw a further sum of 200 Rs from the office in the Engineering Department he now vacates.

Presidency College the 25th Sept 1886

I have the honor to inform you that the Examiner of Claims has returned unpaid the salary bill of Baboo Ashvotash Monkeye Assistant Lecturer lately appointed to this College for 11 days of August last, on the plea that an order from Government is necessary to enable him to pay the amount. It would seem from your endorsement No 3595-Dated 11th September, that Baboo Ashvotash Monkeye is to be paid from "Surplus funds" but whether the Surplus funds are available from the undrawn portion of Mr. Grapeli's salary or from the amount sanctioned for an Assistant Professor of Mathematics of the 4th Grade in the Engineering Department can only be determined after Mr. Lobb's position has been settled - I would accordingly suggest that instructions be sent to the Examiner of Claims to pay the amount from Surplus fees of the College.

Sir

Director of Public Instruction
Presidency College the 7 March 1867

I have the honor to forward an Application from Mr Omsley for the officiating Professorship of Natural Science during Mr Blanford's absence. I have already pointed out to Mr Omsley the demand on his time which the College work will entail. And there seems to be no difficulty in his combining temporarily the College appointment with his Appointment on the Geological Survey. Of Mr Omsley's qualifications for the post there can be no doubt. And perhaps it would not be beyond the truth to state that he is better qualified than any other possible Candidate in Calcutta. There is no one in the Education Department that I know of, who could undertake Mr Blanford's duties, and I therefore recommend you to appoint Mr Omsley. There will be 550 Rupees a month available for Mr Blanford's pay for the remuneration of his temporary successor.

 for carrying on the work of the college after Mr. Lumsden's

 Mr. Frost be appointed to officiate in the 2nd Grade
 for Mr. Sanders - and that he should take the 4th
 year Class in English literature and metaphysics
 and also the Honor Classes in these branches - for
 the instruction of the 3rd year Class in English literature

and in this branch partly of the Honor Class I
recommend that Mr Walter Ellis be appointed
temporarily - and for the Metaphysics of the 3rd -
and 2nd year Classes hitherto taken by Mr Frost
Recommend the appointment of Anbu Kholanath
Paul M. A. 3rd Master of the Hindu School. The
Minimum pay of Mr Sawney's Grade Rs 750 is
available for carrying out these proposals, and
would suggest that Rs 500 a month should
be assigned to Mr Ellis and Rs 250 to Anbu
Kholanath Paul - leaving the entire salary
of the latter in the Hindu School available for
the arrangements which it will be necessary
to make in consequence of his temporary

Sir

The Head Master of the Colootallah Branch School having been promoted to the 4th Grade, I have the honor to recommend the following appointments in the School

Bombay Girdhanker Deb - 2nd Master The Head Master

Bombay Salmony Chuckerbutty 3rd D. or 2nd Master

Bombay Chandishwar Banger 4th D. or 3rd D.

Bombay Hanolalle Roy 6th Master Hindu School

to be 4th Master on 100 Rs a month, but to officiate as 4th Master of the Hindu School till further orders.

Bombay Subinashanker Banger to continue to officiate as 4th Master till further orders on 100 Rs a month. —

The Masters whom I have recommended for the three highest posts in the School have officiated in them for sometime and they have discharged their duties to my entire satisfaction. Bnbr Harolall Ray is also one of the best of the Junior Masters of the Hindu School, but I should be sorry to deprive the Hindu School of his services at the same time that Bnbr Kholanath Paul is taken away. I hope therefore that you will allow him to officiate as 4th Master of the Hindu School for the present. The officiating 4th Master of the Colortollah Branch School is a competent man and the School will in ^{no} way suffer by his being allowed to remain in his present post for some time longer.

2 To fill the vacancy in the Hindu School caused by the temporary transfer of Bnbr Kholanath Paul to the General Department of the College I recommend that Bnbr Gopukishan Mitter 4th Master on 100 Rs be appointed officiating 3rd Master on 150 Rs. The full pay of the post. and I recommend that Bnbr Harolall Ray 6th Master on 80 Rs be appointed officiating 4th Master on 100 Rs. The appointments in the Colortollah Branch School might date from 1st April and those in the Hindu School from 9th April.

3 Candidates for the 6th Mastership of the Hindu School might be invited to come forward.

Sir

There are some of the Junior Masters of the Colortollah Branch School whom I should have been very glad to recommend for promotion in the arrangements consequent on the transfer of the Head Master to the College - and the circumstances of their case warrant me I think in making a special appeal to you on their behalf. The 5th Master does the work of his present class very well, but both the officiating Head Master and myself were of opinion that he could not take up the duties of the 4th Mastership and he was therefore not recommended for promotion. This prevented the promotion of 6th and 8th Masters who were immediately below him, and they may be considered to have lost a step in the promotions of the School to which their services give them a claim. The 9th Mastership again is held by a man whose services extend over a quarter of a Century at the Branch School but I could not recommend for promotion to a higher post and this has kept down the 10th & 11th Masters who might reasonably expect ^{because some} promotion when opportunity offered. My proposal now is to place the 6th 8th 10th & 11th Masters in the same position as regards pay that they would have been in had they been promoted one step when the recent arrangements

were made - This proposal only involves a monthly
 charge of Rupees 40/- and this might be debited
 to surplus fees which are ample enough to meet
 a far heavier charge - would distribute this
 amount by giving an increase of Rs 10 a month
 to the 6th 7 & 8 and of 5 Rs to the 10th & 11th Martins

of great merit convert these Prizes into
Medals. However that may have been Mr.

To W. L. Atkinson Esq. M. A.

Director of Public Instruction

With reference to your Memo. 11727 of the 18th inst. I would suggest that a Circular be issued to all Schools notifying that all Candidates for Government Junior Scholarships must take up a Clapical language at the Entrance Examination of 1868 and subsequent years. I am not prepared to say that no Candidate should be admitted into a Government College who has not passed a Clapical language, but it is perhaps desirable that the opinions of Principals should be taken on that point. As regards Candidates for Scholarships however it seems indispensable that they should pass in a Clapical language - Not only would an undue advantage be conceded to those passing in a Vernacular - if allowed to become Candidates for Scholarships on account of the greater difficulty of Sanscrit and Arabic but it would clearly be impossible for such students to carry on their Studies simultaneously in the College Claps with under Graduates who had already mastered the elements of Sanscrit or Arabic. If you concur with me in thinking that a Circular of the above nature is called for - I would suggest that it should be issued without delay - Many boys have left the 2nd Clap of the Hindoo School where Sanscrit is

university for other Schools where they are not
required to read Sanskrit in the expectation
of being allowed as Candidates for Scholarships
to take up Benculi at the Entrance Exami-
nation. These boys are at the same time
acquiring a knowledge of Sanskrit by private
tutoring in order that they may be able to join
the 1st year Class of pupils -

Director of Public Instruction

Dated 27 April 1867

Refers to Mr. Blanford's Letter of 20 April 1867

The undersigned begs to observe that
Mr. R. R. R. R.'s term of service is a very short
one, and that the consideration of his claims
to an increase of pay may without hardship
be postponed a little longer. The Laboratory
Roomer ought however to receive an increase
and the undersigned suggests that he should be
allowed 7 Rs at present with an understanding
that his ultimate pay will be 8 Rs after a longer
term of good service. The extra Rs may be charged
to surplus Schooling for 1st May 1867.

Sir The Examiner of Claims has proposed a
deputation allowance or 20 percent on the mean
salary of Mr Blanford to Mr Ormsby who is off
as Professor of Natural Science. Mr Ormsby thinks
that under the circumstances he should be allowed
to draw half the pay of his appointment in the Geological
Department and half the pay of Mr Blanford's office
or Rupees 1507 from the Geological Department and
525 Rupees from this office. I concur with him in
thinking that he should draw a moiety of the
pay belonging to his substantive and officiating
appointments, and beg that you will recommend
Government to sanction this as a special
arrangement. It should be borne in mind
that Mr Ormsby has been appointed to take up
Mr Blanford's duties on account of there being
no one in the Education Department who could
discharge the duties of this office.

Sir With reference to the letter from the Assistant Secretary to the Government of Bengal, forwarded with your endorsement, No 2528 of 17th Instant I beg to point out that Mr Omsley is not an Educational officer and on this account I suggested in my letter No 529 of 6th May, that the Rule as regards officiating allowances applicable to officers of this Department might be set aside in his case. The case is a special one as such I hope you will ask Government to reconsider the decision now under acknowledgment. I am under the impression that Mr Omsley will decline to carry on Mr Blanford's duties upon a mere deputation allowance - more especially as the Superintendent of the Geological Survey expects that only half of Mr Omsley's salary in that Department will be drawn during the time he is officiating for Mr Blanford.

The funds from which the Hindu College

private - and the conferring of the Vacant
Scholarship on Jagendra Chandra for the
remainder of the session will enable him
to resume attendance on the College
Honor Class in English which his circum-
stances compelled him to leave in May
last - He has again been admitted to the
Honor Class on learning that there was
a chance of his being elected to the Vacant
Scholarship - The fact that these scholarships
are paid from private funds and that
they afford such needful help to graduates
reading for Honors - constitute I think
very good reasons for departing from
the custom now observed, of not awarding
Government Scholarships which may
lapse during the session. In the regard
of the latter I can quite understand
that much inconvenience might arise
but I can see no reason to apprehend
any thing of the kind from the award of
one of the Foundation Scholarships

The undermentioned students (arranged in order of merit) having passed the University Examination for a License in Civil Engineering, are qualified for employment in the Public Works Department in the grade of an Assistant Engineer -

- 1 R. M. Lachester
- 2 Khettar Nath Ghose
3. Omrota Lal Roy Chowdhury
- 4 Bhoban Mohun Bose
5. Geo Nath Banerjee
- 6 Anadi Nath Mukherjee

2 The above Licentiatees are the last of the students who entered the College under the Government Guarantee of employment to a limited number of qualified men annually. The Guarantee in the grade of Engineers extends however only to 5 men annually (two Europeans and three natives) and it happens that whilst there is only one European in the above list, there are five qualified natives. As a special case I would recommend that all the Licentiatees of this year be appointed Probationary Assistant Engineers, because during the preceding two years only two students have left the College who were in a position to claim employment in Engineer

grade under the guarantee, and also because these young men constitute the last batch, who can enter the Department of Public Works as Probationers as a matter of right

The officiating Examiner of Claims having retrenched 9 Rupees from the Contingent Bill of the College for the month of May - being the salary of a Pressman for the Lithographic Press - I beg that you will move Government to authorize payment of this Charge from the Contingent allowance so long as it may be necessary to incur it.

2 The Circumstances, under which the Pressman has been entertained, are these. There are annually at the College two Examinations of Candidates for Employment and Promotion in the Public Works Department and the Cost of getting the Questions and Diagrams requisite for these Examinations struck off at a Public Exp. amounts nearly to the same sum that would be incurred by regularly entertaining for an entire year a Pressman to work at the Press belonging to the College. Besides the above Examinations the Engineering Classes constantly require Plans and Diagrams to be multiplied and the Charges for this kind of work at Messrs Black & Co's Exp. are considerable - so that on these two Accounts alone - there is a large saving effected by engaging a Pressman at the College instead of employing an external agency - It is of course impracticable to get Examination Questions

presented at the Alpine Jail Rep- In addition to the above work a Repman on the premises can strike off all Bills, forms, &c which are required for the schools or College - Taking all these different items into account, there can be no doubt that the employment of a Repman leads to a very considerable saving, and I beg that orders may be passed sanctioning payment of the charges from the Contingent allowance.

Dated 27th May last forwarded with your

I have the honor to inform you that the Model
and Survey Allowances therein alluded to,
are not in the nature of personal allowances
to Professors - but are expended for the pur-
poses which the allowances indicate. The
Model allowance of 100 Rupees a month
is expended in the purchase of Models
and Philosophical apparatus for the
use of the Classes - and the sanction of
such an allowance, as a part of the regular
expenditure obviates the necessity of asking
for special grants for the same purpose
from time to time. The Survey allowance is
expended in forming a Camp at Rancegunge
or elsewhere, during the Cal season, when
the Senior Classes proceed to learn practically
the mode of conducting Surveys and laying
out Roads or Canals. The allowance is expended
in the transport of tents &c. in the payment of
actual Railway fare of Students and of the
Professors in Charge, and in the payment of

all the necessary charges for Cooks &c which
such work requires. The only portion of the
allowance which is expended in the nature
of a personal allowance is a grant of
4 Rupees a day to the Professor in charge
in consideration of the increased expense
to which he is put in leading a Camp
life for 3 months.

Residency College the 10th Aug. 1867

Sir

I have the honor to request that you will
ask the Executive Engineer Residency Division
whether it would not be advisable to give additional
security to the floor of the Library of this College and
its North & South Walls by placing a series of black
Iron Pillars with an architrave on the ground
floor. These pillars might run parallel to each
wall at a distance of about 5 feet, and would
doubtless lessen materially the pressure on the
Walls and give security against any possible
accidents from the bad state of the Library floor.
The beams supporting this floor require frequent
renewal, and probably the severe strain to which
they are subject will render it impossible to
prevent the necessity for such renewal - unless
some such plan as that suggested by me be
adopted. Besides giving undoubted security
to the floor - the surrounding walls would also be
relieved of a considerable amount of pressure
and possibly the subsidence which has been

going on for sometime maybe checked - The Principal
of the Sanskrit College concurs with me in
thinking it advisable to put up these pillars
which will not in any way interfere with the
accommodation of the Claps - If the Executive
Engineers should adopt my proposal the best time
for carrying it out would be during the vacation
in December next.

Yours truly

To W. S. Atkinson Esq. M. A.
Director of Public Instruction

Residency College The 28th September 1867

Sir
I regret exceedingly to have to bring
to your notice a most serious offence committed by
Mr J. S. Rees a 4th grade officer attached to this College.

2 On the evening of the 24th September
Mr Proft called on me and stated that during the
day he ^{had} received notice from the Manager of the Peoples
Bank to provide funds for meeting an acceptance of
his which would become due on the 2nd October. Mr Proft
having had no bill transactions with any Bank
thought there was some mistake, and went over to the
Bank to see the Manager. A bill for Rs 400 was then
produced which purported to have been drawn by
Mr P. Stordern in favor of J. S. Rees and to have
been accepted by Mr Proft. Mr Proft at once pro-
nounced his signature a forgery and Mr Stordern
on being referred to, also stated that his signature
had been forged. It was evident therefore that Mr
Rees who discounted the bill at the Bank had
committed double forgery. On arriving at College the
following morning I sent for Mr Rees, and having
told him what I had learnt requested him to with-
draw from the College and not to present himself
again without orders. Mr Rees neither admitted
nor denied the correctness of my information.

at this interview but he came to my residence ¹⁴⁶ in the evening and admitting that he was guilty begged to be allowed to resign his appointment. I informed him that he might place his resignation in my hands and that I would forward it but with a recommendation that he should be dismissed the service. I now forward his letter but in a case of this kind the plea of good service for many years cannot I think be received in mitigation of the degradation and punishment of dismissal, and I therefore recommend that Mr Rees be dismissed the service from 25 instant.

Yours &c

I have the honor to report that Mr. Sawney
rejoined his appointment on the morning of 30 Nov., and
to request that the unexpired portion of the leave granted
him in your Letter No. 3507 of 20 August may be cancelled.

2.

When Mr. Sawney took leave, he was officiating in the
2nd Grade for Mr. Sanders, who is still absent on ill-
certificite, and not likely to return to his duties before 1868,
and I beg to recommend that Mr. Sawney be reappointed
to officiate in the 2nd Grade for Mr. Sanders, and that

Mr. Croft who was promoted to this officiating appointment on Mr. Sawney's departure from Europe, be appointed to officiate in the Third Grade for Mr. Sawney - these appointments dating from 30th November.

3. The return of Mr. Sawney also displaces Baboo Mohesh Chunder Banerji and Bhola Chandra Paul from their college appointments as they were retained on the salary of Mr. Sawney's appointment as a 3rd grade officer. When Mr. Jee was appointed to officiate for Mr. Lobbs in the 3rd grade on 27th July last. I did not require the services of any one to officiate in the 4th grade for him on account of your having placed two men at my disposal when Mr. Sawney took leave. but it is now necessary that some one should

be appointed to officiate for Mr. Jee, and I recommend that, Baboo Mohesh Chunder Banerji be appointed from 30th Nov^r. The date of Mr. Sawney's return.

School from 30th November. Baboo Bhola Chauth return to his duties in the School will under the following charges necessary.

Baboo Gahinda Chunder Mitter, now officiating 3^d Master, will revert to his substantive appointment as 4th Master of the Hindu School and Baboo Hurra Ball Roy officiating 4th Master of the Hindu School will join the Hare School as 4th Master displacing Baboo Kishun Ball Sircor, who was appointed as officiating 4th Master of the Hare School during Hurra Ball's detention at the Hindu School. Assuming that Baboo Mohesh Chunder Banerjee's services are retained in the Presidency College in place of Mr. Lums I beg to recommend that the officiating Head Mastership of the Hindu School be conferred on Baboo Bhola Chauth Paul from 1st January 1868. The present officiating Head Master Baboo Radha Golind Das being allowed to retain the appointment till 31 Decr. I make this recommendation because had it not been necessary to appoint Baboo Bhola Chauth Paul temporarily to the College I should certainly have proposed his appointment to the officiating Head Mastership of the Hindu School when Baboo Mohesh Chunder Banerjee was transferred to the College and you were disposed. I believe to recognize his fitness to the appointment had it been possible to spare him from the Presidency College. I don't intend in proposing this change to express an opinion in the least degree unfavourable to Baboo Radha Golind Das on the contrary he has discharged his duties to my entire satisfaction but it was I believe quite understood at the time of his appointment that whenever circumstances

Comparative Grammar in this Institution
when the State of the Finance will permit,

I would point out that perhaps there could not be a more opportune time for carrying out the suggestion contained in the last paragraph of Mr Secretary Bayley's letter than the present owing to the presence on the existing staff of the College of a Professor who is probably better qualified than any other Officer of the Department to carry out successfully the experiment of a temporary Chair. I need hardly say that I allude to Mr Tawney who to the highest attainments in Latin and Greek has added a knowledge of Sanscrit since he joined the College. If you see no objection, I would therefore propose that the experimental Chair be opened with the Session of 1868, and Mr Tawney be appointed to take charge of an additional allowance of Rs 200 per mensem.

informing you that the 2^d Master of the Hindoo School
Baboo Isher Chunder Mitter will apply for a good service

would take the necessary steps for the appointment of a
successor from that date I recommend the following
arrangements for favorable consideration

Baboo Bholanath Paul, 3^d Master
and officiating Head Master to be 2^d Master and to
continue to officiate as Head Master on 300 Rs a month.

I make the recommendations in favor of the Junior Masters, because for some time past the vacancies in the higher posts of the School have been filled up by the appointment of outsiders, and because I see no probability of their salaries being permanently raised above the present scale. The surplus fees (excluding the allowance from Government) up to the end of December amount to Rs 1300/- and in the current quarter, this will be increased by Rs 400/- at least. I hope therefore you will feel justified in sanctioning the award of the sum I have proposed in gratuities to the Masters. In dealing with the claims of Junior Masters I have put down a sum for each, which would be equal to the annual increase in his salary I should have recommended, had a revision of salaries been practicable.

W. S. Atkinson Esq. M.A.
Director of Public Instruction

Presidency College the 21st January 1868

Sir

In reply to your letter No 111 of 16th Instant, I have the honor to state that when I wrote to you on the 2nd January I was under the impression that the Government of India was prepared to sanction the payment of an Extra allowance of 200 Rupees a month from the Educational Grant of the year and it was unnecessary to consider any other way of providing for the payment of the Professor who might be appointed to take charge of the Class.

As it appears that the extra allowance is to be provided "by means of fees from Students or Subscription". I would suggest that for the present the sum be debited to the General Income from fees rather than that a Special fee be levied from this particular class. Indeed it is but too certain I fear, that the exaction of a Special fee for Latin would deter Students from joining the class, and the General rate of fees for all classes has been ^{too} recently raised to admit of another increase just now. The higher fee of 6 Rupees, which it is proposed to levy from Junior Scholars on 1st January 1869 will produce an increase of income of about 100 Rupees a month.

I cannot recow therefore, upon providing the extra expenditure from that Surce alone

The objection to the debiting of amount to General Fee Fund is in a great measure met by the fact that we almost invariably have some 4th year students who take up Latin as a second Language, and that such students have hitherto been obliged to have recourse to the assistance of some private Tutor or to trust to their own unaided exertions. I admitted one student yesterday to the 4th year class whose 2^d Language at the Degree Examination will be Latin, and most probably if it were known that the college course embraces Latin, I should soon have other applicants for admission. I have also had an application from a Latino Graduate to join a Latin class if no special fee be levied. I think therefore that viewing the formation of the new class as an experiment, you might very properly recommend Government to sanction payment of the extra allowance to the Professor from the General Fee Fund of the college for two sessions, after which period a report might be submitted showing how the class has succeeded.

Occasionally I receive applications from Students to attend a particular course of Lectures in the General Department, and this privilege was formerly given on payment of a fee of 25 Rupees for the Session. Now the General fee has been raised from 10 to 12 Rupees I propose that the fee for a single course of Lectures be fixed at 32 Rupees. In the Law Department I also recommend that a uniform fee of 50 Rupees be required from any outsiders who wishes to attend the Lectures of ^{any} particular year.

The 6th and 7th Masters have done their work very well and are deserving promotion. The lower Classes there has been no promotion for the last 6 years, and owing to the anomalous position which the Head Pundit occupies if this opportunity be lost there may not probably be another for a considerable time. Perhaps you are not aware that the 8th Mastership of the School (worth 60 Rupus a month) is filled by the Head Pundit, and that one of the Junior Masters is styled on the establishment of the School Head Pundit - although he performs the duties of an ordinary Teacher. This arrangement was made 5 years ago in order to get a better qualified man as Head Pundit than could be had if only 20 Rupus a month (the sanctioned salary of the) office were allowed. Accordingly Pundit Shama Churn Mookerjee the actual Head Pundit was appointed 8th Master on 60 Rupus a month and one of the Junior Masters Baboo Naik (Kundoo Bop) was styled Head Pundit and the pay of that post (20 Rupus) assigned him the arrangement has been an unfortunate one for the Junior Masters as the Pundit was appointed 8th on the understanding that he was not to have promotion and the consequence has been that none of the Masters below 8th have been promoted a single step since the appointment was made. There is now an opportunity of giving them a step which I hope you will not pass by - more particularly as they have done

done them work entirely to my satisfaction

Sir,

The Hare School has acquitted itself so exceedingly well in the late University Entrance Examination, that I have no hesitation in complying with a request on the part of the masters that I should ask you to confer some mark of approval upon them. I find that thirty two candidates from the school have passed the Examination of whom 14 have been placed in the first Division, 14 in the second, and 4 in the third. Fourteen Junior Scholarships have also been gained by the students. viz 4 of the first grade, 3 of the second and 7 of the third. Probably there is no other School in Bengal which can lay claim to such a creditable result; and ^{this} being mainly due to the teaching of the Masters. I should be glad if you would allow the sum of Rs 1400/- to be taken from the surplus fees of the year, and distributed amongst the Masters and Pundits according to the following scale.
